Herald

Conceived at Standard-Triumph in 1956, the Herald was launched 3 years later with a design by Giovanni Michelotti. Although it was competing in the small-car market with cars like the Mini and Anglia, it achieved reasonable success, with over half a million cars built during just over a decade.

Press comment was favourable on launch day. The car's advantages were its economy, its separate chassis, ease of maintenance, and its remarkable turning circle (designed to match a London taxi).

On the debit side, the car was costing more than its target price, it acquired an instant reputation for poor finish, and it was definitely underpowered.

The original engine was a 948cc 4-cylinder unit. Other features of the car included independent front suspension, rack and pinion steering, adjustable/telescoping steering column, and independent rear suspension with swing axle transverse leaf and spring layout.

First out, in April 1959, came the Saloon and the Coupe, to be joined later in the year by the Twin Carb Saloon and the Convertible. Soon there was an attempt to overcome the pricing problem by introducing an ultrabasic Herald 'S', but this was short-lived.

In any event, the car's problems were smaller than those of the company, which fell badly into the red during 1960, more the fault of the market than the product. The outcome was the acceptance of a bid from Leyland in 1961, which actually took the Herald into the same stable as the Mini with which it was competing!

Around the same time came the new Herald 1200, with its 1147cc engine at the head of a list of mechanical changes. Externally the car remained virtually identical. There was an Estate and a restyled Coupe in 1961, although the Coupe ceased production in 1964.

The 1200 Saloon was to be made until 1970. In 1967 it was joined by the 13/60, which had a 1296cc engine and was easily distinguishable by the V-shaped front it borrowed from the Vitesse.

When the production line ceased rolling in 1971, 13/60 Convertibles and Estates were the last models to come from it.

HELPING YOU CARE FOR YOUR HERALD

The Triumph Herald is an ideal car for an enthusiast to maintain. With its separate chassis, its simple system of bolt-on components, and the front-end access afforded by the forward hinging bonnet, it is easy to care for.

But, for a car where even the later models ceased production in 1971, far less easy is to continue to find good quality parts. and this is where Rimmer Bros come into our own.

BRITISH MOTOR HERITAGE

Heritage Approval means that Rimmer Bros meet strict criteria regarding quality of service, product knowledge, financial stability, premises and that they carry a broad range of Heritage Original Equipment parts in stock.

Only the premier companies in the classic sector are approved to display the accreditation sign. Rimmer Bros have been Heritage approved for Triumph & Rover SD1 since 1987.

BRITISH MOTOR
HERITAGE APPROVED

Customer Benefits

The quality of service you receive is of the highest order and you know you are dealing with the best companies in the classic sector.

British Motor Heritage product is produced to the highest standards, mostly from the original tooling and to the original specification. All of the product is identified by the distinctive product label.

THE CARS WE SPECIALISE IN

As well as caring for your Herald, we also concentrate on Vitesse, TR2, TR3, TR4, TR5, TR6, TR7/8, Stag, Spitfire, GT6, 2000/2500/2.5Pi, Dolomite, Rover SD1, Range Rover, Discovery, Freelander, Defender, 90/100 & Land Rover 'Series' vehicles.

Additionally, we also supply parts for MG Rover cars - Rover 100/200/400/600/800/25/45/75/ZT & MGF.

Please refer to inside rear cover for details on all our catalogues.

UK · WORLDWIDE · THE

SO WHERE DO WE GET OUR PARTS

Wherever possible we supply original stock from BL/Rover sources - lots of parts are still manufactured. Where this fails, we sometimes have parts re-manufactured. We have Heritage approval to do this, because we have satisfied them as to our quality control standards, and we use original tooling and factory drawings where these are available. Where original parts are unavailable and the cost of re-manufacture is prohibitive, we may supply a suitable alternative or in certain cases offer a used (non safety critical) part.

THE STOCK WE NEED TO GIVE THE SERVICE YOU NEED

Our degree of specialisation means two things.

Firstly, our people know the cars we're dealing with inside and out, and can give you any advice you might need regarding part selection.

Secondly, we are able to stock in depth just about any part you might need. Triumph House is our latest HQ, acquired in 1991. With over 75,000 square feet of warehousing alone, it is a cavernous building, and it needs to be! It currently contains more than 350,000 recorded part numbers with over 30,000 stock lines, and we hold as many of each as necessary to make it almost impossible to run out of stock.

All other aspects of our operation receive equal emphasis. A truly efficient mail order and stock control system. The latest racking and storage facilities for fast and accurate "order picking". Careful packaging and despatch procedures.

THE PEOPLE YOU'RE DEALING WITH

This company really is owned by two brothers named Rimmer. Bill and Graham started their business from humble beginnings in the early 1980s, and it has grown to be one of the leading organisations of its kind in the world, supplying parts Worldwide to an ever growing list of customers.

Both Bill and Graham still work full-time in the business, helped now by over 60 members of staff.

The main qualification of membership of our staff is a recognition that our customers, and our company reputation, depend on our ability to get every aspect of our service right first time.

**RIMMER
BROS**

COMMITMENT TO CUSTOMER SERVICE

*Helpful - Accurate -
Fast - Efficient*

The overall objective at Rimmer Bros is to achieve customer satisfaction at all times.

Our people know your car well, and every member of our staff is dedicated in helping to preserve Classic Cars.

Our computer system gives up-to-the minute information regarding availability and the price of any item.

We have an enviable reputation for despatching goods when the customer needs it, quickly and efficiently.

We try to make all our systems and documentation easy to follow and use, and make sure that our catalogues and price guides really do help our customers choose the right parts easily, first time.

TRADE MARKS & LOGOS: The 'Triumph' and 'Heritage' logos used herein are registered Trade Marks of British Motor Heritage Ltd, and are used with their license under the special 'Heritage' approval scheme.

ILLUSTRATIONS: The factory line drawings of parts are also reproduced under license from British Motor Heritage Ltd.

HOW TO**THIS CATALOGUE & OUR PRICE GUIDE**

There are no prices in this catalogue. Use it to select the parts you need, then check their cost by referring to our web site or the separate Price Guide (or CD rom) which represents the other half of our ordering system. The price guide is updated and reprinted more frequently, but we ask that you confirm all prices when ordering. It may also list additional parts (new lines) that we have introduced since this catalogue was printed, and it has more detailed information about ordering & delivery methods. It also has information on warranties and a 'Trouble Shooter Guide'.

ORDERING BY PHONE

Please quote your home postcode and part numbers where possible. This gives instant access to our computerised records and stock control system. If you have any difficulty in selecting the parts you need, our expert staff can help.

**UK Payment for Phone Orders**

(See also "Overseas Orders & Payment.")

When you have checked on price, availability and delivery costs you can place your order by phone using Visa, MasterCard, Delta/Connect, Maestro, Solo, American Express, Diners Club, or JCB. You will need to tell us the card number, expiry date (or issue number), cardholder's full name and registered card address.

After Hours Ordering Service

We operate a 24-hour answering/ordering service which is available to card holders out of normal hours for both UK and Overseas customers. Just leave all necessary details on our telephone voice mails, ie your vehicle type, year, model, the parts and/or the part numbers you require, plus your name, address (inc. postcode), credit card details and delivery address (if different).

Writing out these details before phoning usually helps a caller to give us clear instructions. If at all possible, please also leave a daytime telephone number.

ORDERING BY POST

Triumph House, Sleaford Road, Bracebridge Heath, Lincoln, LN4 2NA, England.

We ask you to phone first if at all possible - to check your parts selection, and to advise of delivery charges. Because prices and availability sometimes change, we can also confirm the exact remittance needed, avoiding unnecessary delays. If you have not been able to telephone, please give us all possible information - car type/year, RH or LH, front/rear etc - so we can check your selection (including your name, address and postcode) in all correspondence.

Use our Order Form if you can. It asks specifically for all the details we might need. Please photostat or request additional copies of the order form if required.

UK Payment for Post Orders (See also "Overseas Orders & Payment.")

Send your remittance with the order. The 'Pricing' section in the Price Guide tells you how to calculate the amount.

We accept payment by personal cheque even if the cheque guarantee card limit is exceeded. All we require is your full name and address on the back of the cheque along with your cheque card number and for business cheques, a relevant letterhead. Cheques or P.O.s made out "Rimmer Bros Ltd" please.

Note, if you are unsure as to the exact amount to send, you can write across the top of your cheque, "Cheque Value Not To Exceed £...". You can post us your credit card details if you prefer. If you send cash, note that we cannot accept responsibility for any loss, so registered mail is essential. Bank drafts and Building Society cheques are also accepted. For Bank Transfer information see Price Guide.

ORDERING BY FAX

UK CUSTOMERS: 01522 567600 OVERSEAS CUSTOMERS: +44 1522 567600

(See also "Overseas Orders & Payment.")

Another facility for customers who wish to make enquiries, or order by credit, debit or charge card. Again, we will need your name, address (inc. postcode), credit card details and delivery address (if different). Plus fullest possible car/parts details - as for orders by post.

ORDER

COLLECTING IN PERSON

If you wish to 'call and collect', you will always be made welcome at our shop and sales counter during business hours. Our Visitor Information Centre has lots of interesting details of each production model and the factories where they were produced.

Customers drive here regularly from all over Europe. Lincoln is a historic Cathedral city and is an excellent place to visit. We're about 2 miles south of Lincoln on the A15 Lincoln to Sleaford road (see map on back cover). We advise you to pre-check by phone that we have the part/s you want in stock.

We accept payment by credit card, cash, bank draft, travellers cheque, building society cheque, and personal cheque (when presented with a cheque card) even if the cheque card limit is exceeded, and by business cheque with accompanying letterhead.

PRICING

For full information and details on prices, VAT, & VAT exempt export sales, please refer to our web site or the latest Price Guide. Written quotations are available on request, for parts and/or delivery charges. Please confirm all prices when ordering - prices and availability can sometimes change at short notice. Please note that our latest prices can be found on our web site.

OVERSEAS ORDERS & PAYMENT

We supply parts to car owners Worldwide. We have thousands of customers in Europe and regularly send parts as far afield as Australia, North America, Africa and the Far East. Delivery costs of course, vary greatly (depending on size/weight/ urgency). We can quote accurately for the cost of parts and delivery once your requirements are known.

Our Multi-language European Order Forms explain how to order parts in English, Italian, German, Spanish and French.

TEL: **+44 1522 568000**
FAX: **+44 1522 567600**
E-MAIL: **sales@rimmerbros.co.uk**

Payment By Export Customers:

There is a choice of payment methods for customers overseas;

- A) Credit card, Debit card or Charge card.
- B) Bank cheque - in ££s sterling (Drawn on a London Bank)
- C) Travellers Cheques (signed) - in ££s sterling.
- D) Giro Cheques in ££s sterling.
- E) By Bank Transfer - see Price Guide.

PLEASE NOTE THAT ALL TRANSACTIONS MUST BE IN ££s STERLING.

CHOICE OF DELIVERY METHODS

(For Further Information/Cost Details, Please Refer to Price Guide)

UNITED KINGDOM

There are numerous delivery options for the UK mainland ranging from Post to overnight carrier services. We can advise of the best method of despatch when you telephone. The type of service that we recommend depends upon the size, weight and urgency of the parts you require.

Our price guide indicates the approximate costs, and we will confirm the final invoice total at the end of the call if required.

WORLDWIDE (NON EC COUNTRIES)

We started exporting parts Worldwide in 1982, and since then we have gained an excellent reputation for our speed & efficiency of service.

Delivery costs are based on size, weight, and method of delivery. We have discounted rates with well known carriers, so costs are kept to a minimum. Send us a list of the parts you need (using post, phone, fax or E-Mail), tell us quantities and urgency, and we will work out the best delivery method and quickly advise you of the cost.

