Ordering

HOW TO ORDER

ORDER ONLINE

Ordering online is quick and straight forward. Simply search by part number or browse by model and component categories. Our site features detailed schematics so identifying the correct part is easy, right down to the last nut and bolt. Should you get stuck, our knowledgeable sales staff are ready to help using our live-chat feature.

Add the parts that you need to your basket and head to the checkout for delivery and payment options. Once checked out, you will receive a confirmation of your order via email, by which time your parts will be being picked and packed, ready to be sent to your door.

ORDER THROUGH A BRANCH

Whether you are visiting, calling or emailing, our knowledgeable branch staff will be happy to help you get the parts that you need. They are car enthusiasts too and understand the challenges that sometimes come with identifying the right parts for rare and classic cars. Of course, the more information about your vehicle that you have to hand, the quicker and easier it will be for us to help.

Arranging to collect parts from our branches is easy, our teams will let you know once your order is ready. Alternatively, they can dispatch your order directly to you.

PRICING

Due to constant variations of world markets and currency fluctuations the prices in this catalogue are subject to change. We make every attempt to keep prices competitive and stable, however in common with all other suppliers in our industry, we reserve the right to alter prices without prior notice. For the latest prices, please call or visit moss-europe.co.uk.

All prices are per unit (unless otherwise stated) and include (UK) VAT at 20% (where applicable). Please note EU countries may be charged at their local VAT rate, countries outside the EU will not be charged VAT. Prices are correct at the time of going to print, postage & packaging is not included. E&OE.

SHIPPING & DISPATCH

Orders for delivery in the UK may be dispatched by regular post for small/lightweight items, larger items may be dispatched via a courier. Please call us for the best delivery option for your order and the latest delivery prices.

For delivery outside the UK we offer the following services. Economy delivery (by road): 2 to 5 days (approximately). Express delivery (by air): 1 to 2 days (Guaranteed). For small and low value orders we also use airmail. For these services, please ask for prices and the best delivery option when you place your order. Most deliveries (except airmail) are 'trackable', (inc: e-mail updates and internet access for selected carriers). Please remember, all carriage charges are dependent on either gross weight or volumetric weight, whichever is greater. If a quotation is required prior to placing your order, please contact a member of the sales department. Alternatively, you can arrange your own collection.

UK OPENING TIMES

Open Monday to Friday

Store opening times vary. Please contact your nearest branch for more information.

See website for Paris opening times

90 DAY MONEY BACK PEACE OF MIND WARRANTY

It's simple, if you change your mind for any reason, all uninstalled parts still in their original condition and packaging may be returned to us within 90 days from the date of purchase for a full refund. A copy of the original invoice or picking label must accompany the return. Return freight is paid by the customer, unless returned due to our error.

In the event of a part failing in use, all parts are warranted against defects in materials and workmanship for 12 months from the date of purchase. Please remember that all returns must be accompanied by the original invoice, return freight will be reimbursed. For more details see our website or contact your local branch.

CORE PLUG STRAP KIT

A core plug is one of those little parts that can cause a big problem. These clever little straps are designed specifically for Jaguar engines. By bolting them in place over the plug, they provide an extra measure of security, preventing a catastrophic event. Drilling and tapping is required. Kit includes seven core plugs, seven core plug straps, Allen head attaching bolts and even the correct tap!

Core plug strap kit37-3575**£149.80**

TAPPET GUIDE HOLD-DOWN KIT

A correctable weakness in the XK Jaguar cylinder head is tappet guide movement. Under the stress of high RPM, racing applications, or even with just a lot of miles, the tappet guides can work loose. These guide hold-downs are the ounce of prevention needed to hold the guides in place. Complete set as shown, top.

Tappet guide hold-down set37-1580**£239.10**

CRANKSHAFT SEAL UPGRADES

One of the few weak points of the Jaguar "XK" six-cylinder engine is the rear crankshaft seal. Early engines don't even have one, and later 3.8s and all 4.2s make do with an antiquated rope seal. These seal conversion kits use a modern rear seal for a free seal. While such conversions are not new, these kits combine excellent quality and a reasonable price. Please note that the crankshaft must be turned down to fit the seal, so this modification is best made during an engine rebuild. The 3.8 kit uses all-new parts; the 4.2 unit uses a modified original seal housing; we will need your original back, in other words.

Crankshaft seal, 3.8lt21-1550**£398.40**

Crankshaft seal, 4.2lt21-1552**£398.40**

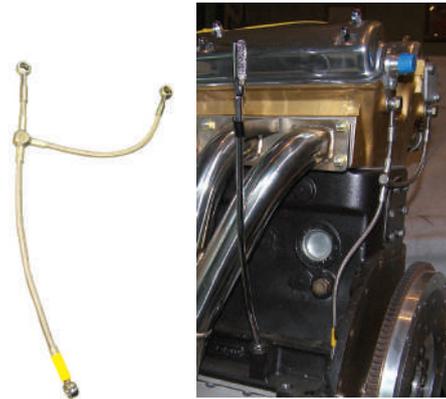

ALLOY TIMING COVER

At this price it simply is not worth the time to refurbish a corroded original. For all series I E-Type; series II E-Type FHC and OTS to Engine 7R1914;

Series II E-Type 2+2 to Engine R35388. Must be "decked" to match cylinder block height. Sold, without studs.

Alloy timing cover.C8614/1.....**£35.10**

BRAIDED STAINLESS STEEL CAM OIL FEED LINE ASSEMBLY

This braided, flexible line assembly replaces the standard solid line that is prone to fatigue cracks (with potentially disastrous results) and persistent leaks. This flex line will not crack and adds significantly to the under-bonnet cool factor. Supplied with copper washers. New banjo bolts available separately (three required).

Cam feed lines.....37-3553**£44.90**

HIGH PERFORMANCE STREET VALVES

These premium six-cylinder valves are made by a leading supplier to racing engine builders. Constructed from racing-quality stainless steel, they are far more durable than a standard, production valve. In addition, the valve shape is improved for better flow and the exhaust valves are coated for longer life. These are great valves for the racer or an enthusiast who wants to increase the longevity of a street engine. Available in standard and over-size diameters; over-size valves require new valve seats.

High performance street valves, intake, 1-3/4" ... 37-3550**£28.00**

High performance street valves, intake, 1-7/8" ... 37-3580**£23.80**

High performance street valves, exhaust, 1-5/8" ... 37-3551**£26.20**

VIBRATION DAMPER

Fits all E-Type six cylinder Jaguar engines. A must for high RPM use or the enthusiast looking for a smoother-running engine. Manufactured for the Jaguar engine, not adapted from another engine as some others. Each unit comes accurately marked 0-40 degrees for precise timing. Damper is supplied pre-drilled to accept the standard Jaguar crank pulley. Ideal for racing and street engines where smoothness and reliability are important.

Vibration damper37-8522**£469.90**

OIL FILTER CONVERSION KITS

Not exactly true to restoration specs, but these kits allow one to convert to modern spin-on style filters. Each kit provides the necessary adapters and/or "O" ring for a bolt on application. Please ensure that you double-check the number cast into your E-Type's alloy oil filter housing to ensure the proper kit is ordered.

- 3.8lt (FA.2746)37-2002£117.70
- Series I 4.2lt & early series II (FA.2119)37-2003£114.30
- Later series II37-2004£128.40
- Replacement filter for 37-2004PH16£13.90

STAT-O-SEAL WASHERS

There is no longer any reason for Jaguar engines and other components to leak their precious fluids. Stat-O-Seal alloy washers are widely used in racing; they incorporate an internal o-ring seal providing a last line of defence.

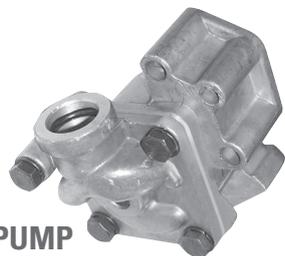

- Stat-O-Seal washer, 1/4" (each)37-1994£0.60
 - Stat-O-Seal washer, 5/16" (each)37-1995£1.00
 - Stat-O-Seal washer, 1/2" (each)37-1999£1.30
 - Stat-O-Seal washer, 5/8" (each)37-1998£1.80
 - Stat-O-Seal washer, 3/4" (each)37-1997£1.85
 - Stat-O-Seal washer, 7/8" (each)37-1996£1.90
 - Stat-O-Seal washer, 3/8" (each), special*37-2000£0.60
- *(CO-4146 upgrade).

UPRATED VALVE SPRINGS

After you've selected the proper cam for your application, you need to ensure the rest of the valve train will be up to the task. Our valve spring sets are supplied by a major manufacturer. These springs eliminate float and "bounce" at high RPM, resulting in constant power delivery. Our springs can be used with any of the cams listed in this catalogue and must be used with our high-performance cams.

- High performance valve spring set37-1113£44.60
- High lift valve spring set37-1589£481.50

HIGH-FLOW OIL PUMP

This oil pump has been modified to provide 30 percent greater flow than a standard 4.2lt pump. This resultant flow and pressure increase is ideal for vintage racing and high performance applications of the XK engine.

With 3.8lt engines, also order the required adapter sleeve, number 21-0215. For maximum benefit with 3.8lt engines, use high-flow oil pick-up pipe number 17-3554 below. (Adaptor sleeve not required when using this pipe).

- Hi-flow oil pump, series I & II37-3505£237.30
- Adaptor sleeve, 3.8lt21-0215£8.70
- Oil pick-up pipe, 3.8lt.37-3554£155.46

HIGH PERFORMANCE BILLET OIL PUMP

For racing duty, this billet pump increases flow by another 20 to 30 percent over 37-3505 upgraded pump. Use with 37-3554 pipe for 3.8lt.