Written quotations are available on request.

EC COUNTRIES

The European Community Single Market permits the free movement of goods between all EC countries. This allows us to provide a superb service to all our customers within the EC, with the benefits of improved delivery - via lower charges and easier documentation. Deliveries can be easily arranged using air or surface transport. Our Price Guide indicates approximate costs.

NEW & RECONDITIONED PARTS

Almost every part we list is sold brand-new, but in many instances we also offer you the facility to buy "Reconditioned" (usually giving us your old component in part-exchange).

Where there is a reconditioned version of a part, you will find the letter 'R' added at the end of the part number.

EXCHANGE SURCHARGES (REFUNDABLE)

Where parts are sold on an exchange basis, an "Exchange Surcharge" is applied - a deposit in effect, which is refunded to you when your old unit is received by us. This system allows you to make an exchange without having to send the old unit first ... it can often prevent your vehicle being off the road. The amount of the Exchange Surcharge is shown in the Price Guide in italics below the part number.

Before returning your old unit, please telephone our customer service dept on 01522 568000 in order to obtain a return authorisation number. See reverse of invoice for full details of return procedure. Units must be drained of oil, water and be serviceable; we reserve the right to retain all or part of the surcharge if the unit is irreparable, damaged, incomplete or not identical to the type supplied.

SELECTED USED PARTS

We are often asked for parts that are no longer available, where the cost of re-tooling or re-manufacturing is prohibitive, and there is little or no chance of the part becoming available. We have also found that some customers prefer the option of being able to buy a (non safety critical) used alternative, where perhaps the cost of a new part is unjustified.

Over the years, we have acquired many parts which are suitable for re-sale. You will find these parts listed in the Price Guide under the same part number reference as new but with a 'U' suffix. All used parts have been cleaned and inspected and are sold as serviceable when fitted.

"Errors & Omissions Excepted. All parts offered subject to availability.

All part numbers, illustrations and photographs used in this catalogue are intended for reference/identification purposes only, and are not necessarily an exact representation of the goods supplied. Whilst we make every effort to ensure the accuracy of product descriptions in this catalogue, they are based upon information supplied by the manufacturer/distributor at the time of publication. There may be occasions - due to circumstances beyond our control - when specifications are changed, or when goods become temporarily unavailable. Certain part numbers have been superseded to an alternative number when a later version or updated specification is offered.

Herald

It was 1956 when work first started on project Zobo which later became the Herald we all know, love and drive today. However if the chairman of BMC Sir Leonard Lord had not had a disagreement with the MD of Standard-Triumph Alick Dick, then Zobo may have turned into a completely different car. Standard-Triumph had hoped to renew a long term contract with a subsidiary of BMC for building bodies of the yet to be announced new model. However due to the rebuff and a lack of capacity at the other body building company Pressed Steel Co, a major rethink was required. Standard-Triumph did not want to be beholden to outside contractors for monocoques and a lack of in house pressing capacity, the decision was made to go down the separate chassis route. Although at the time it was seen as a retrograde step compared to the monocoque construction now being used by all the other major manufacturers, it did however offer several advantages.

Firstly it enabled Triumph to manufacture the body panels in smaller sections and thus gave a greater choice of smaller scale suppliers. It obviated the need for assembly jigs, and finally, and probably most importantly, it enabled various body styles to be easily produced with the minimum of modification.

If the styling had been left to Triumphs own internal stylists, we would never have had the benefit of the stylish bodywork that graces the Herald. In fact when project Zobo was initiated in 1956 the in house initial designs were dumpy to say the least. Some people even went as far to say that it resembled a mechanical bathtub on wheels. It needed a styling miracle, and that miracle came along in the spring of 1957 when the Standard-Triumph management team were introduced to Giovanni Michelotti.

Michelotti delivered the prototype on Christmas Eve 1957. Apart from a few details like bonnet latches, tail lamps, grille and badging, what he delivered was identical to how the coupé version of the Herald looks today. The Zobo prototype X608 and other pre production prototypes were put through a variety of testing including a trip to Tangier.

The Herald was launched in 1959 at the Albert Hall by Bob Monkhouse. The coupé and saloon models were displayed and, as a unique piece of theatrical display, a team of mechanics built up a car from sub assemblies in four minutes, after which it was started and driven away.

At the launch the coupé cost £731 and the less powerful saloon came in at £702 including purchase tax. Sales were initially good with a high level of interest from the motoring press. Unfortunately the Herald was more expensive than the competition (a Ford Anglia 105E was £92 less and you could buy a Morgan 4/4 for the same price as the Herald). With the financial problems of the time, it was not good news. Normally Triumph reacted to falling sales by dropping prices, however instead as they had just been taken over by British Leyland, they launched a stripped out version called the Herald S which was sold at £664.

From this start a whole range of models were produced; 948, S, 1200, Courier van, 12/50 & 13/60 in a variety of body styles. (Coupé, saloon, convertible and estate). A total of 521902 cars were sold. Together with all the models based on this original chassis design, the Vitesse, Spitfire, GT6 and Bond ranges gave a total just short of a million cars.

VEHICLE PRODUCTION & SPECIFICATION SUMMARY

Rear Suspension

Rear Spring Bush;			
Standard	(2)	C8939A	
Polyurethane	(2)	C8939APOLY	
Radius Arm Bush;			
Standard	(4)	119451	
Polyurethane	(4)	119451POLY	
Shock Absorber Bush;			
Standard (each)	(8)	102987	
Polyurethane (pair)	(4)	102987P	

Kits

Clutch Kit (includes OE spec cover plate & bearing);			
6 1/4" Coil Spring	(1)	RH5009	
See application notes in clutch section.			
6 1/2" Diaphragm	(1)	GCK272	
See application notes in clutch section.			
Hose Kit (includes all radiator/heater hoses & clips);			
1200	(1)	RH5281	
12/50	(1)	RH5282	
13/60	(1)	RH5283	
Front Hub Bearing Kit (per hub)	(2)	RH5027	
Rear Hub Bearing Kit (per hub)	(2)	GHK1022	
Brake Kits (Front)			
Please refer to "Brake System" for details on all brake kits			
Disc & Pad Set (2 discs & pads);			
Standard Discs & Pads	(1)	RL1525	
Type 12 calipers.			
Upated Discs & Pads	(1)	RL1525UR	
Type 12 calipers EBC Discs and pads.			
Upated Discs & Pads	(1)	RL1525ROS	
Type 12 calipers ROSSINI Discs and pads.			
Standard Discs & Pads	(1)	RL1080	
Type 14 calipers.			
Upated Discs & Pads	(1)	RL1080UR	
Type 14 calipers EBC Discs and pads.			
Upated Discs & Pads	(1)	RL1080ROS	
Type 14 calipers ROSSINI Discs and pads.			

Rubber Seals

Windscreen Rubber	(1)	805856	
Windscreen Frame to			
Roof Seal (Saloon)	(1)	703696	
Rear Roof to Deck Seal (Saloon)	(1)	611750	
Hood Header Rail Seal (Convertible)	(1)	609366	
Hood Sides (pair)	(2)	609340	
Rear Side Glass Seals (pair);			
Saloon	(1)	805762-3	
Estate	(1)	704786-7	
1/4 Light Seals (pair)	(1)	803558-9	
'A' Post Seal	(2)	630755	
Door Waist Seal Outer	(2)	608278	
Door Waist Seal Inner	(2)	608288	
Bonnet Seal (to bulkhead)	(1)	609272	
Boot Lid Seal	(1)	YKC68	
Door Aperture Seal;			
Available in black, blue, red, tan, chestnut, beige.			
Saloon	(2)	RX3004	
Convertibles	(2)	RX3005	
Rear Screen Sealing Rubber;			
Saloon	(1)	803357	
Coupe	(1)	902754	
Estate/Courier	(1)	804288	

Cables

Accelerator Cable;			
984, 1200, 12/50	(1)	152677	
13/60	(1)	148679	
Choke Cable;			
984, 1200, 12/50	(1)	401458	
13/60	(1)	402694	
Handbrake Cable;			
Short Cable	(1)	121766	
Handbrake to relay lever.			
Main Cable	(1)	127311	
Compensator to wheel cylinder.			
Speedometer Cable	(1)	GSD111	

ENGINE & HEAD REBUILD KITS

Full Engine Rebuild Kit

This kit contains everything you need to recondition your full engine. We assume you will have the block re-bored and any other machining done as required.

IMPORTANT - Pistons are supplied +0.020" oversize. Bearing sets are supplied in standard size. Please advise specific sizes required at time of ordering.

Kit contains:-

Piston set +0.020" oversize (inc rings/pins) (state size required)
Main & big end bearing shells (state size required)
Thrust washers (state size required)
Inlet valves
Exhaust valves
Valve springs
Valve guides
Tappets
Timing chain
Timing chain tensioner
Crankshaft sprocket
Oil pump
Oil pressure relief valve
Oil pressure relief valve spring
Oil pressure switch
Head gasket set
Sump gasket set (inc oil seals)
Oil filter

Additionally why not add some or all of the following options to the rebuild kit;

Crankshaft
Camshaft
Rocker shaft
Rocker arms
Camshaft sprocket
Con rods

In addition to the rebuild kits, the engine section of this catalogue lists all the other parts that you might want to buy additionally, such as engine studs, cylinder head nuts, water pump etc.

FULL ENGINE REBUILD KIT

1200 (Early 39 Bhp) Up to GA80000E.	RH5015R BK
1200 late (Late 48 Bhp) Engine prefix GA & GD.	RH5024R BK
12/50 (51 Bhp) Engines from GD1 to GD103470.	RH5040R BK
13/60 (61 Bhp) Prefix GE.	RH5020R BK
13/60 (61 Bhp) Prefix GK.	RH5032R BK

Short Engine Rebuild Kit

This kit contains everything you need to recondition your short engine. We assume you will have the block re-bored and any other machining done as required.

IMPORTANT - Pistons are supplied +0.020" oversize. Bearing sets are supplied in standard size. Please advise specific sizes required at time of ordering.

Kit contains:-

Piston set +0.020" oversize (inc rings/pins) (state size required)
Main & big end bearing shells (state size required)
Thrust washers (state size required)
Tappets
Timing chain
Timing chain tensioner
Oil pump
Oil pressure relief valve
Oil pressure relief valve spring
Oil pressure switch
Head gasket set
Sump gasket set (inc oil seals)
Oil filter

Additionally why not add some or all of the following options to the rebuild kit;

Crankshaft
Camshaft
Crankshaft sprocket
Camshaft sprocket
Con rods

In addition to the rebuild kits, the engine section of this catalogue lists all the other parts that you might want to buy additionally, such as engine studs, cylinder head nuts, water pump etc.

SHORT ENGINE REBUILD KIT

1200 (Early 39 Bhp) Up to GA80000E.	RH5028R BK
1200 (Late 48 Bhp) Engine prefix GA & GD.	RH5010R BK
12/50 (51 Bhp) Engines from GD1 to GD103470.	RH5036R BK
13/60 (61 Bhp) Prefix GE.	RH5005R BK
13/60 GK (61 Bhp) Prefix GK.	RH5038R BK

Cylinder Head Rebuild Kit

This kit contains everything you need to recondition your cylinder head.