- High performance oil pump37-4500£1,920.00
- Oil pick-up pipe, 3.8lt.37-3554£155.46

HIGH PERFORMANCE TAPPETS

We now manufacture our own line of light weight cam followers. The over-size diameters allow for a "clean-up" bore of worn cam follower guides.

- Over-size diameter, standard thickness37-8207£36.30

HEAVY DUTY ENGINE MOUNTS

For high performance work, stock Jaguar engine mounts are often over-taxed. These heavy duty mounts are up to the task. For all cars using the C4794 mount (all six-cylinder cars).

- Heavy duty engine mounts (pair)C4794UPG£87.90

HIGH-FLOW OIL PICK-UP PIPE

Improve the oil pick-up and distribution in the engine with a hi-flow pick-up pipe, or add the oil pan baffle to ensure good pick-up during hard acceleration and cornering.

- High-flow oil pick-up pipe37-3554£155.46

HIGH-FLOW OIL PICK-UP BAFFLE PLATE

A must for high-performance applications, this baffle prevents oil from sloshing away from the pick-up tube during braking and cornering. Can be used in conjunction with high volume oil pipe.

- High-flow oil pick-up baffle plate37-3560£58.08

ARP UP-ATED STUDS, BOLTS, NUTS & WASHERS

These parts by ARP far exceed the strength of original or reproduction fasteners and are a must for any high-compression Jaguar engine.

The studs are made from 8470 chrome moly with a tensile strength of 190,000psi., the same as used in some racing applications.

Standard studs are adequate for a stock engine, but if you're interested in a high-revving, high-compression Jaguar engine, don't trust that investment to anything but the best.

Head Stud Sets, each set contains 14 studs, 14 washers, & 14 nuts.

Head stud sets

3.8lt engines without lifting brackets.37-3500£299.60
(Series I 4.2lt & early series II).

All short-stud engines with lifting brackets.37-3501£321.00
(4.2lt long-stud engines & late 4.2lt engines).

With long studs (i.e. 13" vs 6")37-3502£460.10

Individual Fasteners

- 12.7" x 7/16" stud (each)37-1684£37.40

PERFORMANCE RANKED CAMSHAFTS

The choice of camshafts is a critical one for power output, and is often made without all the facts at your disposal. Most of the power increases in a Jaguar high performance engine build-up are made in the cylinder head. Increased flow by porting and the use of larger valves is necessary. So too is a camshaft "dialed-in" for the type of driving the engine is expected to endure.

Overall power increase depends on many factors. Proper carburation, manifold/exhaust selection and a compression ratio suitable for the application all have a bearing. As much as we would like to say "Install these cams and get 15 more horsepower, no problem," it's not that simple.

The table below lists our reground and billet camshafts. Most are regrinds on suitable cores and are ideal for mild applications.

A Billet cam is designed and ground to be a particular profile from a steel billet. To shape a cam lobe, material is ground off, forming the shape the designer requires. When working from an existing camshaft there are limits to how much material can be removed to reshape a lobe. With a new steel billet, those limitations are lifted. With billet cams we can achieve more performance through:

- Greater valve lift for higher RPM
- Reduced valve float means more longevity
- Smoother ramping for less strain on the valve train
- Longer durations increase total air flow

The total benefit from our billet's is greater, dependable, and durable horsepower. While more expensive, our billet cams are worth the extra cost when focused on the ultimate goal of performance. There are two full-race billet profiles from which to choose.

Not legal for use on pollution controlled vehicles.

Part Number	Performance Rank	Engine	Application	Duration Degrees	Cam lift Inches	Useable RPM Range	Price
37-1585	XK-1	XK-6	H.P. Street	254	.390	2000-4500	£481.50

FORGED HI-COMPRESSION PISTONS

We have compiled a selection of forged high compression piston sets that have proved their worth in the battlefields of competition. Each kit includes pistons, matched ring sets, wrist pins, and clips. Other specifications are available on a special order basis.

3.8lt, 10:1 CR, +.040"	37-9972/40	£1,815.60
3.8lt, 12:1 CR, +.040"	37-9974/40	£1,815.60
4.2lt, 10:1 CR, +.040"	37-9976/40	£1,815.60
4.2lt, 12:1 CR, +.040"	37-9978/40	£1,815.60

ZDDP OIL ADDITIVE

Zinc Dialkyl Dithio Phosphate (ZDDP) is a critical anti-wear ingredient in motor oil. It's being phased out because the small amount that sneaks into combustion chambers reduces the service life of catalytic converters. For modern roller-tappet engines, the reduction of ZDDP is not of grave concern, but for flat-tappet engines such as those fitted to Jaguars, it is of critical importance. ZDDPlus restores this anti-wear agent and ensures proper lubrication. Sold per 4-ounce bottle, which will treat 4-5 quarts of oil. Please note that ZDDPlus cannot be used in cars equipped with catalytic converters. For more information, see www.zddplus.com. Supplied as 4oz. bottle.

ZDDP oil additive, 4 oz.	220-805	£12.60
-------------------------------	---------	--------

BOTTOM END GASKET SETS

Bottom end gasket set, 3.8lt	EE532	£47.40
Bottom end gasket set, 4.8lt	GEG258	£42.50
Bottom end gasket set, V12	JLM1719	£32.70

LARGE DIAMETER TAPPET & TAPPET GUIDE SET

Typically a billet cam has a lobe wider than the standard tappet diameter. By machining the head to accept the larger diameter steel tappet guide set (not shown) the engine builder can then install these larger diameter tappets. For six-Cylinder engines only.

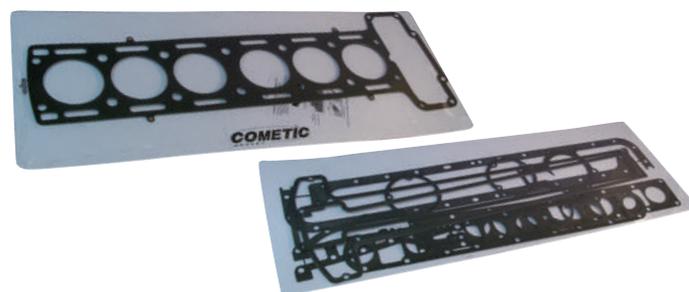

Large tappet/guide set (24-piece)	37-3589	£1,171.60
---	---------	-----------

CARRILLO CONNECTING RODS

The ultimate performance connecting rod for the Jaguar XK engine is Carrillo. For anyone building a true performance engine, these are a must. With supporting modifications, these rods will allow the XK engine to reliably turn 7500-plus RPM. When you order this set of six you also get a very cool Carrillo decal!

Carrillo connecting rods, 3.8lt & 4.2lt	37-8521	£2,883.50
---	---------	-----------

COMETIC GASKETS

Cometic head gaskets are multi-layer steel; the outer layers are embossed and coated on both sides with four elastomer-rubber-based material (Viton) which can withstand the shearing forces created by alloy heads on cast iron blocks. No re-torque is necessary. Items in the gasket sets are made from aluminium foam material, which has compounded nitrile synthetic rubber bonded to an aluminium core. No gasket sealers or silicone required. If you want to stop leaks, this is how. Excellent part for those cylinder heads that have been milled. Our supplemental gasket sets contain all the other gaskets necessary to R&R a head. They contain: cylinder head breather, cam covers (cut rear for specific application), timing cover, oil pan, water pump, intake manifold and thermostat gaskets.

Head gaskets

3.8lt, 0.040" thick, 89mm bore	37-9992	£176.20
4.2lt, 0.040" thick, 3.690" bore	37-9994	£239.00
3.8lt, 0.056" thick, 89mm bore	37-9982	£202.50

4.2lt, 0.075" thick, 3.690" bore	37-9985	£248.30

Supplemental gasket sets

Early 4.2lt	37-9996	£165.80
Late 4.2lt	37-9998	£133.70

CRANKSHAFT SCRAPER PLATE

In an effort to reduce the oil mist and windage loss as the crankshaft whips around in the crankcase, this plate "scrapes" the crankshaft as it rotates. A simple device, the plate sandwiches between the block and oil sump. Due to differing crankshaft profiles, the plate as supplied may not exactly duplicate the silhouette of your crank and may require slight "fitting."

Crankshaft scraper plate	37-3556	£107.00
--------------------------------	---------	---------

SPECIALIST OILS & LUBRICANTS

Blended using high quality base oils combined with additives specially selected for their compatibility with metals and components used in the past, Dynolite oils provide increased protection combined with a lower degree of acid and corrosion attack, less gumming and mud formation.

Dynolite engine oils

- Running in oil, 20w/50, 5lt GGL819150 . . . £31.00

SILICONE COOLING HOSE KITS

Silicone hose kits make the ideal replacement for stock rubber hoses. Original equipment type hoses crack, stretch, and swell causing pressure loss and a performance decrease. Replace those standard hoses with these race-proven 11-piece sets today.

- Silicone cooling hose kit, 3.8lt 37-3570 £395.90
- Silicone cooling hose kit, series I 4.2lt. 37-3571 £338.80

'CHENEY-STYLE' HOSE CLAMPS

After years of development and painstaking research, we are pleased to introduce first-class reproductions of the ever-elusive Cheney-type hose clamps. Every effort was made to faithfully reproduce the original Cheney design in all respects, including materials, dimensions, construction and finish. These clamps were made to address the non-availability of original clamps, especially for Jaguar owners who seek the ultimate in authenticity.

These clamps are bright cadmium plated, just like the originals. Over time this plating will dull and turn darker. This is normal. Jaguar never used a bright zinc plated or stainless steel clamp. The darker finish is correct.

Part Number	Cheney Number	Diameter, Min	Diameter, Max	Price

ALLOY EXPANSION TANKS

These are expertly crafted alloy versions of the standard steel E-Type radiator expansion tanks. They mount just like the originals with the same brackets and fittings. Aluminium offers superior heat dissipation and the good looks are undeniable.