Kit contains:-

Inlet valves
Exhaust valves
Valve springs
Valve guides
Head gasket set

Additionally why not add some or all of the following options to the rebuild kit

Rocker shaft
Rocker arms

CYLINDER HEAD REBUILD KIT

1200 early (Early 39 Bhp) Up to GA80000E.	RH5184R BK
1200 late (Late 48 Bhp) Engine prefix GA & GD.	RH5017R BK
12/50 (51 Bhp) Engines from GD1 to GD103470.	RH5051R BK
13/60 (61 Bhp) Prefix GE.	RH5217R BK
13/60 (61 Bhp) Prefix GK.	RH5174R BK

Cylinder Block Components

Front Engine Plate	(1)	215372
Gasket – Engine Plate to Block; 948, 1200, 12/50	(1)	205457
13/60	(1)	215350
Bolt - Plate to Block	(3)	GHF120
Washer - Plate to Block	(3)	GHF332
Rear Engine Plate	(1)	201344
Stud-Rear Engine Plate	(3)	112907
Cylinder Liner;		
948	(4)	108955
1200, 12/50	(4)	132468
13/60	(4)	158940
Cam Bearing Set <i>Cylinder block (where fitted).</i>	(1)	RL1495
Cylinder Head Stud;		
All Except 13/60	(9)	105121
13/60	(8)	105121
Stud Lifting Eye Bracket	(2)	121217
Nut <i>(Cylinder head stud)</i>	(10)	110748
Washer - Plain	(10)	WP9
Bolt - Main Bearing Cap; Standard	(6)	BH607241
Up rated	(6)	BH607241X
Washer – Locking <i>(for BH607241)</i>	(6)	WL600071
Front Sealing Block	(1)	151134
Filler	(2)	36234
<i>Sealing block to cylinder block.</i>		
Screw	(2)	SW605081
<i>Sealing block to cylinder block.</i>		
Gasket	(2)	UKC8321
<i>Sealing block to cylinder block.</i>		
Oil Pressure Switch	(1)	GPS117
Oil Pressure Relief Valve <i>(piston)</i>	(1)	132107
Spring – Oil Pressure Relief Valve;		
Standard	(1)	131535
Up rated	(1)	131535UR
Washer – Oil Pressure Valve	(1)	6K433
Housing – Oil Pressure Valve	(1)	107246
Set Screw – Oil Gallery	(1)	SH605041
Washer Copper	(1)	500469
Plug – Oil Gallery	(2)	118632
Oil Seal – Crankshaft;		
Front <i>(all except GK engine 13/60)</i>	(1)	100499
Front <i>(GK engine 13/60)</i>	(1)	UKC1110
Rear Crankshaft Oil Seal Non Scroll Type	(1)	143456
Housing – Rear Main Oil Seal; 948 and early 1200 to GA206640E & GD1E to GD80058E)	(1)	137374
Late 1200, 12/50 & 13/60	(1)	156530
Gasket – Seal Housing <i>(To block)</i>	(1)	105321
Bush –		
Oil Pump/Distributor Drive	(1)	131786
Stud <i>(distributor pedestal to block)</i>	(2)	TE605105
Dowel <i>(Timing cover to block)</i>	(2)	DP514

CYLINDER BLOCK COMPONENTS

Engine Lifting Eye;		
Front		
948, 1200, 12/50	(1)	121216
13/60	(1)	142649
Rear	(1)	121215
Drain Plug <i>(cylinder block)</i>	(1)	129077
Washer - Fibre <i>(for drain plug)</i>	(1)	WF511A
Stud - Fuel Pump to Block	(2)	100433
Gasket - Fuel Pump to Block	(1)	138791
Core Plug Set <i>(for block & cylinder head)</i>		
948, 1200 (dished type)	(1)	RH5041
All others (bucket type)	(1)	RH5045

Core Plugs – Dished Type;		
Core Plug Set 948, 1200 <i>For block & cylinder head.</i>	(1)	RH5041
Core Plug - Cam Rear	(1)	148353
Core Plug in Head	(1)	27378
Core Plug R/Camshaft	(1)	44473
Core Plug 1" DIA.	(1)	46172
Core Plug - Cam Front	(4)	46549
Core Plug	(4)	56712
Core Plugs – Bucket Type;		
Core Plug Set <i>(all excl. 948 & 1200)</i>	(1)	RH5045
<i>For block & cylinder head.</i>		
Core Plug	(1)	144648
Core Plug 1 1/4"	(3)	144686
Core Plug 1"	(1)	144687
Core Plug 1-1/2"	(5)	144688
Core Plug - Cam Rear	(1)	148353

ROCKER GEAR OIL FEED KIT

A remote mounted kit for increased lubrication to the rocker gear. See 'Accessories' for full details.

Oil Feed Kit	(1)	RR1340
Banjo Bolt only	(1)	RR1340D
Washer – Copper	(1)	RR1340B

ENGINE OIL COOLER KIT

FIT AN OIL COOLER KIT FOR PEACE OF MIND.
Kits include oil cooler radiator, fitting kit, filter adaptor, hoses & fittings, but not thermostat.

Engine Oil Cooler Kit (1) **514082**

Thermostat (Engine oil cooler) (1) **RS1456**
Not included in oil cooler kit.

Oil Pump & Sump

OIL PUMP AND FITTINGS

Oil Pump Assembly (1) **GLP145**
Drive Shaft & Gear Assembly (1) **104860**
Oil Feed Kit (rocker shaft) (1) **RR1340**
A remote mounted kit for increased lubrication to the rocker gear.
Banjo Bolt only (1) **RR1340D**
Washer – Copper (1) **RR1340B**

SUMP PAN AND DIPSTICK

Sump Pan (1) **212006**
Sump Gasket Set;
Inc Seals, not GK Engines (1) **GEG216K**
Less Seals, not GK Engines (1) **GEG216**
Inc Seals GK Engines (1) **AJM279K**
Less Seals, GK Engines (1) **AJM279**
Sump Gasket Only (1) **AJM517**
Oil Drain Plug (1) **22G2115**
Set Screw – Sump to Block (15) **SH505051**
Washer – Locking (for SH505051) (15) **GHF332**
Dipstick (1) **104864**
Tube – Dipstick (1) **UKC4763**
Felt Seal/Washer (Dipstick) (1) **32307**
Oil Pressure Switch (1) **GPS117**
Oil Filter;
948 only (1) **GFE107**
All other models (1) **GFE119**
Adaptor for 948 (1) **12G2518**
Use to adapt GFE119 if GFE107 is unavailable.

Crankshaft & Flywheel

CRANKSHAFT & BEARINGS

Crankshaft (Reconditioned);
All crankshafts include shells.
Early 1200 scroll type (1) **305073R**
All (except late 13/60) (1) **307422R**
Late 13/60 (1) **308737R**
Pilot (Spigot) Bush (1) **105143**
Main Bearing Set;
948 Models
Standard Size (1) **RH5293**
+0.010" Oversize (1) **RH5293-010**
+0.020" Oversize (1) **RH5293-020**
All other Models except late 13/60
Standard Size (1) **RTC1759**
+0.010" Oversize (1) **RTC1759-010**
+0.020" Oversize (1) **RTC1759-020**
+0.030" Oversize (1) **RTC1759-030**
+0.040" Oversize (1) **RTC1759-040**
+0.050" Oversize (1) **RTC1759-050**
+0.060" Oversize (1) **RTC1759-060**
Late 13/60 Models
Standard Size (1) **RTC1753**
+0.010" Oversize (1) **RTC1753-010**
+0.020" Oversize (1) **RTC1753-020**
+0.030" Oversize (1) **RTC1753-030**
+0.040" Oversize (1) **RTC1753-040**
+0.050" Oversize (1) **RTC1753-050**
+0.060" Oversize (1) **RTC1753-060**

Big – End Bearing Set (Conrod);

948 Models
Standard Size (1) **104821**
+0.010" Oversize (1) **104821-010**
+0.020" Oversize (1) **104821-020**
+0.030" Oversize (1) **104821-030**
+0.040" Oversize (1) **104821-040**
+0.050" Oversize (1) **104821-050**
+0.060" Oversize (1) **104821-060**

All other Models except late 13/60

Standard Size (1) **RTC1749**
+0.010" Oversize (1) **RTC1749-010**
+0.020" Oversize (1) **RTC1749-020**
+0.030" Oversize (1) **RTC1749-030**
+0.040" Oversize (1) **RTC1749-040**
+0.050" Oversize (1) **RTC1749-050**

Late 13/60 Models

Standard Size (1) **RTC1754**
+0.010" Oversize (1) **RTC1754-010**
+0.020" Oversize (1) **RTC1754-020**
+0.030" Oversize (1) **RTC1754-030**
+0.040" Oversize (1) **RTC1754-040**
+0.050" Oversize (1) **RTC1754-050**
+0.060" Oversize (1) **RTC1754-060**

Thrust Washer – Pair;

All Models except late 13/60

Standard (1) **104820**
Oversize + 0.005 (1) **104820-005**
Oversize + 0.010 (1) **104820-010**

Late 13/60 Models only;

Standard (1) **BHM1366**
Oversize + 0.005 (1) **BMH1366-005**
Oversize + 0.010 (1) **BMH1366-010**
Oversize + 0.015 (1) **BMH1366-015**
Oversize + 0.025 (1) **BMH1366-025**
Oversize + 0.030 (1) **BMH1366-030**
Woodruff Key (1) **105115**

Shim - Crankshaft Sprocket (use as required);

All except late 13/60
Shim (0.006") (a/r) **27138**
Late 13/60 only;
Shim (0.004") (a/r) **145275**
Shim (0.006") (a/r) **145276**

Sprocket - Crankshaft;

All except late 13/60 (1) **100431**
Late 13/60 only (1) **119389**

Oil Deflector;

All except late 13/60 (1) **100447**
Late 13/60 only (1) **119390**

Pulley - Crankshaft;

All except late 13/60 (1) **202465**
Late 13/60 only (1) **217108**

Nut - Front Pulley;

All except late 13/60 (1) **128058**
Late 13/60 only (1) **155357**

Fan Belt;

All except late 13/60 (1) **GCB11038**
Late 13/60 only (1) **GCB11025**

Flywheel Assembly;

948, 1200 & 12/50
Coil Spring Clutch (1) **129460**
1200, 12/50 & 13/60
Diaphragm Clutch (1) **141675**
Ring Gear (1) **201350**
Dowel (clutch cover locating) (1) **DP410**
Bolt (flywheel to crankshaft) (4) **138526**
Tab Washer (2) **102076**
Dowel (1) **DP619**
Flywheel to crankshaft locating.

Oil Pressure Gauge & Oil/Water Gauge

You can either guess your oil pressure – or fit one of our kits.

Oil Pressure Gauge Kit (1) **RX1351/O**

Includes gauge pipe etc.

Oil Pressure and Water

Temperature Gauge Kit (1) **RX1351/OW**

Includes gauge pipe etc.

Bracket (for remote mounting of gauge) (1) **RB7050**

Adaptor;

Oil Pipe to Block (1) **143943**

Temp Sender to Water Pump

Housing (1) **11K2846**

Washer - Copper (1) **AED172**

For adaptor 11K2846.

"T" Piece (1) **RX1352**

Required when fitting oil pressure gauge kit if retaining low Pressure warning light.

COMPONENT & COMMISSION NUMBERS

Where commission and/or component serial numbers are quoted in this parts catalogue (to help identify factory specification changes), they refer to components and/or parts when the vehicle was new, and not subsequent replacements.

Piston & Conrod

Piston Set (Per vehicle) Complete with Rings;

948

Clutch Assembly

Clutch Kits include cover, plate & bearing.

Clutch Alignment Tool (1) **RX1385**

948 6 1/4" Coil Spring:

Clutch Kit	(1)	RH5356
Clutch Cover	(1)	GCC104
Clutch Plate	(1)	GCP102
Release Bearing	(1)	GRB206

Early 1200 6 1/4" Coil Spring;
Up to GA19893E & GA1985E to GA201700E

Clutch Kit	(1)	RH5009
Clutch Cover	(1)	GCC132
Clutch Plate	(1)	GCP102
Release Bearing	(1)	GRB206

1200 6 1/2" Diaphragm;
From GA1985E to GA201700E & from GA201701E

Clutch Kit	(1)	GCK272
Clutch Cover	(1)	GCC197
Clutch Plate	(1)	GCP138
Release Bearing	(1)	GRB207

12/50 6 1/4" Coil Spring;
Up to GD76473E

Clutch Kit	(1)	RH5009
Clutch Cover	(1)	GCC132
Clutch Plate	(1)	GCP102
Release Bearing	(1)	GRB206

1250 6 1/2" Diaphragm;
From GD76473E

Clutch Kit	(1)	GCK272
Clutch Cover	(1)	GCC197
Clutch Plate	(1)	GCP138
Release bearing	(1)	GRB207

13/60 6 1/2" Diaphragm;

Clutch Kit	(1)	GCK272
Clutch Cover	(1)	GCC197
Clutch Plate	(1)	GCP138
Release Bearing	(1)	GRB207

QUALITY CLUTCH COMPONENTS FOR YOUR HERALD.

Clutch Hydraulics

Clutch Master Cylinder;

Original type	(1)	GMC205
Non - Original type	(1)	GMC205ALT
Repair Kit (Master Cylinder)	(1)	GRK1029
Filler Cap	(1)	500201A
Gaiter/Boot (Master Cylinder)	(1)	125217
Mounting Bracket (for GMC205)	(1)	119583
Set Screw (Cyl mounting)	(2)	SH606071

Clutch Slave Cylinder;

6 1/4" Coil Spring Clutch	(1)	110762
6 1/2" Diaphragm Clutch	(1)	GSY103

Repair Kit (Slave Cylinder);

6 1/4" Coil Spring Clutch	(1)	501931
6 1/2" Diaphragm Clutch	(1)	515297
Bleed Screw - Slave Cylinder	(1)	556508A

Pipe - Master to Slave Cylinder - RHD:

Standard	(1)	305936
Braided Stainless Steel	(1)	305936GR

Clutch/Brake Fluid;

Standard DOT3	(a/r)	GBF103
Silicone (0.5 litre)	(a/r)	RX1327
Silicone (1.0 litre)	(a/r)	RX1326

Do not mix silicone with standard fluid.

MASTER CYLINDER MOUNTING BRACKET IN STAINLESS STEEL 119583SS

SILICONE - DOT5 BRAKE & CLUTCH FLUID

THE FACTS

Automec Silicone Brake Fluid (SBF) meets the USA Department of Transportation Federal Motor Vehicle Safety Standard No 116 for DOT5 brake fluid, which has now been adopted by the UK & Europe.

Silicone fluid is used in the same way as normal brake fluid. Drain the system, fill with Silicone and bleed in accordance with the vehicle manufacturers instructions. Initially the brake fluid remains purple, then after a while it changes to yellow. The colour change is quite normal and does not affect the performance of the fluid.

Because Silicone fluid is non-hygroscopic (it absorbs less than 1% by weight of moisture), corrosion in the system is virtually eliminated, while at the same time the boiling point (important under emergency braking conditions) remains very high at around 260 Centigrade (500F) unlike normal fluids that can be as low as 170C. SBF is non-toxic, virtually inert (it is not glycol based) and is environmentally friendly. All this means that it won't harm you, your cars braking components, or the paintwork and because you don't have to drain the system (unlike normal glycol based fluids), it doesn't harm the environment.

If Automec Silicone Brake Fluid becomes mixed with normal glycol fluid, they will work safely, as they both have to if they are to be classified as D.O.T fluids.

Fan belt;		
All except 13/60	(1)	GCB11038
13/60 only	(1)	GCB11025
Kenlowe Electric Fan Kit	(1)	RH5014

ENGINE OIL COOLER KIT

FIT AN OIL COOLER KIT FOR PEACE OF MIND.

Kits include oil cooler radiator, fitting kit, filter adaptor, hoses & fittings, but not thermostat.

Engine Oil Cooler Kit	(1)	514082
Thermostat (Engine oil cooler)	(1)	RS1456
<i>Not included in oil cooler kit.</i>		

RADIATOR RELIEF

COOLING SYSTEM ADDITIVE

Radiator relief allows your radiator to transfer heat more efficiently, reducing your engines operating temperature (which is obviously controlled by the thermostat) by up to 30°F. You therefore have 'a little bit in hand' for those hot days stuck in traffic. This proven coolant additive will also cut engine warm-up time in half which will reduce engine wear which is most extreme when the engine is cold. Fully compatible with water and anti-freeze and is safe with cast iron and all alloys.

- 30°F lower operating temperature
- 50% quicker warm up time
- Safe with water/antifreeze mixture
- Safe with cast iron, alloy engines and heads
- Increased engine life!
- 100% biodegradable, non corrosive, non toxic
- For use in all water cooled engines

RADIATOR RELIEF (946ml) **RX1461**
Treats 1 engine.

A MUST FOR ALL OWNERS

Exhaust Systems Standard - Mild Steel

MILD STEEL EXHAUSTS

Most mild steel exhausts are no longer available, having been discontinued by all the major manufacturers.

Please refer to our Price Guide using the 'GEX' part number prefix (see Staninless Steel listings) - without an 'SS' suffix - for current price and availability of mild steel exhaust components.

We do offer - from stock, a full range of Stainless Steel exhausts (at very affordable prices!), which will ensure long exhaust life and enhance the value of your vehicle.

Exhaust Fittings & Mountings

For Fitting Kits, refer to Exhaust Systems.

13/60 MODELS EXHAUST SYSTEM & FITTINGS

ORDER ON: 01522 568000 / www.rimmerbros.co.uk

STAINLESS STEEL STANDARD EXHAUST SYSTEM - 13/60 RH5044

Sports Exhaust Systems

Full Sports System;

Inc. Manifold & Twin Box System.

948 1200 & 1250 (1) **RH5296**

Will not fit with single carb manifold.

Fitting Kit (948/1200, 1250) (1) **RL1499**

For sports system inc manifold gasket.

13/60 (1) **RL1523SS**

Will not fit with single carb manifold.

Use Spitfire MK3, 4, 1500 or Dolomite,

1500 inlet manifold.

Clearance is minimal between manifold and chassis, may require slight modification to chassis box section flange.

Fitting Kit (13/60) (1) **RL1501**

For sports system inc manifold gasket.

Part Sports System (all models); (1) **RV6109SS**

Inc. Link Pipe, Y-section & Twin Exhaust Boxes.

Can be adapted to fit standard downpipe (use Adaptor RL1496SPORT).

Adaptor (1) **RL1496SPORT**

Links Sports Systems to Standard Downpipe.

FULL SPORTS SYSTEM - 13/60 RL1523SS

PART SPORTS SYSTEM - ALL MODELS RV6109SS

Tubular Exhaust Manifold - Stainless Steel

Note: when fitting a Tubular Manifold the carbs may require adjustment.

4 Branch Tubular Exhaust Manifold;
Twin carb models only.

948 1200 & 1250 (1) **307270SS**

13/60 (1) **RL1206SS**

Gasket (Manifold to head);

948 1200 & 1250 (1) **GEG615**

13/60 (1) **AJM648**

STAINLESS STEEL TUBULAR MANIFOLD FOR 13/60 RL1206SS

INSULATING HEAT WRAP

COOL IT
Thermo-Tec

Thermo-Tec exhaust insulating wrap reduces under bonnet temperatures by as much as 70%, this increases air intake and exhaust gas velocity which adds performance.

Retaining the heat in the exhaust protects you from mechanical burns and it will also help to prevent under bonnet fires. Any electrical components which are close to the manifold will be less prone to heat failure, increasing their life and performance. As an added benefit, under bonnet noise is also reduced! Thermo-Tec can be used on any 4 stroke, 2 stroke or diesel engines and contains no asbestos or carcinogens.

The Snap Strap Installation Kit secures Thermo-Tec exhaust insulation wrap to your tubular manifold/s. A stainless steel high temperature material designed better than hose clamps and is easier to use.

Also recommended is Hy-cote paint. This preserves and protects the exhaust wrap after installation. Extra resins and binders seal the pores, toughen the surface and help extend the life of the wrap.

APPLICATION GUIDELINES FOR TUBULAR MANIFOLDS

ENGINE TYPE	INSULATING WRAP	SNAP STRAP KIT	TYPICAL APPLICATION
4 Cylinder	1 x RX1382	1 x RX1383	Herald, Spitfire, TR7, Dolomite Sprint
6 Cylinder	2 x RX1382	1 x RX1383	Vitesse, GT6 TR6
8 Cylinder	2 x RX1382	1 x RX1383	TR7 V8, TR8, Stag, Rover SD1

GUIDE TO TYPICAL AMOUNT OF WRAP REQ'D BY PIPE SIZE

PIPE SIZE	2"	3"	4"	5"	6"
INCHES OF WRAP PER FOOT OF PIPE	44"	57"	70"	83"	96"

Exhaust Insulating Wrap - 2" x 50' **RX1382**

Snap Strap Exhaust Wrap Installation Kit **RX1383**

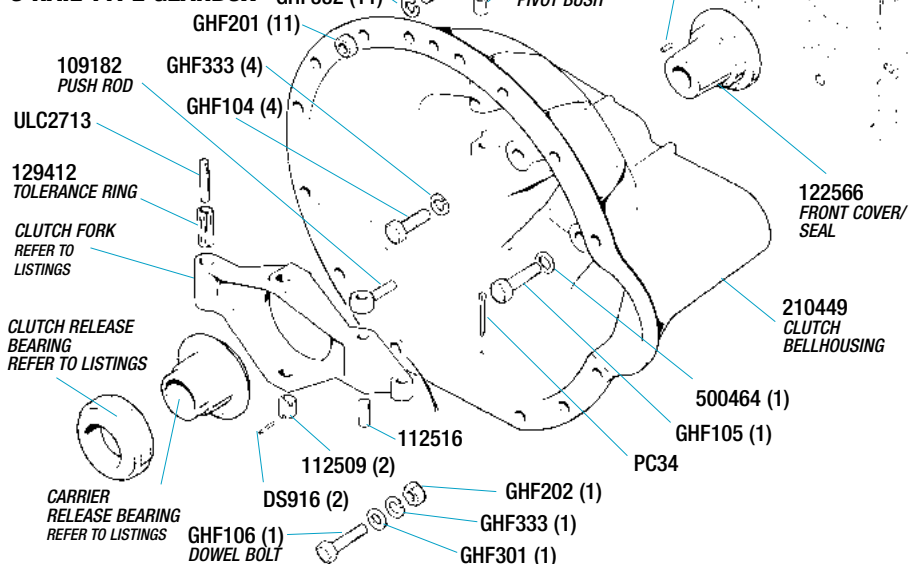

Hy-cote Paint, Aerosol (400ml) **RX1432**
Available in black OR aluminium.

THE EASY & COST EFFECTIVE WAY TO REPLACE YOUR TIRED GEARBOX. REFER TO LISTINGS FOR FULL DETAILS.

CLUTCH HOUSING/OPERATION

3 RAIL TYPE GEARBOX

Gearbox Unit Assembly

Gearbox Unit Assembly – 3 Synchro;
Reconditioned (exchange).

Supplied less bell housing, speedo/pinion housing, gear lever, top cover extension & ancillaries.

948 (Customers own unit) (1) **506828R**

All Models except 948 (Exchange) (1) **RH5049R**

Gearbox Unit Assembly – 4 Synchro;
Reconditioned (exchange).

Supplied less bell housing, speedo/pinion housing, gear lever, top cover extension & ancillaries.

All Models except 948 (Exchange) (1) **RH5089R**

Gear Oil EP90 (0.5L) (a/r) **GGL190**

Gearbox Mountings;

See: "Engine & Gearbox Mountings" for fixing bolts/nuts etc.