- Bare finish, 3.8lt 37-3583 **£312.00**
- Powder coated black, series I 4.2lt. C24570/AB . **£406.90**
- Bare finish, series I 4.2lt C24570/A. . . **£360.60**
- Powder coated black, series III V12. C33016/AB. . **£422.70**
- Bare finish, series III V12 C33016/A. . . **£376.50**

REVOTEC COOLING FAN KITS

Each bespoke Revotec cooling kit uses a selection of quality component parts and the use of a dedicated suction or blowing fan to maximize air flow. Each kit is supplied complete for an easy DIY installation with a Revotec variable electronic fan controller, engineered laser cut brackets that are designed to fit with no permanent modifications to your vehicle and a high power COMEX electronic cooling fan which is high power, slimline and waterproof to IP68 making the fan ideal for most working conditions.

Series I kit contains:

- 15.2" COMEX sucking fan
- Laser cut aluminium fan mounting brackets
- 38mm Revotec electronic fan controller
- Earth wire kit
- Bolts & fittings
- Fitting instructions

- Revotec cooling fan kit, positive earth RFK821P . . . **£290.90**
- Revotec cooling fan kit, negative earth RFK821 . . . **£251.90**

Series II kit contains:

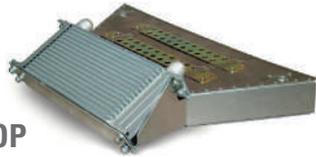

- Two 10" COMEX high power sucking fans
- Laser cut aluminium fan mounting brackets
- 35mm Revotec electronic fan controller
- Earth wire kit
- Bolts & fittings
- Fitting instructions

- Revotec cooling fan kit, negative earth RFK822 . . . **£292.80**

Series III Kit Contains:

- Two 10" COMEX high power sucking fans
- Laser cut aluminium fan mounting brackets
- 35mm Revotec electronic fan controller
- Earth wire kit
- Bolts & fittings
- Fitting instructions

- Revotec cooling fan kit, negative earth RFK823 . . . **£292.80**

OIL COOLER WITH SCOOP

This assembly attaches in the air stream on the underside of the E-Type bonnet with the straps supplied. Does not include supply lines.

Oil cooler with scoop C4796UPG . . . **CALL**

LIGHTWEIGHT ALLOY FLYWHEELS BY FIDANZA

A lightened flywheel significantly increases throttle response. The effect of this is unleashing more horsepower and more flexibility throughout the rev range. These are made from high-grade aluminium billet with a replaceable high-carbon steel wear surface. A steel ring gear is installed. Although most of the sales for these lightweight flywheels are to the high performance and racing market, the street-driven Jaguar will see advantages in extended engine life from an easier revving engine.

Lightweight alloy flywheel, 3.8lt, 10" clutch 37-1502 **£429.90**
 Lightweight alloy flywheel, 4.2lt 37-1093 **£429.90**
 Lightweight alloy flywheel, V12 37-1094 **£401.30**

FIVE-SPEED TRANSMISSION CONVERSION

Our five-speed transmission kits are based on the tried-and-true Tremec (formerly Borg-Warner) T-5 unit, but are hand-assembled with many custom components for each Jaguar application. Why install a five speed? First, as far as feel and ease of use are concerned, these gearboxes are worlds apart from the original Moss (aka "non-synchro") gearboxes, which are pleasingly vintage but rough and slow. The Moss box was basically out of date in the mid fifties; it was woefully obsolete by the mid sixties and certainly not up to the standards of Jaguar engines or suspension. Our five-speeds bring the transmission up to modern standards and eliminate what's arguably the most anachronistic feature of early Jaguars. Second, many internal components are no longer available for Jaguar gearboxes (even the later, all-synchro, units), so a five-speed is sometimes the only alternative to a terminally-ill standard box. Third, with a five speed, you obviously gain another gear, making for excellent 1-4 ratios and an overdrive fifth for more relaxed cruising at highway speeds. The following conversion kits are available:

Six-cylinder gearbox kits: Kits include new transmission (not rebuilt), adapter plate, gear lever position adapter, speedo cable adapter (standard speedo cable retained), mounting kit and clutch plate. Standard ratios are 2.95, 1.94, 1.34, 1.00, 0.63. An .80 fifth gear is available at extra cost. Driveshaft is not included, have a local specialist modify your original or make a new unit. **V12 gearbox kit:** Kit includes new transmission (not rebuilt), gear lever position adapter, speedo cable adapter (standard speedo cable retained), mounting kit, clutch plate, custom bellhousing with hydraulic release bearing installed and all lines. Standard ratios for this gearbox are 2.95, 1.94, 1.34, 1.00, 0.63. (An 0.80 fifth gear is available at extra cost). Driveshaft is not included, have a local specialist modify your original or make a new unit.

3.8lt 37-0001 **£6,201.00**
 4.2lt, FHC & OTS; short wheelbase 37-0004 **£6,472.80**
 4.2lt, 2+2; long wheelbase 37-0003 **£8,019.30**
 V12 37-1082 **£8,977.40**

AIR FILTER BUNDLES

These bundles include an oil filter, air filter(s) and fuel filter. They do not include the in-tank fuel pick-up filter.

Series I 3.8lt & 4.2lt, early series II w/round air filter 22-5005 **£24.60**
 Later series II with rectangular air filter 22-5006 **£28.90**
 Series III V12, with glass bowl fuel filter 22-5007 **£32.10**
 Series III V12, with metal bowl fuel filter 22-5008 **£29.90**

Includes C17539 seal, C17546 grommet and 8416.

Air filter bundle, series I & early series II 22-5000 **£24.60**

Includes two air filters, eight air filter bolt grommets and two air filter trumpet bellows.

Air filter bundle, series III 22-5002 **£62.00**

HIGH PERFORMANCE AIR FILTER

Oiled gauze type filter with round filter.

High performance air filter, series I & II 37-1690 **£31.50**

WEBER CARB MOUNT OPTIONS

DCOE Carb Mounts are required to mount the cantilevered side-draft carbs. These cushioned mounts seal the carb against the manifold and allow for a "soft mount," damping out any vibration transmitted to the carb body. "Old Style," too, use the tried and true metal spring thackery washers to provide for float. The "New Style," centre relies on the four rubber bushings and steel collars for this anti-vibration mount. "Solid" mounts, below, have a solid rubber core and gasket material faces. Order one part number per carburettor.

Weber carburettor mount, old style (3 required) . . 99005.145 . . . **£21.40**
 Weber carburettor mount, new style (3 required) . 99005.146 . . . **£28.90**
 Weber carburettor mount, solid (3 required) . . . 37-1509 **£22.50**

K&N AIR FILTERS FOR WEBER SIDE-DRAFT

Horsepower is primary in importance on a competition engine, but so is clean air. Filtering out even the finest dirt particles can extend the life of any piston engine. Both sets include steel end plates, K&N pre-oiled reusable filter elements, and appropriate hardware.

- K&N air filter, 45 or 48 DCOE, 3" deep37-1106£288.90
- K&N air filter, 45 or 48 DCOE, 1" deep37-1521£139.10

UPGRADED AIR FILTERS

The wide space wire mesh and dry foam elements offer superior air filtration with a minimum of attaching parts and fuss. Stamped steel and chromed backing plate mounts securely to each carburettor. Includes breather fittings. Filter elements are washable and reusable. Replacement elements available.

- 1-3/4" SU, round (each)37-0875£33.70
- 2" SU, round (each)37-0880£33.70
- 1-3/4" Stromberg, oval (each)223-240£46.00
- Round replacement element37-0890£17.10
- Oval replacement element37-0893£28.90

SU BOLT-ON VELOCITY STACKS

Take full advantage of the power of your SU carburetors. The use of velocity stacks allows the tuner to "dial-in" the performance range of the engine. The longer the horn, the later in the power band the power comes on; the shorter the horn the sooner. Advisable for racing applications only.

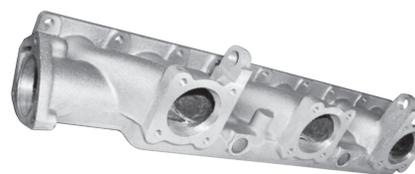

Dia.	Length	Screen	Part No	Price

COTTON GAUGE FILTER CLEANING KIT

This kit is meant to extend the life of your oil-and-gauze air filter. This offers the information on the proper care and maintenance of all the oil-and-gauze filter elements. Includes a 12 oz. pump spray bottle of air filter cleaner, 8 oz. air filter oil, squeeze pump, and instructions for their use on CD.

- Cotton gauge filter cleaning kit.001-130£18.00

INTAKE MANIFOLD

A new reproduction in new cast aluminium suitable to mount SU carburetors. Will require additional polishing to resemble original manifold.

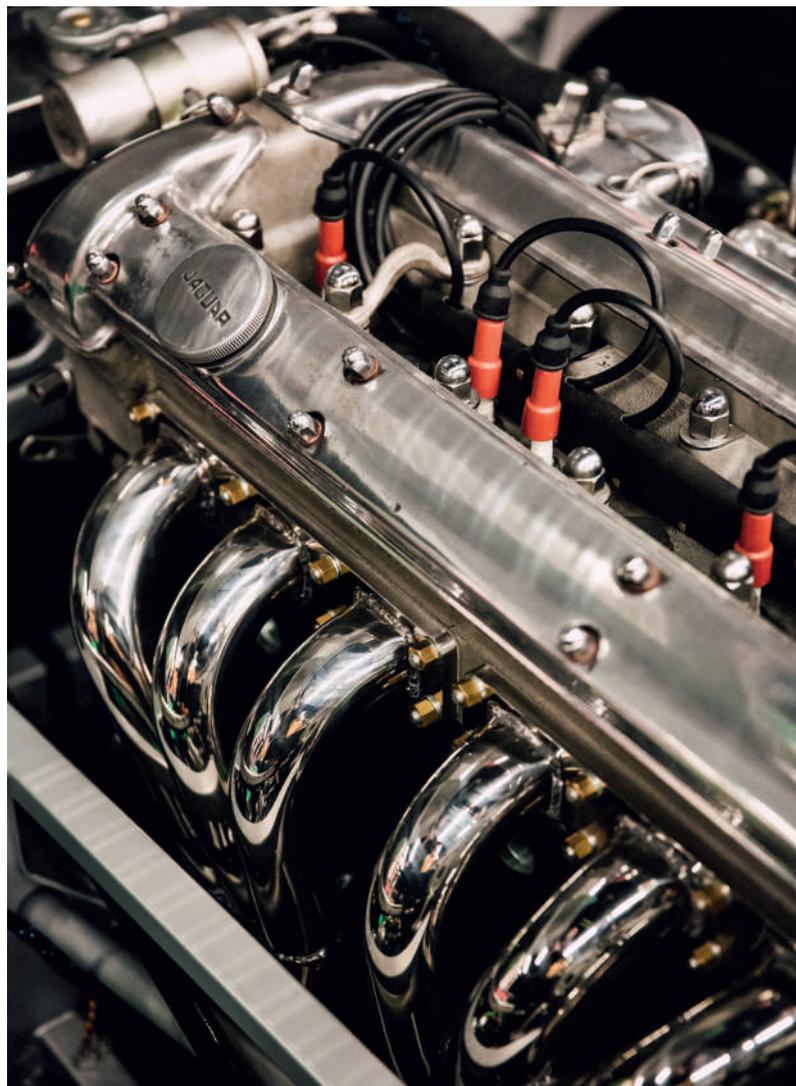

- Intake manifold, series I 4.2lt C24558£822.00

SU CARBURETTOR CONVERSION KIT

Finally! A replacement for the troublesome Zenith-Stromberg carburetors that were standard equipment on the V12 model. This kit includes four new SU carbs and all the linkage and fittings to convert your car. Improves drivability and performance. Not legal for use on pollution controlled vehicles.

- SU carburettor conversion kit, V12. FZX3062£2,019.60

WEBER CONVERSION KIT

Converts from Stromberg carbs to down-draft Webers. Linkage kit and air filters are extra. Water pipe is not included.

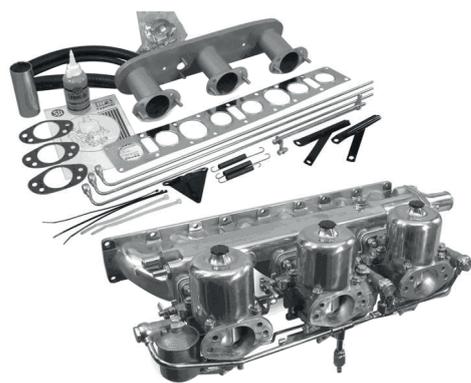

- Weber conversion kit, V1237-1520 . . .£4,513.30
- Linkage kit, sold separately37-3585 . . .£461.70
- Air filter set, sold separately37-1522 . . .£204.20

4.2LT WEBER SIDE-DRAFT CONVERSION KIT

For the ultimate in intake performance, we offer Weber conversions for the six-cylinder E-Type engines. Carbs are supplied with a base jetting. Most will require fine tuning and re-jetting. Due to multiple suppliers, the manifold may not look exactly like the one shown. Professional installation is recommended.

- Carburettor conversion with linkage & fuel hoses. . .37-1450 . . .£2,883.50
- Weber carb fuel rail, premium version.37-1104 . . .£214.00

TRIPLE SU CARBURETTOR CONVERSION KIT

With the popularity of Stromberg-to-SU conversions, the supply of used 2" SU carbs is decidedly tight. Trying to find good, usable carburetors is hard enough, much less a correct manifold and all the additional hardware necessary to make a clean conversion. This kit includes virtually all you'll need and everything is brand new. Includes new carburetors, manifold and linkage. All the major components needed to convert to SUs.

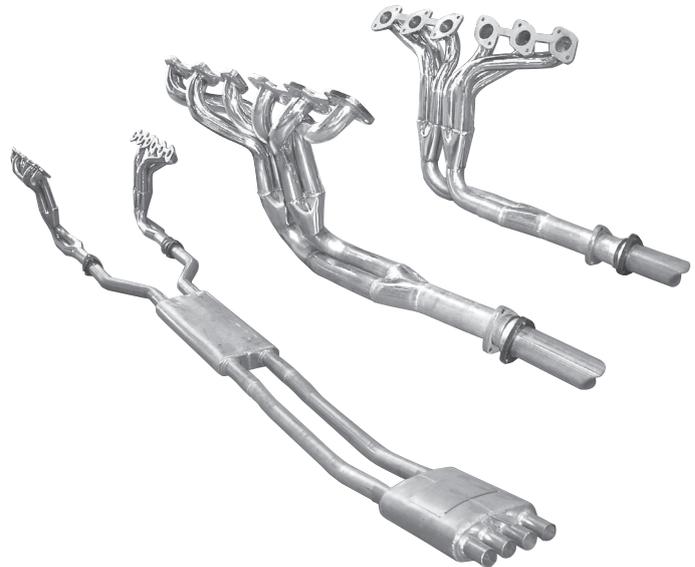

- Triple SU carburettor conversion kit, series II . . .23-1000 . . .£4,663.20

SIX-CYLINDER "BIG BORE" STAINLESS SILENCER SYSTEMS

The "Big Bore" includes manifolds, has high flow silencers and larger diameter (2") pipes for a slightly more aggressive sound and better performance.

- SWB, straight rear pipes (6 piece)27-5026 . . .£1,260.00
- LWB, straight rear pipes (6 piece)27-5027 . . .£1,122.00

MANIFOLD & EXHAUST SYSTEM

Fabricated from stainless steel, these hand-made British manifolds represent the very fine craftsmanship we have been noted for. For the sound of European exotics, this system will attach without any modifications to bodywork and is supplied with big-bore high flow silencers. Imagine your Jaguar making Ferrari-like sounds! Does not include rear "fan tail."

- Headers & big bore exhaust system, V1237-1517 . . .£2,636.40
- Headers only.37-1517/1 . .£1,727.30

SIX-CYLINDER STRAIGHT-THROUGH STAINLESS EXHAUST SYSTEMS

This style uses standard diameter tubing with a less restrictive centre silencer. All systems come with highly polished resonators as shown. Hangers and gaskets are available separately, and should be ordered at the same time.

- 3.8lt27-5013 . . .£920.10
- Series I 4.2lt, FHC or OTS27-5015 . . .£710.80
- Series II, FHC or OTS27-5018 . . .£920.10

MILD STEEL MANIFOLDS

While not as pretty as our stainless steel manifolds, these units offer good value. The supplied link pipes mate with the standard exhaust system. Will not fit 3.8lt cars equipped with a dynamo. See our 3.8lt alternator conversion kit.

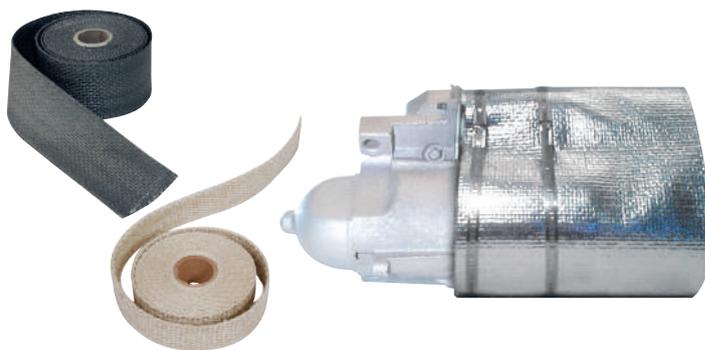

Mild steel headers, series I & II.37-1500£353.10

6-CYLINDER STAINLESS STEEL MANIFOLDS & LINK PIPES

Manufactured by type-304 stainless steel, these free-flowing six-cylinder manifolds are beautifully formed and welded; they far surpass similar parts made in Britain. What's even more amazing, however, is the price. Set includes two polished tubular manifolds and connector pipes to join to a standard system. Install these headers and you'll enjoy a boost in power and will never have to deal with flaking porcelain again! Please note that we purposely made the link pipes on the long side, so they may require a trim on some cars. Gaskets and other mounting hardware sold separately.

Coupe and Roadster (4 piece)27-5024£198.00
 2+2 (4 piece)27-5025£636.00

MANIFOLD HEAT INSULATION

Excessive heat build up in the engine bay can cause premature failure of components, and leads to poor engine running due to reduced inlet air density. Excess heat in the engine bay can also cause fuel cavitation. Wrapping a tubular manifold will keep engine bay heat to a minimum, reducing temperatures by up to 70%. Thermo-Tec is made from Silica based yarns capable of withstanding up to 1000°C. As a guide a 2" x 50" roll will cover approx. 13 ft of 2" pipe. Supplied in various sizes.

Roll size (w x l)	Natural	Black
1" x 15' roll.	GAC150 £14.70	GAC150 £14.70
2" x 15' roll.	GAC152 £24.30	GAC152 £24.30
1" x 50' roll.	GAC154 £42.90	GAC154 £42.90
2" x 50' roll.	GAC156 £73.00	GAC156 £73.00

Manifold blanket and starter motor cover

Using a manifold blanket provides excellent heat retention for exhaust manifolds and can be easily installed to both cast iron and tubular manifold.

Manifold blanket four-cylinder to six-cylinder . . . GAC182 . . . £123.10
 Manifold blanket ,V8 (2 piece) GAC183 . . . £130.90
 Starter motor cover with straps GAC181 . . . £41.70

Snap Straps

Use Snap Straps to hold the wrap or blanket in position.