Gearbox Mounting (Rubber) (2) **122689**

Tunnel Cover - Gearbox (Fibreglass) (1) **706120**

Seal Kit (Tunnel Cover) (1) **RH5091**

IMPORTANT

Gearbox Information

EXCHANGE UNITS

All our Gearbox units are supplied on a strict 'LIKE for LIKE' exchange basis. Your old exchange unit(s) MUST be undamaged, drained of oil and be in a totally serviceable condition, before being returned to us for refund of exchange surcharge.

IF YOU ARE OVERHAULING THE DRIVE SHAFTS AND REAR HUBS, WE HAVE THE PARTS.

OUR ANTI-ROLL BAR CONVERSION KIT (217033K) ALLOWS THE LATER TYPE ROLL BAR TO BE FITTED TO ALL MODELS

Front Anti-Roll Bar

ORIGINAL ANTI-ROLL BAR

Anti-Roll Bar (Original) (1) **207093**
NCA - See conversion kit.

Anti-Roll Bar Conversion Kit (1) **217033K**
Not illustrated - see photo.
The original anti-roll bar (207093) is not currently available. This conversion allows the later type bar to be fitted to early cars & includes; Anti-roll bar (217033), 2 bushes (155310), 2 clamps (155308), 2 'U' bolts (155307), nuts and washers. Kit includes standard rubber bushes.

Overhaul Kit (Original anti-roll bar)

Not illustrated.
For original (early) spec' anti-roll bar (207093) only.
Per car; Inc 2 links (125481/125482), 2 nuts (GHF224), 2 studs (125074), 2 nuts (GHF223), 2 standard bushes (123998), 2 clamps (123502), 2 'U' bolts (123694), 4 nuts (GHF222) and all washers.

with Standard Bushes (1) **RH5064**
with Polyurethane Bushes (1) **RH5064POLY**

Bush - Roll Bar Mounting (for 207093);

Standard Material (2) **123998**
Polyurethane Material (2) **123998POLY**

Clamp (Bush retainer) (for 207093) (2) **123502**

'U' bolt (for 207093) (2) **123694**

Nut (for 'U' bolt 123694) (4) **GHF222**

Washer (for 'U' bolt 123694) (4) **GHF332**

LATER TYPE ANTI-ROLL BAR (UPDATED)

Anti-Roll Bar (1) **217033**
Overhaul Kit (Anti-roll bar)

Not illustrated.
Per car; Includes 2 links (125481/125482), 2 nuts (GHF224), 2 studs (125074), 2 nuts (GHF223), 2 standard bushes (155310), 2 clamps (155308), 2 'U' bolts (155307), 4 nuts (GHF222) and all washers.

with Standard Bushes (2) **RL1286**
with Polyurethane Bushes (2) **RL1286POLY**

Bush - Roll Bar Mounting (for 217033);

Standard Material (2) **155310**

Polyurethane Material (2) **155310POLY**

Clamp (Bush retainer) (2) **155308**

'U' bolt (2) **155307**

Nut (for 'U' bolt 155306) (4) **GHF222**

Washer (for 'U' bolt 155306) (4) **GHF332**

HELP US TO HELP YOU

To ensure you receive the correct part, wherever possible please quote; model, year, chassis and/or engine number etc, plus, any component information.

POLYURETHANE BUSHES

Polyurethane bushes out-perform standard rubber bushes and last longer too!

IF YOU REALLY WANT TO IMPROVE THE HANDLING, THEN POLYURETHANE BUSHES ARE A GOOD START. REFER TO LISTINGS THROUGHOUT THIS CATALOGUE FOR FULL AVAILABILITY.

Give Your Front Suspension a Lift

with one of our money saving suspension

OVERHAUL KITS

WHETHER YOU REQUIRE SUSPENSION PARTS FOR A MINOR REPAIR, OR YOU ARE PROPOSING A MAJOR FRONT SUSPENSION/HUB OVERHAUL/REBUILD, HERE WE HAVE A SELECTION OF KITS THAT WILL ENABLE YOU TO IDENTIFY AND ORDER THE PRECISE AND CORRECT PARTS YOU NEED WITH THE MINIMUM OF FUSS - AND SAVE MONEY!

UPPER SUSPENSION Overhaul Kit

with Standard Bushes

RH5080

2 kits required per Vehicle

with Polyurethane Bushes

RH5080POLY

2 kits required per Vehicle

One kit contains the following parts:

1 Ball Joint	GSJ155
1 Nut (for ball joint)	GHF224
1 Washer (for ball joint)	WD600071
2 Bushes (Wishbone)	119451
Standard or Polyurethane depending on which kit is ordered.	
2 Bolts (Wishbone rear)	BH606181
2 Nuts (for bolt BH606181)	GHF223
2 Bolts (Wishbone front)	BH605181
2 Nuts (for bolt BH605181)	GHF222
2 Washer (for bolt BH605181)	GHF332

UPDATED FRONT ANTI-ROLL BAR Overhaul Kit

For vehicles fitted with our conversion kit only.

When fitted with std bar refer to listings.

with Standard Bushes

RL1286

1kit required per Vehicle

with Polyurethane Bushes

RL1286POLY

1 kit required per Vehicle

This kit contains the following parts:

1 Link (Rh)	125481
1 Link (Lh)	125482
2 Nyloc Nuts (for links)	GHF224
2 Washer (for nuts GHF224)	WA600071
2 Bushes (Mounting bushes)	155310
Standard or Polyurethane depending on which kit is ordered.	
2 Clamps (for bushes 155310)	155308
2 'U' Bolts (for clamps 155308)	155307
4 Nyloc Nuts (for 'U' bolts 155307)	GHF222
4 Washer (for nuts GHF222)	GHF332
2 Studs (Link to bar)	125074
2 Nuts (for studs 125074)	GHF223
2 Washer (for nuts GHF223)	WA600071
2 Washer (for studs 125074)	GHF333

LOWER (INNER) SUSPENSION

Overhaul Kit

with Standard Bushes

RG1193

2 kits required per Vehicle

with Polyurethane Bushes

RG1193POLY

2 kits required per Vehicle

One kit contains the following parts:

2 Bushes (Wishbone)	119451
Standard or Polyurethane depending on which kit is ordered.	
2 Bolts (Wishbone rear)	BH606201
2 Nuts (for bolt BH606201)	GHF223

FRONT WHEEL BEARING KIT

RH5027

2 kits required per Vehicle

One kit contains the following parts:

1 Inner Bearing	GHB111
1 Outer Bearing	GHB110
1 Hub Seal	GHS110

Don't forget to check these other parts for wear; 'D' Washer (102690), Nut (LN2211), Split Pin (PC20).

COMPLETE TRUNNION Overhaul Kit

RG1192

1 kit required per Vehicle

This kit contains the following parts:

1 'Right Hand' Overhaul Kit	RG1190
This kit also contains 1 bush kit 514191.	
1 'Left Hand' Overhaul Kit	RG1191
This kit also contains 1 bush kit 514191.	

TRUNNION BUSH KIT

514191

2 kits required per Vehicle

One kit contains the following parts:

1 Spacer	140893
2 Bushes	140892
2 Inner Shields	140894
2 Seals	122534
2 Outer Shields	140894

TRUNNION OVERHAUL KIT

Right Hand

RG1190

1 kit required per Vehicle

This kit contains the following parts:

1 Right Hand Trunnion	140919
1 Bolt	119142
1 Nut	GHF224
1 Washer	WD600071
1 Seal	122126
1 Bush Kit	514191

TRUNNION OVERHAUL KIT

Left Hand

RG1191

1 kit required per Vehicle

This kit contains the following parts:

1 Left Hand Trunnion	140920
1 Bolt	119142
1 Nut	GHF224
1 Washer	WD600071
1 Seal	122126
1 Bush Kit	514191

SAFETY FIRST

In this section we listed the parts which we believe to be most prone to deterioration. However, it is not a finite list. It is extremely important when working on the suspension that you check & verify the condition of all related parts & components, and replace as a matter of course if suspect.

BUSH & BOLT KITS - Car Set

BUSH KIT - CAR SET

Includes all bushes for suspension (front & rear) and mountings for steering rack, anti-roll bar and differential.

with Standard Bushes

RH5361

with Polyurethane Bushes

RH5361POLY

BOLT KIT - CAR SET

Includes all bolts, setscrews, nuts & washers to install Bush Kit RH5361.

Bolt Kit

RH5362

UPRATED SHOCK ABSORBER PACKAGES

Spax Adjustable (Car set);

Ride Adjustable (1) **RL1358**
Packs include 4 adjustable shock absorbers with standard bushes.

Spax Ride/Height Adjustable (Car set)

(1) **RL1358SA**

Packs include 2 front ride/height adjustable shock absorbers and 2 rear adjustable shock absorbers, all with standard bushes.

Koni Ride Adjustable (Car set) (1)

RL1359

Packs include 4 adjustable shock absorbers with standard bushes.

Gaz Ride Adjustable (Car set) (1)

RL1358GAZ

Packs include 4 adjustable shock absorbers with standard bushes.

Gaz Ride/Height Adjustable (Car set)

(1) **RL1358SAGAZ**

Packs include 2 front ride/height adjustable shock absorbers and 2 rear adjustable shock absorbers, all with standard bushes.

UPRATED SHOCK ABSORBER & FRONT SPRING PACKAGES

Spax Suspension Kit;

Ride adjustable

(1) **RH5352**

Packs include 2 uprated front springs, 4 adjustable shock absorbers with standard bushes.

Spax Ride/Height Adjustable (1) **RH5352SA**

Packs include 2 uprated front springs, 2 front ride/height adjustable shock absorbers and 2 rear adjustable shock absorbers, all with standard bushes.

Koni Suspension Kit

(1) **RH5352K**

Packs include 2 uprated front springs, 4 adjustable shock absorbers with standard bushes.

GAZ Suspension Kit;

Ride adjustable

(1) **RH5352GAZ**

Packs include 2 uprated front springs, 4 adjustable shock absorbers with standard bushes.

Ride/height adjustable (1) **RH5352SAGAZ**

Packs include 2 uprated front springs, 2 front ride/height adjustable shock absorbers and 2 rear adjustable shock absorbers, all with standard bushes.

TECH SPEC

ADJUSTABLE (ON CAR)

28 point adjustment, dyno tested. Handbuilt, matching units. Designed and developed by Motorsports Engineers. 2 year warranty.

ADJUSTABLE (OFF CAR)

Specifically designed for each application. Individually tested until optimum in handling and comfort is reached. Will usually outlive your car.

ADJUSTABLE (ON CAR)

36 point fine tune settings.
Zinc plated bodies.
Double lip seal + O' ring on piston rod.
Fully rebuildable. Top quality.
Each unit tested and supplied with individual dyno read-out. 3 year warranty. British made.

REAR SUSPENSION LOWERING BLOCK

Do you want to lower the rear suspension slightly to improve handling or match the ride height of the front suspension if you have fitted adjustable ride height front shock absorbers?

The simple solution is to install a stepped (alloy) block that sits on top of the differential which in turn raises the centre of the rear spring.

This lowers the car by

1/2", 3/4" or 1"

depending

on your

requirements.

Rear Spring Lowering Block;

1/2" Lower

(1) **RH5371**

Ideal for all cars.

3/4" Lower

(1) **RH5372**

Use with lowered front suspension.

1" Lower

(1) **RH5373**

For track or special applications.

MINILITE REPLICA ALLOY ROAD WHEELS

MINILITE REPLICA WHEELS

These superb (lightweight) aluminium replicas of the original magnesium Minilite (used for rallying), are now available - in silver only - at an extremely attractive price, and they make a very interesting alternative to steel and wire wheels.

These bolt-on wheels are a direct replacement when used with the corresponding wheel nuts.