Snap Strap kit 8" x 9" & 4" x 18" lengths. GAC172 . . . £39.30
 Snap Strap kit 6" x 9" & 4" x 18" lengths. GAC173 . . . £34.20
 Snap Strap kit 12" x 9" lengths. GAC174 . . . £36.90
 Snap Strap kit 6" x 18" lengths. GAC175 . . . £24.30
 Snap Strap kit 4" x 14" lengths. GAC176 . . . £12.30

EXHAUST HEAT INSULATION

Exhaust heat shield can be used on the underside of the floors where the exhaust runs close to the floor particularly above silencers and catalytic convertors. It effectively reflects 90% of the radiant heat from exhausts and can withstand temperatures up to 1000°C. The general purpose material can be used to cover bulkheads and floors to keep general heat transfer to the cockpit to a minimum. It can also be used to cover components in the engine bay to prevent heat damage.

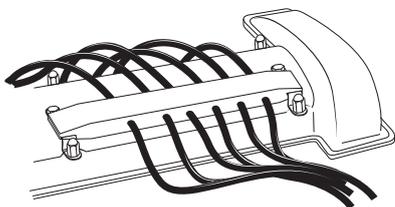

Exhaust heat shield 40" x 24" GAC184 . . . £97.50
 General heat shield 1m x 1m. GAC185 . . . £88.80

ASSEMBLED IGNITION LEAD SETS

Threading ignition leads through the cylinder head conduit and installing spark-plug ends is a tedious task, so we've done all the work for you with our ready-to-install ignition lead conduit assemblies. Simply remove two cylinder head hold-down nuts, install the conduit, attach the leads and you're ready to go. We use top-quality 7mm plain black lead and original-type straight or right-angle spark plug ends as per original. We even include the correct rubber boots (where applicable) for the spark plug and distributor cap terminals and have numbered each wire.

- With screw-in cap, series I 3.8lt28-1450£321.00
- With Pertronix ignition, series I 3.8lt28-1450P . . .£321.00

- With push-in cap, series II28-1536£278.20
- With push-in cap & Pertronix ignition, series II. .28-1536P . .£246.10

IGNITION LEAD HOLD-DOWN

A nice underbonnet finishing touch, this lead hold-down doubles as a loom for sorting out the plug leads. Also, it's a perfect touch for that vintage racer or show car. Made from a phenolic-laminate material, includes two stainless steel fixing brackets. A great upgrade.

- Plug wire hold-down.37-8524£71.70

LUCAS "BUMBLE-BEE" RACING IGNITION WIRE

The original '60s to '80s vintage "Bumble-Bee" Lucas' Formula One wire. This racing ignition wire is made from solid stainless steel core, sold in bulk, by the foot. Installer must supply wire-ends and boots of choice. A great period application that works great!

- Sold per foot37-0952£3.90

CSI-IGNITION DISTRIBUTORS

CSI-Ignition distributors offer a fully electronic ignition system built into the correct type of Lucas distributor housing to suit your car, keeping the original appearance in the engine bay. You can only tell the difference when you remove the distributor cap! Gone are the points and condenser and mechanical advance mechanism, all replaced with a high quality electronic ignition system manufactured using military specification components for durability and reliability. These distributors are maintenance free (no points to adjust), and offer the benefits of, easier starting & smoother running, more torque & power, reduced fuel consumption & emissions. They also eliminate the weaknesses of mechanical timing advance and problems such as points bounce ensuring correct ignition timing throughout the rev range.

"The new range of CSI-Ignition distributors is a breakthrough for classic car ignition systems".

Each CSI-Ignition distributor features 16 easily switchable, optimised ignition curves to allow timing adjustment to suit your car's engine and fuel specifications. Alternative advance curves can be selected to suit your engine's state of tune making them ideal for modified engines. Curves are easily selected using a screwdriver in a rotary switch, with a bright flashing LED indicator to show the selected curve all concealed underneath the distributor cap. We offer a wide range of CSI-Ignition distributors for a variety of applications. They are available Optimised with vacuum advance to suit road or uprated cars running on SU carburettors, or Tuned without vacuum advance for cars running Weber type carburettors. **Please note:** Some units may only be available To Order. More details are available on our website, search for CSI-Ignition Distributor.

Positive earth distributor

- Tuned 23D6, series I. CSD8423571. .£340.20
- Tuned 23D6, with immobiliser, series I CSD8423681. .£491.05

PERTRONIX

PERTRONIX IGNITOR KITS

You've asked for them and here they are: the popular Pertronix Ignitor ignition conversion kits. They eliminate troublesome breaker points forever with an incredibly neat magnetic pick-up that's fully contained within the distributor cap for a "no one will ever know" installation. Available for standard cars and for cars that have been converted to negative earth. To get the most of the Ignitor kits, also purchase the appropriate matched coil.

PERTRONIX

PERFORMANCE FLAME-THROWER ELECTRONIC DISTRIBUTORS

Replace your worn-out Lucas distributor with a brand new electronic unit. The high performance distributor is mechanical advance only and uses the Pertronix Ignitor II micro-processor ignition. Ready for installation with only two wires to connect. Fits all pre-fuel injection six-cylinder Jaguars.

- Tailored advance curve for optimal performance and drivability.
- Variable dwell maintains peak energy throughout the entire RPM range, reducing misfires while improving engine performance.
- Develops on average four-times more available energy between 3000 and 5000 RPM, and two-times more plug voltage.
- Peak current level is reached just prior to spark for maximum energy without the heat build-up, increasing coil and module life.
- Adjusts spark timing at higher RPM to compensate for the inherent electronic delay.
- Senses start-up and develops more energy for quicker, easier starting.
- Built in reverse-polarity and over-current protection shuts down the system, preventing component damage.
- Warranty: 30 months for electronics & limited one-year mechanical.

Negative earth.D171600**£248.10**

PERTRONIX

FLAME-THROWER ELECTRONIC DISTRIBUTORS

Replace your worn-out Lucas distributor with a brand new electronic unit. Distributor incorporates the original Ignitor ignition and vacuum advance. Ready for installation with only two wires to connect. Fits all pre-fuel injection six-cylinder Jaguars.

- Tailored advance curve for optimal performance and drivability.
- Delivers twice the voltage to the spark plugs.
- Increased horsepower, fuel economy and spark plug life.
- Epoxy moulding makes module impervious to dirt, oil, grease and moisture.
- 2:1 improvement over points in current fall time for increased coil output.
- Rotating cobalt magnets trigger a Hall Effect integrated circuit
- No points to burn & no moving parts to wear out.
- Stable timing no need for any adjustments.
- Warranty: 30 months for electronics & limited one-year mechanical.

Negative earth.143-135**£233.40**

Positive earth.143-145**£229.40**

BATTERY CUT-OFF SWITCHES

These are reproductions of the Lucas 'Battery Master Switch' which was a popular accessory on many British classics.

- Period battery cut-off switch (short knob)1B2804.**£36.00**
- Period battery cut-off switch (long knob)1B2804L**£36.00**

BATTERY SHUT-OFF SWITCH

Waterproof with removable key. Place in earth line to shut off all battery power.

- Battery shut-off switchTT7962**£31.40**

COMPACT BATTERY SWITCH

Installs on negative battery terminal to make for a quick disconnect for theft deterrent or storage. For top post batteries. This switch is simplicity in action. Merely attach, following the manufacturer's instructions, and when anticipated prolonged periods of "down time" occur, simply turn the knob to disconnect the battery from the loop. Once installed no tools are required to arm or disarm.

- Battery mounted cut-off switch.GAC3192X.**£8.20**
- Battery mounted cut-off switch with bypass fuse. GAC31921**£13.80**

DYNALITE ALTERNATORS

We are excited to announce that we are a distributor for Powerlite's 'Dynalite' range of alternators made to look just like an original dynamo, err, generator. You get the best of both worlds: original appearance coupled with 80 percent more power, up to a 50 percent weight reduction and a unit that actually charges at all rev ranges! You must re-use your original pulley. Available in positive ground versions for otherwise original cars and negative ground for cars that have been converted!

- Early 3.8lt w/C45-type generator, + earth (1)PT10802JP . . .**£610.00**
- Early 3.8lt w/C45-type generator, - earth (1)PT10802J. . . .**£520.00**
- Later 3.8lt w/C42-type generator, + earth (2)28-9024**£546.00**
- Later 3.8lt w/C42-type generator, - earth (2)28-9026**£472.30**

MASTER BATTERY INSTALLATION KIT

This kit includes the contents of kit 28-7050 but adds one of our battery support brackets plus the nuts, bolts and washers to attach the bracket.

- Master install kit, series I & II28-7051**£101.00**

BATTERY INSTALLATION KIT

Kit includes C15474 hold-down clamp, C10640/2 drain tube, C16473 battery tray, C16475 Battery "J" hooks (2) and C19506 rubber insulators (2).

- Battery install kit, series I & II28-7050**£42.00**

MODERN ONE-WIRE ALTERNATOR KIT

Our one-wire alternator kits bring vastly improved performance and reliability to your E-Type's electrical system. The 84-amp GM alternator uses all new components and can easily handle the increased electrical demands of modern audio systems, cooling fans, etc. Both kits are completely "bolt-on" and will allow you to easily convert back to the stock dynamo or alternator should you wish. Our new alternator conversion kit looks very close to original. What's more, it's about the same price as a rebuilt Lucas alternator. Installation couldn't be simpler: it bolts to the stock bracket and uses the stock belt. Our kit includes alternator, custom pulley, custom adjusting bracket, a new belt and all mounting hardware. We include a section of heat-shrink tubing to protect the original alternator plug.

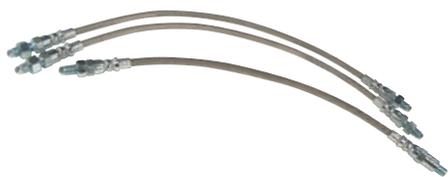

- One-wire alternator kit, series I 4.2lt.28-9010**£59.04**

HIGH-TORQUE STARTERS

These high-performance starters spin the engine much faster than the stock starter, firing it off sooner. These small lightweight gear-reduction units are a much simpler bolt-in job than the heavy standard type starter. These starters are up to 7kg lighter than originals.

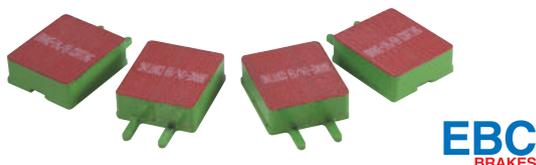

- Manual transmission, 3.8ltC12679X**£244.55**
- All transmissions, 4.2ltGEU4424X**£244.55**
- All transmissions, V12 (1971-74) (exc. 26327)37-4002**£180.00**
- All transmissions, V12 (1971) (w/26327 starter) . . .GEU4456X**£244.55**

STAINLESS STEEL BRAIDED BRAKE LINES

These superior braided brake lines improve brake feel by eliminating the sponginess caused from rubber brake lines. Under extreme conditions, rubber brake lines will “give,” causing a mushy brake pedal. These stainless reinforced lines will not “give”, transferring the full hydraulic force to the calipers. Complete car sets.

- Series I, short wheelbaseSJA0301CLG . .£70.70
- Series II, short wheelbaseSJA0304CLG . .£70.70
- Series II, long wheelbaseSJA0302CLG . .£70.70
- Series III, allSJA0303CLG . .£70.70

EBC GREENSTUFF BRAKE PAD SET

EBC GreenStuff brake pads offer exceptional performance without the drawbacks of a full-race brake pad. Braking force comes on strong from first pedal application, delivering powerful braking right up to a blistering 500-C disc temperature. GreenStuff pads contain no carbon black, which deposits on wheels, or metallic fibres, which can cause fast rotor wear and noise.

- Front & rear, series I37-9752£69.36
- Front, series II & III37-9754£84.00
- Rear, series II & III37-9756£92.00

COPPER NICKEL BRAKE PIPE KITS

These copper nickel brake pipe sets by Automec have been correctly cut to the original lengths and as such are direct replacements of the OE pipes. Easily pliable with solid brass fittings already fitted these kits take the stress out of changing rusty/leaking old lines.

WILWOOD FRONT BRAKE CALIPER UPGRADE KITS

While Jaguar was certainly at the leading edge of technology by fitting disc brakes in the fifties, many improvements have been made since. Our Wilwood brake conversion kits employ lightweight alloy calipers for a reduction in un-sprung weight and large gains in pad area. Supplied with all necessary adapters, hardware and streetable brake pads. A great complement would be a set of braided stainless brake lines. Kit includes four-piston calipers and mounting hardware with new pads. Does not include rotors.

- Series I37-1210£535.00
- Series I w/EBC turbo groove rotors.37-1234£855.90
- Series III37-1212£620.60

REMOTE BLEEDER HOSES

For the rear brakes on IRS Cars. Bleeding the rear brakes on an IRS-equipped Jaguar has never been fun. These lines simply thread into the bleeder ports on the rear brakes and an anchor bracket attaches to the IRS cage - problem solved! Now equipped with Speed Bleeder nipples.

- Remote bleeder hoses26-0003£89.50

WILWOOD FRONT CALIPER & VENTED DISC CONVERSION KIT

Bring your series I E-Type's front brakes into the modern era with our Wilwood caliper conversion kit. Not only will you make huge gains in pad swept area, but the upgraded discs ensure the pads stay cool for greatly reduced fade. This kit is entirely “bolt-on” and includes new four-piston calipers, vented discs, CNC-machined alloy disc adapter “hats,” caliper mounts, high performance street pad set and all hardware. It does not include new splined hubs or flexible brake lines.

- Vented disc conversion kit, series I37-1210£535.00

YELLOW STRIPE LOW PRESSURE HOSE

As used between the brake reservoirs and master cylinder, among other locations.

- Yellow stripe low pressure hose, 11" sectionC18717£14.40

REAR VENTED DISC BRAKE CONVERSION KITS

For track, or high-performance street use, the inboard rear brakes can easily overheat. Many solutions have been tried over the years but upgrading to vented rear disc is one of the best. After poor availability from our previous vendor, we have now developed our own kit which includes discs, disc mount rings, caliper centre spacers, caliper mount spacers, parking brake forks and lock tabs, stainless steel caliper cross-over pipes plus all hardware. **Please note:** Material may have to be removed from the caliper mounting "ears", and the opening at the top of the IRS cage may have to be enlarged, to fit later calipers to an early differential. series I E-Types require use of later girling calipers.

- Without calipers37-1214£642.00
- With rebuilt girling calipers37-1620£1,496.90

EBC
BRAKES

EBC TURBO GROOVE SPORT DISC SETS

EBC Turbo Groove Discs are precision CNC-machined using quality grey iron castings. Sold in pairs, Turbo Groove Discs feature a combination groove and blind hole design. The blind holes resist cracking and help surface degassing under heavy brake load. The grooves promote flat pad and disc wear and help clean debris and dust from the braking surface. Discs are zinc plated and gold passivated to prevent corrosion in areas not swept by the pad.

- Front, series I37-9753£292.10
- Front, series III37-9755£300.40
- Rear, series I series I, 4.2ltI & III37-9757£298.20

WILWOOD CALIPER SERVICE ITEMS

Wilwood calipers are robust and long lasting, but we offer a selection of service items just in case.

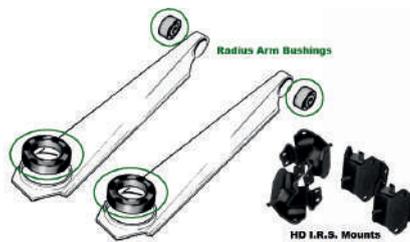

- Caliper piston o-ring kit, one kit per caliper130-2658£11.40
- Bleed screw kit (4 per kit)220-0627£16.00
- Brake pad set.150-8850K£69.50

BRAKE/FUEL/VACUUM LINE CLIP KIT

It's the little things like clips and specialty hardware that can stop a restoration in its tracks. This convenient kit provides all the clips and fasteners required to secure the V12 E-Type brake, fuel and vacuum lines.

- Series III V1236-2535£123.00

HEAVY DUTY I.R.S. MOUNTS AND TRAILING ARM BUSHINGS

For high performance work, the standard E-Type Independent Rear Suspension (I.R.S.) and trailing arm mounts are a bit too soft. (And, conversely, some of the available polyurethane mounts are far too hard). These mounts are made in England by specialists with decades of experience with modified E-Types. They provide far more positive location of the I.R.S. unit for improved handling but without undue harshness. Each kit includes 4 pieces.

- Radius arm bushings kit34-1050£202.50
- I.R.S. mount kit34-1060£202.50

SUSPENSION KITS

If you're in the market for an upgrade in shocks and larger sway bars, we offer these suspension parts at a savings when purchased in the combinations listed below. For series I and II.

Sway bar & shock kits

- SPAX shocks37-1050£1,524.70
- GAZ shocks.37-1052£1,139.50

Sway bar, shock, & bushing kits

- GAZ shocks, urethane bushings37-1233£1,278.60

BRAKE MASTER CYLINDER

Complete with reaction valve.

Brake master cylinder, 4.2lt & -12 C26767Z £224.40

ELECTRIC POWER STEERING CONVERSIONS

If you find your E-Type's steering is too heavy at slow speeds, we have a solution: an EZ Power Steering conversion that's completely hidden under the dashboard. The standard steering rack remains unchanged, as does the steering ratio and under-bonnet appearance. Steering assist is fully adjustable and is sensitive to speed and load. CNC-cut brackets are used to attach the system and no cutting, drilling or welding is required. What's more, the car can easily be converted back to standard steering.

Electric steering offers several advantages over hydraulic. The electric motor only uses power when steering assist is required; conversely, a hydraulic pump runs continuously and usually robs your engine of about four horsepower even when driving straight ahead.

Because the electric power steering system is speed-sensitive, it provides assistance at low speeds but retains your E-Type's excellent steering feel at higher speeds. And, the amount of assistance can be adjusted to suit the driver's preference or to compensate for wider tyres or a smaller steering wheel. With classic hydraulic systems, the "feel" is not adjustable and often too light at high speeds. And should the electric system ever fail (highly unlikely, we should add) the car would steer exactly as it did prior to the conversion, unlike a hydraulic system where the steering could be dangerously heavy.

Electric power steering conversion, series I 34-5525 . . . £2,297.90
 Electric power steering conversion, series II 34-5527 . . . £2,297.90

ADJUSTABLE TORSION BAR REACTION PLATE

Setting the front ride height on a series I or II E-Type used to be a tedious and time-consuming process. We once carried an adjustable torsion bar reaction plate that eased the process, but it was fairly crude and offered limited adjustment, so we developed the ultimate adjustable torsion bar reaction plate. Hundreds are now in use. Unlike those with cam adjusters, our plate offers infinite adjustability through Porsche-style threaded adjuster rods. To set ride height, raise the car, turn the recessed Allen-key socket and precisely dial-in the exact desired height. It couldn't be easier or more precise. You can easily set corner weights for more precise handling for street or race. And from a pure labour-saving point of view, our plate potentially eliminates the hours of shop time required to set ride height with a standard plate.

Torsion bar reaction plate 37-1524 £247.40

TORSION BARS & SPRINGS

Torsion bars and springs are the foundation of the suspension. The increased rates of those we offer make for a sporting, taut ride. E-Types require four (4) rear springs. We strongly encourage you to replace springs and torsion bar together.