Minilite 'Replica' Wheel Kit;
Includes 4 wheels, 4 centres and 16 wheel nuts.

13"x 5J	(1)	RL1473
13"x 5.5J	(1)	RL1473/5.5
Wheel Only;		
13"x 5J	(4)	RL1470
13"x 5.5J	(4)	RL1470/5.5
Wheel Centre only;		
Plastic	(4)	RL1472P

REVOLUTION ALLOY ROAD WHEELS

REVOLUTION ALLOY WHEELS

Set your Herald different from the crowd with Revolution Alloy Wheels. Beautifully finished with Alloy rims and black spokes.

Fit as direct replacements to standard wheels using special wheel nuts.

Revolution Wheel Kit;
Includes 4 wheels, 4 centres and 16 wheel nuts.

13"x 5.5J	(1)	RL1643
Wheel only (13"x 5.5J) (inc. centre)	(4)	RL1641
Wheel Centre only	(4)	RL1644
Wheel Nut only	(16)	RL1642
Autoglym 'Clean Wheels' (500ml)	(1)	RX1322

WIRE WHEELS (All Models)

WIRE WHEELS

Look at our prices, our wheel sets include 5 wheels! If you prefer your Herald to look that little bit different, why not consider fitting a set of our wire wheels, they are available in chrome, or painted silver.

IMPORTANT INFORMATION

Wire Wheels

When fitting Wire Wheels YOU MUST check the length of the wheel studs (and shorten if necessary) to ensure they do not foul the wheels.

Please read the full fitting instructions supplied, carefully.

Wire Wheel Conversion Kit - 13"x4.5J;

Kits inc; 5 wheels, 4 splines, 4 two eared centre knock caps*, 16 retaining nuts, 1 cleaning brush, 1 hammer and instructions

Chrome Wheels (1) **RL1221/4.5**

Painted Wheels (1) **RL1201**

*Wheel kits available with alternative octagonal centre lock nuts.

NOTE: 'Eared' centre caps not allowed in some countries. Please state preference when ordering.

Wire Wheel Conversion Kit - 13"x5.5J;

This kit gives you the option to fit wider section tyres that 'fill the arches'. Care should be taken in selecting the correct tyre width to avoid any clearance problems.

Kit includes; 5 wheels, 4 splines, 4 two eared centre knock caps*, 16 retaining nuts, 1 cleaning brush, 1 hammer and instructions

Chrome Wheels (1) **RL1221/5.5**

NOTE: 'Eared' centre caps not allowed in some countries.

*Kit available with alternative octagonal centre lock nuts. Please state preference when ordering.

DRUMS OR DISCS!

When were Discs fitted?

The early Heralds (1200, 12/50's) were all equipped with Drum Brakes from the factory, however, as technology progressed in the development of the Disc Brake (brought about by racing), then demand grew for this new type of braking system. To cater for the growing requests, the Factory offered the public two solutions;

- 1) Disc Brakes were offered as a 'Factory Fitted Option' (from approx' 1963 to 1967) when ordering a new Herald.
- 2) You could order a Factory 'Disc Conversion Kit' and have it fitted by the local Triumph agent. Eventually, (from approx' 1967) Disc Brakes were fitted as standard on late Herald 1200's & 12/50's, and all 13/60's, so trying to determine the changes by chassis number can be a bit of a problem.

How to identify

When the Factory offered Discs as an Option on early Heralds, they did this by fitting an adaptor plate to carry the Caliper, this bolted to the Vertical Link (209222/209223), and they increased the length of the bolts which held the backplate. The adaptor has 2 (drilled) lugs (to the front) which located the Caliper.

The later models (Discs fitted as standard equipment) were produced with modified Vertical Links, with only 3 drillings, 2 for the Caliper, and 1 for the Steering Tie Rod, and fitted with Brake Dust Shields.

Can I convert?

If you wish to convert your early Herald from Drum to Disc, or even from the early type of Disc brake caliper system to the latest type, the easiest method is to fit our own 'Disc Brake Kit' (Part Number RH5029). The kit briefly comprises; 2 stub axles, 2 vertical links, 2 hubs, 2 discs + pads, bearings and fittings.

For detailed kit information please refer to Disc Brake Conversion Kit.

Further Enhancements

To really improve stopping power for today's roads, consider fitting a Remote Mounted Brake Servo Kit (RH5272). Discs only.

FRONT DISC BRAKES - EARLY TYPE 12 CALIPERS

STANDARD FRONT BRAKE KIT - RL1525

UPDATED EBC DISCS & GREENSTUFF PADS - RL1525UR

EBC BRAKE DISCS

EBC turbo groove discs are handed (lh & rh) with curved grooves and dimples to offer superb stopping power when combined with 'Green Stuff' Kevlar pads.

ROSSINI BRAKE DISCS

Rossini performance drilled and grooved discs are made from the best compounds with carbon & added manganese, molybdenum & titanium. The drillings cool the disc to reduce brake fade.

The grooves reduce pad glazing and increase grip. The embedded Rossini logo on the disc face lets you know when they need replacing. Can be used with standard or 'Green Stuff' Kevlar Pads.

SILICONE - DOT5 BRAKE & CLUTCH FLUID

THE FACTS
Automec Silicone Brake Fluid (SBF) meets the USA Department of Transportation Federal Motor Vehicle Safety Standard No 116 for DOT5 brake fluid, which has now been adopted by the UK & Europe. Silicone fluid is used in the same way as normal brake fluid. Drain the system, fill with Silicone and bleed in accordance with the vehicle manufacturers instructions. Initially the brake fluid remains purple, then after a while it changes to yellow. The colour change is quite normal and does not affect the performance of the fluid. Because Silicone fluid is non-hygroscopic (it absorbs less than 1% by weight of moisture), corrosion in the system is virtually eliminated, while at the same time the boiling point (important under emergency braking conditions) remains very high at around 260 Centigrade (500F) unlike normal fluids that can be as low as 170C. SBF is non-toxic, virtually inert (it is not glycol based) and is environmentally friendly. All this means that it won't harm you, your cars braking components, or the paintwork and because you don't have to drain the system (unlike normal glycol based fluids), it doesn't harm the environment. If Automec Silicone Brake Fluid becomes mixed with normal glycol fluid, they will work safely, as they both have to if they are to be classified as D.O.T fluids.

'Xenon' 60/55w (pair) (1) **GLB472X**

Front Fog Lights (pair) (1) **RX1370**

Rectangular with plastic covers.

Front Side/Flasher Lamps

Note: Due to the many variations of side/flasher lamps which were fitted to the Triumph Herald, and problems of availability, we have listed just 2 types (which are not interchangeable).

The very early models were produced with a small lamp fitted with plastic lenses and used a double filament bulb (GLB380).

Later models were supplied with a slightly larger lamp, with glass lenses, 2 bulbs and an amber 'cover' over the flasher bulb. One variation of this type of lamp was the face of the lens, some were 'flat', and some were 'Peaked', the two versions of this later lamp **are** interchangeable when fitted as lamp assemblies. The lamps that we supply are fitted with the 'Peaked' type lenses.

Note: Trying to determine by chassis number the type of lamp fitted can be slightly frustrating, for it was not an uncommon sight to see consecutive Heralds on the assembly line fitted with different side/flasher lamps, as it all depended on which type of bonnet had been fitted !!

VEHICLES FITTED WITH SINGLE BULB LAMP & PLASTIC LENSES.

Early 1200 to 1963/64 approx.

Bulb - Side Light	(2)	GLB989
Bulb - Indicator	(2)	GLB382

FRONT FOG LIGHTS - RX1370

Rear Lamps & Fittings

Note: There were two variants of rear lamps fitted to the Herald. The lamps fitted to the early 1200's had a clear plastic disc (fixed to the lens) in front of the bulbs, which acted as a magnifying glass. The later type lamps were produced with polished anodised aluminium reflectors, which were part of the base unit. We only supply the later type lamps. The two lamps are interchangeable as units, but not the lenses.

Note: Early backplates were self-tapping screw fitment, late backplates were fixed by stud & nut. To fit the later type backplates you have to 'push-out' the screw clips.

BATTERY CONDITIONER

The battery charger that turns on and off, automatically.

Suitable for all 12 volt batteries (from 5AH to 100AH), this superb product constantly revitalises the battery cells - helping to extend cell life, without the danger of overcharging.

Battery Conditioner Kit - RX1410CTEX
Comes complete with all fittings & operating instructions.

LOOK AT THESE BENEFITS;

- Designed to be left connected for long periods.
- Use without disconnecting vehicle electrics.
- L.E.D. battery condition display.
- Thermal cut-out facility.
- 12 month guarantee.

Can also be used for these applications providing they use a 12 volt battery;
Caravans, lawn mowers, motorbikes, motor boats, wheel chairs and general leisure use.

BATTERY CHARGER GAC7106

INTERIOR TRIM RESTORATION

We have available a full range of interior trim (including carpets, door trim panels and headlining kits) for the Triumph Herald (both saloon & convertible), so at long last the owners of these Classic Triumphs can now restore, and renovate their vehicles to a standard that has not been possible for many years.

Whether you are just wanting to replace a damaged board, re-trim a tired seat, replace worn carpets, or are contemplating a complete interior restoration project, from the following listings you will find the part, or kit, suitable for your needs and budget.

Complete Interior Re-trim Kits

RENOVATION OR COLOUR CHANGE!

If you are considering a complete re-trim of the interior of your Herald, we can supply a complete interior trim kit.

Ordering everything that is required for such a project could not be easier, all you have to do - from the list across - is identify your vehicle model, then choose the colour you require, and by quoting just one part number, you are assured that nothing has been missed. (our kits are so complete, once you have identified your model, you may even change the colour!)

WHAT DO OUR KITS CONTAIN?

Although we do not include passenger area carpet sets in our interior trim kits, they are nonetheless very comprehensive, they even include the Boot trim.

You can use the following as a check list:

2 door trim panels and clips.

Trim for 2 front seats, plus, 2 base cushions, 2 base diaphragms and all necessary clips, 2 base foam wraps, 2 squab foam pads or squab kits (depending upon model), and 2 squab strap kits.

Full rear seat trim kit (saloons & convertibles), plus, for saloons 1 seat base foam & 1 squab foam, and for convertibles 1 seat base foam & 1 squab horsehair pad.

For the dash area & footwells, 1 upper & 1 lower dash panel with clips, 1 dash 'sound' insulation kit, 1 securing strap kit (for insulation) and 2 front scuttle panels.

Rear 1/4 trim panels, or trim panel covering kit (depending upon model).

And for saloon models only, 1 headlining kit (except Herald 12/50), covering material for both 'B' posts and 2 rear wheel arch covers.

For the boot our kits include; 2 boot floor 'sound' proofing panels, 1 spare wheel cover (black hardboard), 1 (Rh) side trim board, 1 boot floor hardura mat kit, 1 tool pouch (red), 1 jack/tool bag (black hardura), and for convertibles only, 1 boot to hood stowage board.

Our kits come with full fitting instructions.

WHAT MODELS DO WE HAVE KITS FOR?

Our kits cover Herald 1200, 12/50 & 13/60 Saloon and Convertibles, we also have kits for both Rhd & Lhd models.

TRIM COLOURS AND STYLE

Our comprehensive range of trim boards and seat trim kits are as the original, both in colour and grain.

Although the Triumph Herald was produced with a varied selection of trim colours (inc Cactus, Phantom Grey and Coffee), we are only able to supply (for the foreseeable future), a limited colour range for the trim boards and seat trim, these being Black, Midnight Blue and Matador Red for the Herald 1200, 12/50, and for the Herald 13/60, Black, Shadow Blue, Matador Red and Light Tan.