Rear springs

Series I & II, standard (each) C25939 £21.00
 Series I & II, 9", 275lb (set of 4) 37-1195 £241.80
 Series III, standard (each) C32062 £21.00

Torsion bar sets

 Series I & II, 0.860" O.D., performance street . . . C27904/860 . . £582.00
 Series III, 800" O.D., standard C34732/3 . . . £471.66
 Series III, .880" O.D., performance street C27904/900 . . £749.00
 Series III, .920" O.D., full race C34732/900 . . £807.60

POLYURETHANE FRONT SUSPENSION BUSHING KITS

Because polyurethane resists deflection (compression), the joint that is upgraded will not squish and squirm like the same joint re-bushed with O.E. type rubber material. For the performance minded, or for the "once and for all" suspension upgrade, Poly is the only option. These kits and individual bushings are offered with a limited lifetime warranty. Unequalled quality, resistance to dry-rot, ozone and the harsh under-car environment. As we go to press, we are slowly switching over to all-black material for these mounts. Front suspension kits include - upper and lower A-arm bushings, sway bar end link bushings and sway bar mount bushings.

Bushing kits

Lower A-arms, all 37-6005 £48.00
 Upper A-arms, series I & II 37-6006 £37.90
 Upper A-arms, series III 37-6010 £62.00
 Sway bar mount bushings, series I & II 37-6008 £21.40
 Sway bar mount bushings, series III 37-6011 £14.60
 Sway bar end link bushings, all 37-6007 £24.00

Front suspension kits

Series I & II 37-6004 £112.40
 Series III 37-6009 £131.20

GAZ GAS SHOCK ABSORBERS

GAZ shocks offer the ease of adjustment offered by a 36-point external rotary knob on the side of the shock. Adjustments can be made without removal. Each unit is dyno tested for durability and meets the worldwide standards of ISO9002 for manufacturing excellence.

Flexibility: Easy 36-point rotary adjustment providing simple fine tuning without the need to remove the shock or use any tools.

Revolutionary: Double lip seals plus a further stem seal on the piston rod produces a shock with unrivalled performance characteristics for both road and track.

Drivability: Due to the manufacturer's background and their complete understanding of damping technology, GAZ shocks strike the ideal balance between comfort and performance road holding.

Reliability: EVERY UNIT is fully tested and delivered with an individual shock dyno report.

Quality: Each unit is made to ISO 9002 specifications and supplied with a limited 3 year warranty.

Durability: Zinc plated body resists salt spray and road grime where details really matter.

GAZ ASSEMBLED REAR SHOCK & SPRING KITS

If your E-Type's shocks are tired, most likely your coil springs aren't far behind. We've taken the hassle out of replacing springs and shocks by doing the work for you. All you do is unbolt the old spring/shock unit and bolt in the new ones. No wrestling with dangerous coil springs or spring compressors. Set of four spring/shock assemblies.

Series I & II34-1023	...£527.50
Series III34-1027	...£531.00

SPAX GAS SHOCK ABSORBERS

We have extensive inventory for the entire Jaguar range. Each unit is made to the highest standards of construction and is stout enough for competition use or general street application. The external screw adjustment provides for extra damping on rebound to compensate for wear or for the demands of competition. We have used and recommend SPAX shocks for street or track use. The external adjuster can be accessed while the shocks are on the car. There is no need to remove the shocks to adjust the dampening when compensating for wear or setting up for the demands of competition. We stock a complete selection of replacement Spax bushings, collets and other hardware. Call our sales staff for assistance. SPAX shocks are sold individually, and should be replaced in pairs, or axle sets.

SPAX ASSEMBLED REAR SHOCK & SPRING KITS

We've taken the hassle out of replacing springs and shocks by doing the work for you. All you do is unbolt the old spring/shock unit and bolt in the new ones. No wrestling with dangerous coil springs or spring compressors. Set of four spring/shock assemblies.

Series I & II34-1022£745.50
Series III34-1026£820.00

ADJUSTABLE POWER STEERING KIT

Series III E-Types are known for over-boosted power steering. At high speeds, this lack of feel between the driver and the road can be downright scary. This new kit allows you to dial-in the right amount of assist and easily change it back again with the turn of a knob. Plumbs directly into your power steering system.

Adjustable power steering kit37-3576£322.00
-------------------------------	--------------	--------------

ANTI-ROLL BAR SETS

Anti-roll bars are used to fine tune the handling characteristics of modern sports cars. We are in a unique position from most suppliers, in that we campaign a 1964 E-Type in vintage racing throughout the west coast of the USA.

From this experience we can offer, with confidence, the combination that will yield a nice blend of ride quality and controlled roll stiffness. All kits include a 1" front anti-roll bar and a 3/4" rear anti-roll bar. series III kits includes hardware to mount the rear bar.

These parts are supplied with a black powder coat finish, will bolt on with standard hardware, and come with new polyurethane mount bushings.

Please note: For series III E-Types the kit above includes a 1" front anti-roll bar and a 3/4" rear bar plus all hardware required to mount the rear bar. These cars were never supplied with a factory rear anti-roll bar.

- Sway bar set, series I & II37-1089£513.60
- Sway bar set, series III.37-1205£813.10

STEERING RACK

The V12 E-Type steering has a couple of strikes against it. As supplied from the factory, these cars had notoriously light and numb steering in the tradition of American boulevard cruisers. While the series III E-Type had evolved away from the far more sporting earlier cars, the steering did nothing to help the car's cause. And time takes its toll on the various mechanical components. Many V12 steering racks are now beyond repair, and replacements are virtually impossible to find. This steering rack kit neatly solves both issues. It gives the car the well-connected feel it should have had from the outset, greatly increasing communication from the tyres to the steering wheel. And, because the kit uses a fully reconditioned rack from a decades newer Jaguar and new hoses, you will effectively "zero-time" your steering system. Bolt-in conversion with no body alterations required.

- Upgraded steering rack, V12, LHD.34-4007 . . .£1,845.00

LEATHER BONNET STRAPS

These feature thick grade leather and chrome hardware. As seen on many factory race cars and vintage rally team cars of an earlier period. Sold as a pair. Does not include mounting hardware.

- Leather bonnet strap (pair)222-602£37.50

CONVEX BULLET MIRROR

Mounted with stainless sheet metal screws through the steel base. 1-1/2" hole spacing. 2" pedestal mount hides the attaching screws and is provided with a rubber gasket. The lens measures 3-3/4".

- Bullet mirror, convex lens37-9440£42.80

RAYDYOT REPLICA

The high performance standard exterior mirror for the vintage racing scene. The body for these mirrors is made from lightweight spun aluminium. The single through-bolt base swivels and the fixed lens measures 3-3/4". The single bolt mount makes this mirror ideal where space is limited.

- Polished aluminium37-9299£96.30
- Satin aluminium222-355£27.60

CHROME BULLET MIRROR

Mounted with plated hex-head bolts from the underside with a medium base. Bolt mount is 2" on centre with a rubber gasket. The lens diameter measures 3-3/4".

- Bullet mirror, chrome37-0920£17.50

BOLT-ON STYLE MIRROR

The styling of these mirrors match the 1960s period to a "T". This pair of mirrors is sold as a matched set with a convex lens measuring 4-1/4" across. A single through-bolt and nut attach these chromed mirrors to the wing or door. Rubber base gasket is included.

- 4-1/4" Convex mirror (pair)36-9049£82.40

CLAMP-ON STYLE MIRRORS

You can see from the photography the grace and style of these unique mirrors. Their clamp-on base allows for installation without drilling any holes in the body work. The hardware supplied is meant to fit the rain gutter and/or quarter window. Stainless steel mirror backing and chromed-steel stalk and base.

- Clamp-on style mirror, irregular rectangle.37-0927£74.90
- Clamp-on style mirror, teardrop oval37-0928£37.60
- Clamp-on style mirror, 4" round.37-0929£36.10

ROADSTER LUGGAGE RACK

After many years with no availability, this popular item has returned. This popular accessory fits all E-Type Roadsters.

- Luggage rack, Roadster37-0935£821.70

AMCO" TYPE BUMPER BARS FOR E-TYPE

These bumper bars are a throw back to the past. Nearly every U.S. series I and II E-Type was optioned-out with these bars originally. Although not a factory part, they are certainly ones that made good sense, and still do. High polished chromed steel construction. Drilling is required.

Front "AMCO" bar

- Series I36-2501£324.00
- Series II.36-2502£420.00

- Series II.36-2505£336.00

ALLOY WING FLARES

This set requires the alloy wing be bonded or riveted to the steel body of the E-Type FHC. After the old wing is cut away, you will realize about an additional 2.5" per side, wing clearance. These flares give a silhouette similar to the famous "Lightweight" E-Types from the Sixties.

Handmade in England, these wings are made to form a seamless aluminium bulge to take full advantage of the wide wheels and tyres available today. Special order item. Allow at least 6-10 weeks for delivery.

- Competition wing (pair)37-1230£4,060.50

LIGHT AND BADGE BARS

These imported bars will show pride of ownership and are the perfect finishing touch for the popular vintage look. Mount badges and auxiliary lighting to a sturdy foundation. Several sizes and models available. Polished stainless steel finish.

- 22" bar, license plate mount37-2102£42.80
- 22" bar, curved with stands.37-2103£96.30
- 18" bar, license plate mount with stands.37-2105£39.60

JACKING WOOD

Jaguar recommended that series I and II E-types be jacked from the front using a piece of wood under the front cross member, or "picture frame." We've improved upon their suggested design by providing a wider "land" for the jack. Manufactured using tough hardwood. If your car has been repeatedly lifted without using such a block (and most have), the flanges at the bottom of the picture frame may be bent; they'll need to be straightened for this block to fit.