Our moulded carpet sets and stitched carpet sets are available in a range of colours.

Please refer to 'Carpets' section.

As an added service to our customers we offer a full seat re-trimming service (for those who don't wish to undertake this task !).

Please phone for details.

Front Seat Identification & Construction

SEAT IDENTIFICATION

The following listings and descriptions for the Herald seats, are technically correct, and they are described as originally specified by the factory, prior to vehicle production. However, it is quite possible that the seat(s) fitted in your vehicle do not correspond with either our descriptions, or that in the Triumph parts lists. There were many overlaps of the various models (Herald & Vitesse) on the production line, couple this with model changes, and the lack of (the correct) finished items on the assembly line, and this has led us to believe that an unknown quantity of vehicles left the factory with the incorrect specification seats/trim fitted. Not to mention that the previous owner(s) may, at some time, have changed the seats themselves!

SEAT CONSTRUCTION

The internal construction of the front seats for the Herald 1200 and 12/50 differ from the 13/60 models in that they were produced with a squab 'spring frame', which was originally covered in cotton wadding. This material has proved difficult to obtain, so for these models we now supply a special 'Squab Foam Pad' which replaces the 'spring-frame', and apart from being easier to fit, the foam pad is indistinguishable from the original both in looks and comfort.

40 YEARS OLD!

If you have decided to re-trim your seats, may we suggest that before ordering the kit of your choice, you inspect very carefully all the seat components to ensure that all is well, including the base foams and diaphragms (if they are old and mishaped, they wont really compliment your new trim), which after possibly 40 years of use, could be very tired.

CARPET SETS

MOULDED CARPETS

Our moulded carpet sets (which are felt backed) include both front footwells, carpet for the transmission tunnel, full rear passenger area carpet, and bulkhead (heel) mat. The front footwell carpets have been designed to ensure a perfect fit (unlike the originals which worked loose!), and the drivers carpet has a heel mat fitted. The transmission tunnel carpet has been cut to provide a 'snug fit', and comes supplied with 2 pieces of loose felt (for the sides of the tunnel). The rear carpet section, although very complex, will mould into shape as you fit it, this is due to the material (carpet & felt) from which it is manufactured. Finally, the bulkhead (heel) mat is again tailor-made for a trouble free fit. Our moulded carpet kits are supplied in a range of colours.

STITCHED CARPETS

Our stitched carpet sets also include front footwell carpets (with drivers heel pad), transmission tunnel and rear passenger area carpet, and a bulkhead (heel) mat. They are made from a high quality tufted pile material, with fully bound edges and sewn in footwell mats. Our stitched carpet kits are supplied in a range of colours.

Carpet Sets All Models

Please note carpets are only supplied in vehicle sets.
Suitable for saloon & convertible.

ALLOY ROCKER COVER

Alloy Rocker Cover;
Alloy finish **214814A**
Black (Crackle finish) **214814AP**

RADIATOR RELIEF

COOLING SYSTEM ADDITIVE

Radiator relief allows your radiator to transfer heat more efficiently, reducing your engines operating temperature (which is obviously controlled by the thermostat) by up to 30°F. You therefore have 'a little bit in hand' for those hot days stuck in traffic. This proven coolant additive will also cut engine warm-up time in half which will reduce engine wear which is most extreme when the engine is cold. Fully compatible with water and anti-freeze and is safe with cast iron and all alloys.

- 30°F lower operating temperature
- 50% quicker warm up time
- Safe with water/antifreeze mixture
- Safe with cast iron, alloy engines and heads
- Increased engine life!
- 100% biodegradable, non corrosive, non toxic
- For use in all water cooled engines

RADIATOR RELIEF (946ml) **RX1461**
Treats 1 engine.

A MUST FOR ALL OWNERS

ROCKER FEED KIT - ALL MODELS

ROCKER OIL FEED KIT

Excessive rocker shaft wear is a classic complaint about the Triumph push rod engines. The external rocker feed kit is an effective and easy to fit solution to the problem. It works by piping oil from a plug hole in the cylinder block main oil gallery up to the cylinder head, thereby maintaining a higher oil flow than standard. No drilling or tapping is required for installation. The kit is so good, it looks as though it should always have been there!

EXTERNAL ROCKER FEED KIT **RR1340**
ALL MODELS

The Rocker Feed Kit and Oil Consumption

When the supplementary oil feed to the rocker gear is fitted, an increase in oil consumption is often encountered. This is attributed to oil being drawn down worn valve guides. The extra amount of lubricating oil flowing through the valve and rocker chamber, as supplied by the feed kit, exaggerates any tendency for oil to be sucked down worn valve guides past worn valve stems. The best solution is to fit new valves and guides, but this is not always on the top of the repair priority list. To assist in the reduction of oil being sucked down the guides a method of valve stem oil seal is required. We offer the simple do-nut rubber ring that is used so successfully on MG sports cars. Its part number is AEK113, one per valve stem.

Now the clever bit... How to fit them without removing the cylinder head from the car?

Each seal needs to be fitted to the valve stem above the valve guide but below the valve spring upper retaining cap(s). Remove the rocker cover, rocker gear and the spark plugs. Cover the holes that the push rods come up through so nothing can be dropped down into the engine. Turn the crankshaft so that number one piston is at bottom dead centre (BDC). Feed a length of clean, pliable rope down the spark plug hole of number one cylinder, leaving a bit hanging out so you can retrieve it. Now, slowly and carefully turn the crankshaft clockwise by hand, a resistance will be felt as the rising piston in that bore compresses the rope against the combustion faces of the two valves in that cylinder, holding them against their seats. The valve collets and spring caps of that cylinder can now be removed without the fear of losing the valves down the bore. The valve stem oil seals can be fitted to these two valve stems and perhaps a new set of valve springs.

Be honest, this tip has saved the cost of a decoke set! Once the valve stem oil seals and other parts have been refitted to this first pair of valves satisfactorily, simply turn the crank anticlockwise to BDC, withdraw the rope and repeat the process on the remaining cylinders and pairs of valves.

To be sure that the rope has compressed sufficiently against the faces of the valves, attempt to push the valves by hand, as if being acted on by the rockers before removing the spring caps or collets, this is the fail safe check. This method can be adopted anywhere as it does not require the use of compressed air, special tools or luck.

EXHAUST INSULATING HEAT WRAP

COOL IT
Thermo-Tec

Thermo-Tec exhaust insulating wrap reduces under bonnet temperatures by as much as 70%, this increases air intake and exhaust gas velocity which adds performance.

Retaining the heat in the exhaust protects you from mechanical burns and it will also help to prevent under bonnet fires. Any electrical components which are close to the manifold will be less prone to heat failure, increasing their life and performance. As an added benefit, under bonnet noise is also reduced! Thermo-Tec can be used on any 4 stroke, 2 stroke or diesel engines and contains no asbestos or carcinogens.

The Snap Strap Installation Kit secures Thermo-Tec exhaust insulation wrap to your tubular manifold/s. A stainless steel high temperature material designed better than hose clamps and is easier to use.

Also recommended is Hy-cote paint. This preserves and protects the exhaust wrap after installation. Extra resins and binders seal the pores, toughen the surface and help extend the life of the wrap.

APPLICATION GUIDELINES FOR TUBULAR MANIFOLDS

ENGINE TYPE	INSULATING WRAP	SNAP STRAP KIT	TYPICAL APPLICATION
4 Cylinder	1 x RX1382	1 x RX1383	Herald, Spitfire, TR7, Dolomite Sprint

COMPETITION TYPE HARNESS

A popular alternative to standard seat belts - these really do look the part!

The 4-point harness shown (no. 1) can be converted to the 6-point type by the inclusion of the crotch strap listed (no. 2). Note that fittings (eye bolts, reinforcement plates & bolts/spacer sets) are supplied separately. Harnesses are supplied singularly in 2" wide red webbing (black or blue webbing supplied to special order). This harness is designed for road use - please contact us if you have specific FIA/RAC approved type requirements.

BATTERY CONDITIONER

The battery charger that turns on and off, automatically.

Suitable for all 12 volt batteries (from 5AH to 100AH), this superb product constantly revitalises the battery cells - helping to extend cell life, without the danger of overcharging.

Battery Conditioner Kit - RX1410CTEX

Comes complete with all fittings & operating instructions.

LOOK AT THESE BENEFITS;

- Designed to be left connected for long periods.
- Use without disconnecting vehicle electrics.
- L.E.D. battery condition display.
- Thermal cut-out facility.
- 12 month guarantee.

Can also be used for these applications providing they use a 12 volt battery;

Caravans, lawn mowers, motorbikes, motor boats, wheel chairs and general leisure use.

POWER SOURCE INVERTOR

Great for in car entertainment and leisure use!

POWER SOURCE INVERTOR

A power source inverter converts car battery voltage (12v) into a 240v output. You can plug in a variety of mains voltage appliances into the standard UK socket.

Three different invertors are available to suit a range of power requirements. There is overload, overheat and short circuit protection on all models.

150 WATT MODEL RX1551-150
Continuous power: 150w. Peak power: 300w
Cigar lighter plug connection. 15A fuse.
Suitable applications: TV, DVD, Video, Computer Consoles, Lights (not fluorescent) Phone charger etc.

300 WATT MODEL RX1551-300
Continuous power: 300w. Peak power: 660w
Cigar lighter or battery clip connection.
40A fuse.
Suitable applications: as 150w model plus small power tools, small fridges, stereo etc.

500 WATT MODEL RX1551-500
Continuous power: 500w. Peak power: 800w
Battery clip connection only. 70A fuse.
Suitable applications: as 300w model plus medium power tools, colour TV's with DVD's, battery chargers etc.

DIS-CAR-NECT

'Dis-Car-Nect' Starter Immobiliser
Replacement screw knob
Replacement fuse

**RX1356
RX1356K
RX1356F**

HOW DOES 'DIS-CAR-NECT' WORK?

When leaving your car, simply remove the knob to isolate the starter circuit. The 16 amp by-pass fuse will maintain current to all other electrical circuits (stereo memories, vehicle alarm etc).

Because the starter motor draws over 150 amps, any attempt to connect (hot wire) the starter motor will instantly cause the fuse to blow, immobilising the car until the knob is replaced. If this should happen, simply replace the 16 amp fuse at a convenient time.

For extra security, unscrew and remove the immobiliser knob completely, and if you intend to store your vehicle for some time, 'Dis-Car-Nect' will also prevent battery drain, simply unscrew the knob and remove the fuse.

Fits all vehicles and is easily fitted to any battery terminal.

Full installation/user instructions supplied with every unit.

PORTABLE WORKLIGHT

Ideal for working on you car or for jobs around the house. Inc. 240v-500w tungsten halogen lamp, 2m cable and BS plug.

WIND DEFLECTOR

Do you enjoy driving with the hood down?

If so, then your motoring pleasure can be further enhanced with our range of SISA wind deflectors.

It effectively stops the buffeting you receive from air being forced back into the cabin - year round open top driving is suddenly an option! Easy to fit and remove.

ONLY AVAILABLE TO PERSONAL CALLERS.

New legislation from 1/1/03 states that number plates can only be sold directly to the owner of the vehicle together with proof of ownership and personal identification.

We will need sight of the following three original documents:-

- Vehicle registration document (V5)
- Driving Licence or utility bill.
- Passport or credit card (with photo ID), or travel/works pass (with photo ID).

Number plates are made to special order.

Please note that it is also now mandatory in the UK for all new number plates to bear the originating suppliers name, postcode and telephone number (i.e. Rimmer Bros).

CAR STORAGE

CAR-CAPSULE

The dry solution for car storage problems.

Car-Capsule practically eliminates the problems of dust, dirt, scratched paintwork & moisture retention, which can lead to corrosion problems. Quick and very easy to use, Car-Capsule is suitable for both long and short term storage.

The energy efficient (low-voltage) fan maintains a continuous flow of filtered air passing over and through the stored vehicle.

Car-Capsule helps prevent interiors from becoming damp & musty during storage.

Herald Car-Capsule (420x160cm) RX1401

Also available in;

480x180cm (RX1402) & 540x200cm (RX1404) sizes.

OUTDOOR 'MONSOON' SEMI-TAILORED CAR COVERS

INDOOR TAILORED CAR COVERS

Cover It up !

Look at these features ...

- Breathable Cotton material.
- Available in red, blue & green.
- Excellent tailored fit.
- Superb Value for Money.
- Embroidered Model Name/Logo.
- Supplied with FREE Storage Bag.
- Manufactured in the UK.

These quality tailored indoor car covers are exclusive to Rimmer Bros, and have been individually designed for each model to ensure a really close fit. They are manufactured to our specification in a 'Breathable Sateen Cotton' material that is strong, but yet light in weight, making them very easy to fit. They will provide ideal protection whilst your car is in the garage - whether just parked up for a few days, or stored over the winter months - from dust, bright sunlight and from those annoying little marks when people brush past. The covers, which are available in a choice of colours, are supplied with a matching storage bag. This product is manufactured Solely in the United Kingdom. Available in Blue, Red & Green.

UNLEADED FUEL ADDITIVES

Bottled additives are available which can be mixed with either 'Premium' or 'Super' unleaded depending upon application. It usually works out cheaper to use bottled additives than leaded or LRP - work it out for yourself!

Castrol Valvemaster
250ml

RX1407VM

Castrol Valvemaster Plus
250ml

RX1407VMP

Endorsed by the federation of British Historic Vehicle Clubs (FBHVC), having been independently tested and approved, both products offer a high level of protection against valve seat recession under all driving conditions. In addition, castrol valvemaster plus provides an octane boost to premium unleaded petrol which reduces pinking or knocking on high compression or performance applications. This also usually avoids the need to re-tune your engine. Treats 250 litres of petrol.

'CONCOURS' SPECIALIST WHEEL CLEANER

The 'Concours' specialist wheel cleaning system will help you care for your Classic's wheels.

Suitable for all Steel, Alloy and Wire wheels (including painted & chromed), 'Concours' wheel cleaning system uses a unique 2-stage process that not only cleans, but gives wheels a superb lasting finish that helps to protect them, making them easier to care for and clean in the future.

'Concours' Wheel Cleaning Kit - RX1405

Kit includes;

- Special cleaning solution (580ml).
- Wooden handled cleaning brush & dispenser.
- Finishing/protection solution (180ml)
- 2 pair of disposable gloves.

Cleaning solution breaks down brake dust & road grime. Brush & dispenser gets into all those awkward places.
Finishing/protection solution leaves wheels like new.

HAND CLEANERS

HICLEAN THE HANDY HAND CLEANER

Hiclean, the handy hand cleaner is a novel and unique hand cleaner that cleans dirty hands quickly without water, soap or towel - ideal for use in any situation! It also moisturises hands and disinfects.

Simply apply the gel to your dirty hands and gently rub together until the gel dries and the dirt rolls up and falls off.

Hiclean Handy Hand Cleaner may be used repeatedly and is perfectly safe on cut hands. It kills pathogens associated with animals and is suitable for use before meals. Available in tubes or sachets, Hiclean Handy Hand Cleaner contains no perfume and is therefore appropriate to use when animals are present.

- Cleans your hands in any situation
- Moisturises, freshens & disinfects
- Always keep some handy - toolbox, car or anywhere!

Hiclean Handy Hand Cleaner;

40g Tube

RX1549T

1.5g 'one-use' sachet

RX1549S

HICLEAN LIQUID GLOVES

Hiclean Liquid Gloves is a highly effective barrier cream. Simply smother your hands with Liquid Gloves before work commences. To clean, quickly rinse your hands under a cold tap and all the dirt, grease, ink etc simply comes off. Liquid Gloves moisturises hands and stops the pores becoming blocked with dirt. It prevents cracking, chapping and ingrained dirt.

- Quick & easy to use
- Prevents ingrained dirt
- No need for hot water, soap or chemicals
- Moisturises, prevents cracks and chapping.

Hiclean Liquid Gloves (40g Tube)

RX1550T

COOL TAPE

Consists of a 1mm aluminised material bonded to a lightweight, woven fibreglass with super strong adhesive backing. Reflects radiant heat. Limitless application, but common uses include wrapping cables, hoses, fuel lines, 'spot' heat retardation areas and sealing gaps in floors or firewalls.

The best product on the market! Flexible, strong adhesive and thin for a tight wrap.

COOL TAPE

RX1474

Available in 13/8" x 15', 13/8" x 30' and 2" x 60' rolls

UNIVERSAL HEAT SHIELD

This multi-purpose heat shield can be used to protect starter motors, carbs, fuel pumps, electrical boxes, instruments and hydraulic cylinders from intense heat. Easily cut to shape (scissors or knife) it attaches to itself with velcro material. Simply cut off excess material.

UNIVERSAL HEAT SHIELD

RX1470

7" wide x 24" long

HI-TEMP SHRINK TUBES

These shrink tubes are already supplied with the HT lead kits listed on previous page. They can also be used for many other applications such as an enhanced appearance to any hose or wire, bundle wires as alternative to plastic ties or protecting electrical connections. Available in grey, black, red, blue and in 2 sizes, with a shrink ratio of 3 to 1. Easily installed with naked flame. 18mm size shrinks to 6mm and 12mm size shrinks to 4mm. Supplied in packs of 25.

HI-TEMP SHRINK TUBES;

18mm dia x 38mm long (Pack of 25) **RX1468**

12mm dia x 38mm long (Pack of 25) **RX1469**

THERMAL HEAT SLEEVES

This high temperature sleeving will protect wiring, HT leads, hydraulic hoses and coolant hoses from radiant heat. Two different designs are offered. The fixed tube type is designed to slide over wiring/hoses whereas the velcro type can be easily installed without having to disconnect anything. Easy to cut and shape to suit. Supplied in 3ft lengths.

FIXED TUBE SLEEVE

RX1471

Supplied in diameters of 0.5", 0.75", 1", 1.25", 1.5" (all 3ft long)

VELCRO SLEEVE

RX1472

Supplied in 1 size - 0.5"-1.5" diameter (3ft long).

HEAT & SOUND INSULATION

Designed for insulating floors, bulkheads, transmission tunnels and many other applications from the effects of heat, road noise, engine and transmission noise. Made from an aluminium face bonded to a 1/8" composite fibreglass insulation, then backed to an aggressive adhesive. Tough enough for under vehicle applications and harsh environments where high heat can be a problem. Can also block out up to 50% of unwanted noise. Self adhesive, can be cut with tin snips to any shape.

INSULATION MATERIAL

RX1473

Supplied in 3 sizes: 2' x 21" (3.5sq ft), 4' x 21" (7sq ft), 4' x 42" (14 sq ft).

HT LEAD & SPARK PLUG PROTECTION

Protect your HT leads and spark plugs from extreme heat and improve the appearance of your engine bay with these top quality products. Ideal for tubular extractor manifold applications where additional heat is generated, but may be fitted to a standard vehicle.

Note: For Manifold insulation wrap, refer to 'Exhausts' in relevant catalogue.

SPARK PLUG SLEEVES

Manufactured from a fibreglass composite material (no arcing), the sleeves slide over the ends of the HT leads, easy installation. Available in silver, black, red or blue.

SPARK PLUG SLEEVES

2 cylinder kit

RX1462

Order 2 kits for 4 cylinder, 3 kits for 6 cylinder.

8 cylinder kit

RX1463

HT LEAD SLEEVES

Made from the same material as the spark plug sleeves - these easy install, snug - fitting sleeves will fit any HT lead up to 10mm in diameter. Also included are hi-temp shrink tubes for a sharp finished appearance. Available in silver, black, red or blue.

HT LEAD SLEEVES

RX1466

Includes 7ft of HT lead sleeve,

2 plug sleeves & 6 shrink tubes.

Order 2 kits for 4 cylinder, 3 kits for 6 cylinder.

8 cylinder kit

RX1467

Includes 25ft of HT lead sleeve, 8 plug sleeves & 25 shrink tubes.

CD ROM, BOOKS & VIDEOS

ORIGINAL TECHNICAL PUBLICATIONS ON CD ROM

- FACTORY PARTS CATALOGUES
 - WORKSHOP MANUALS
 - DRIVER'S HANDBOOKS
- ALL ON ONE CD ROM!**

Compiled from the archives of the Heritage Motor Centre using original factory data, a CD Rom is now available for Herald & Vitesse which combines all the factory publications of Parts Catalogues, Workshop Manuals and Driver's Handbook - all on one CD!

The CD Rom includes all the publications for all years of production - in easy to print pdf format. Also included are details about the Heritage Motor Centre and the British Motor Industry Heritage Trust along with pdf reader software for those requiring it.

Available for the first time, it represents superb value for money - an excellent saving if you were purchasing all three publications in paper format!

In addition, certain publications are out of print, so this CD can now give access to original factory data for the first time in many years.

TRIUMPH VIDEOS

Produced by The British Motor Industry Heritage Trust (BMIHT), these videos are compiled from archive footage from the past and remind us of how things used to be! Very entertaining.

THE TRIUMPH MARQUE

RX1436

This video shows the STANDARD-TRIUMPH film unit at its best, following the fortunes of rally and race teams, it covers the major successes of the Standards, TR's and Spitfires from 1953 to 1968 and the introduction of the TR5. Footage of the 25th Monte Carlo Rally is also included.

TRIUMPH HERALD

RX1437

This video includes the launch of the Triumph Herald in the Albert Hall, the gruelling test journey across Africa and footage of the Canley production factory. Raymond Baxter adds the informative commentary.

LEYLAND CARS OF THE 70's

RX1442

A celebration of those wonderful films made to launch some famous cars of the golden years at British Leyland. Includes footage of the Maxi, Marina, Allegro and Princess. (62 minutes in total).

GENERAL HARDWARE & FIXINGS

Following is a listing of common fasteners. These fasteners are for general use and are not intended to replace those listed for specific applications elsewhere in this catalogue. Heralds were fitted almost exclusively with UNF/UNC hardware.

UNF/UNC were threaded forms introduced into the USA during the 1940s (World War II) to give stability and standardization to various industries (automotive in particular). It became standard in the British car industry in the 1950s. UNF stands for "Unified National Fine" and UNC "Unified National Coarse".

To aid identification by terminology, a screw is threaded for its full length. A bolt is only part threaded with a plain unthreaded shank area between the head and the thread. The part number two letter prefix of SH means that the item is a Screw with a Hexagon head. The prefix BH means a Bolt with a Hexagon head. The first number defines the thread type, UNF = 6, UNC = 5. The second and third numbers give the thread diameter in increments of 1/16", e.g. 04 = 1/4", 05 = 5/16", 10 = 5/8". The fourth and fifth digits show the length in increments of 1/8", e.g. 04 = 1/2", 16 = 2", 23 = 2 7/8". The last digit defines finish, 1 = zinc plated. This coding system is only applicable to bolts and screws; nuts and washers are coded by a similar system that follows some of the above principles.

B = Pan Head
C = Countersunk Head
1st digit = thread type (coarse or fine)
2nd/3rd digit = diameter
4th/5th = length in 1/8" increments
6th = finish (1 = zinc plated)

STUDS

A stud is a length of round bar, threaded at both ends. The length of the thread at each end of the stud may vary for specific applications. The following list is of studs have fine (UNF) thread form at both ends.

PART NUMBER	DIAMETER	OVERALL LENGTH
TE604081	1/4"	1"