- Jacking wood, series I & II37-9735£12.00

E-TYPE ALLOY BODY PARTS

You have seen the gorgeous E-Type alloy bonnets we offer. The same manufacturer produces a number of other alloy components for E-Types. Available too are alloy door shells and boot lids. The quality of these lightweight panels is excellent and the cool factor is off the charts.

Alloy boot lid for all E-Type Roadsters

Alloy boot lid BD28911ALY . £2,022.20

Series I & II alloy door shell assemblies

 Coupé, right BD24848ALY . . £2,664.20
 Coupé, left BD24849ALY . £2,664.20

LIGHTWEIGHT ALUMINIUM E-TYPE BONNET

This is the real deal! A handmade aluminium bonnet for the series I E-Type made just like the factory "Lightweight" racing bonnets, with more cooling louvres, larger intake and extra brake cooling vents. Includes headlamp covers, uses stock hinges.

Special Order Item. Allow at least 8-12 weeks for delivery.

E-Type alloy bonnet 37-1206ALY £15,834.20

LEMANS FUEL FILLER CAP

This is a case where quality shows. What sets these apart are the details like a spring-loaded rubber gasket with a solid brass backing. The pins on which the cover hinges and the roller clasp operates are stainless steel. The spring for the clasp is, likewise, stainless. This with the alloy cast body nets a rust-free part. The bolt circle for the thread-on flange measures 4-9/16" across, flange included.

"LeMans", flip-top fuel filler cap, 4" 37-1406 £179.30
 Blank - not drilled - tank flange 37-1409 £117.70

SERIES I ALLOY BONNETS

What's better than a brand new steel bonnet? Well, a brand new alloy one of course! They are lighter and beautiful. Suitable for street use and includes all ducting and lamp mounts. Will require some minor finishing work. Requires shipment by truck. Crating charges extra.

Alloy bonnet BD36166ALY £12,785.90
 Bonnet with fog-lamp provision BD36166ALY/1 . . £13,898.60

CLASSIC HORNS

The distinctive sounding Lucas style windtone horns are superb replicas of the horns fitted to many classic cars including MG T-Types. The high quality Altette style horn is an exact reproduction of the TC original.

Chrome horn round, 105mm (each) MT9143 £18.55
 Altette horn (each) 165-900 £154.30

Our twin air horn set includes two tuned horns, a heavy duty die cast compressor, all necessary fittings and full instructions.

Twin air horns (pair) GAC9978X £44.10
 Windtone horn set 1B9007/8 £75.00

MONZA OIL FILLER CAP

This chrome plated brass flip-up cap is a nice vintage part. With the included double-threaded insert, this cap will attach to the original XK valve cover. For all six cylinder with threaded oil filler cap.

Filler cap only 51-1599 £87.40
 Filler cap & adapter kit 37-1599 £292.50

HARDTOPS

We are proud to offer the direct descendants of the aftermarket hard tops available in the '60s and '70s. These quality tops are made of high quality fibreglass composite and come with all gaskets and stainless steel hardware attached. Standard tops include a charcoal-colour felt headliner and come with a primered exterior ready to finish-sand and paint. Upgraded headliners are available, as is a vinyl exterior. Hardtops will be drop-shipped from the manufacturer. Upgraded headliners available in light grey, tan, red and black. Haartz vinyl exterior is available in white, black or saddle.

QUALITY LICENSE PLATE FRAMES

These stainless-steel frames are available in a variety of finishes and styles and feature crisp lines and a nice heft. All frames include matching hardware-hider caps. It's time to treat you Jaguar to the best.

- Black jack, black powder coat37-9084£42.80
- Union Jack, polished stainless37-9881£50.30

CAR COVERS

Supplied by one of the world's leading car cover manufacturers, these are all custom-fit to match the profiles of each Jaguar listed. There is a choice of fabric type. All these fabrics are breathable and provide protection from the sun's harmful UV rays and airborne pollutants.

Polycotton: A lightweight durable blend of cotton and polyester. Basic protection from sun damage. Breathes to allow moisture and heat to evaporate.

Technalon: Evolution 4 heavy-gauge four-layer polypropylene construction. Best value for all-weather protection, rated very good against rain, sun and dust.

Tan Flannel: The traditional woven fabric for indoor storage. Soft, napped, flannel underside. Breathes to allow moisture and heat to evaporate.

Polycotton grey colour

- Series I, II, Coupé and Roadster37-0716£175.00
- Series I, II, 2+237-0719/1 . . .£249.30

SLIMLINE LICENSE PLATE FRAMES

For the discerning owner who wishes not to advertise but, rather have a nice plate frame, we have found a fitting frame for you. No company or dealership names on these. Your choice may be difficult because each of these frames is so finely finished. Made from heavy gauge stainless steel, polished smooth and available in a choice of two finishes.

- Polished stainless.37-9074£37.40
- Black powder coat.37-9076£31.00

7" FLAT TRI-BAR HEADLAMP

Maintain the original look of the early cars with the use of a perfectly flat headlamp. Sold individually, each lamp includes the "4" style bulb.

Flat tri-bar (each)37-0470£235.40

HELLA HEADLAMPS

Replacement DOT certified 7" lights for all Jaguars using this size headlight. Sold individually. Includes H4 style light bulb.

Hella DOT headlights.902-969£96.30

LIGHT MOUNT BRACKET

This light mount bracket attaches to the above bars with a single clamp-bolt. Brilliant chrome over cast steel.

Light mount bracket408-579£15.90

SERIES I LEXAN ACRYLIC HEADLIGHT COVERS

Beautifully formed from shatter-proof and highly scratch-resistant Lexan acrylic, these covers are lighter than the factory pieces at a fraction of the price. We offer two versions: Part number 37-9730 directly replaces the factory glass covers and is used with the original chrome finishers. Part number 37-9731 is intended for racing applications without the chrome finishers. Both versions are sold per pair

For use with finisher (pair)37-9730£104.60
 For use without finisher (pair).37-9731£119.60

PL700 TRI-BAR HEADLAMPS

Lucas reproduction headlamps with SAE convex lens. Sold individually and includes a 37-0461 light bulb. Direct replacement for any 7" diameter round headlamps.

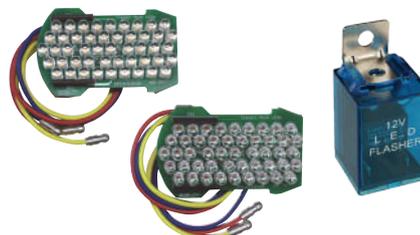

Tri-bar headlights, 7" (each)C16058£50.80

7" LUCAS HEADLAMPS

Here's a common customer refrain: "I don't want anything fancy or expensive -- I just want some 7" headlights that say Lucas' on them." Well, those requests can now be answered with these very nicely made genuine Lucas lamps. Sold per each without bulbs.

Headlamp162-726£70.96
 Bulb170-450£3.05

LED INDICATOR LAMP CONVERSIONS

Say what you will about automotive legislation, but cars are safer today than ever. While you can't add air bags to your vintage Jaguar, you can upgrade the safety of being seen with these nifty Light Emitting Diode (LED) lamp inserts. The difference in brightness is incredible and installation is simple. Because LEDs draw so little power, you will need to replace your flasher unit for your turn signals to work correctly.

Electronic flasher units

KNOCK-OFF HAMMERS

There are several means to remove the knock-offs. If you prefer the hammer method, we have a couple of choices for you. "THOR" is the traditional cast iron head with copper and rawhide striking faces. "THOR" weighs 1.36kg. Best kept nice for display or show. Original for series I E-Types.

A 1.81kg lead mallet is choice two. With a chromed steel shaft and moulded rubber grip, this mallet strikes its mark with authority. Best bet for daily use.

A third choice is the venerable ZINC hammer. The head is ZINC with a hickory handle. This mallet also weighs 4 pounds and is original for later series II and all series III E-Types.

- THOR copper hammer C27290£27.60
- Lead mallet 386-180£34.30

KNOCK-OFF WRENCH

Measuring 26" long, this tool is designed to give you the leverage to loosen all but the most stubborn knock-offs.

- Knock-off wrench, steel MM386-130 . . .£78.60

KNOCK-OFF LEVER POUCH

A vinyl pouch is available to slip the Knock-off lever in while not in use. Velcro closure and heavy duty.

- Knock-off lever pouch 37-0124£17.40

LAMINATED WOOD KNOCK-OFF WRENCH

At nearly 1" thick, this hard wood laminate "wrench" will not mar the finish of any knock-off nut.

- Wood knock-off wrench 386-175£30.00

JAGUAR 2-EARED KNOCK-OFFS

While there are several manufacturers of two-eared knock-offs, we believe these are the best in the world. Made in Britain, they are triple-chrome plated to show quality. Purchase individually or as a car set. These are beautifully made in England.

- Right hand C1102MWS£42.00
- Left hand C1103MWS£42.00
- Set of four C1102/3£168.00

JAGUAR FEDERAL CENTRE KNOCK-OFFS

- Right hand C28684MWS£40.80
- Left hand C28685MWS£40.80
- Federal tool C28687Z£29.50

JAGUAR 3-EARED KNOCK-OFFS

The three-eared knock-off is a classic look. Although, strictly speaking, not original, they make for a nice upgrade. Heavy steel forged construction and show-quality chrome plating. Direct replacement for all Jaguar knock-offs. Order individually.

- Right hand 37-1088£172.00
- Left hand 37-1087£172.00

MWS BRANDED WIRE WHEELS

An essential part of British classic sports car's styling was the fitment of wire wheels. Whether fitted as standard or upgraded to, a new set of chrome, stainless steel or silver painted wire wheels from MWS will not only enhance the appearance of your E-Type, but also the value.

The wire wheel spokes and nipples are manufactured from stainless steel and for chrome wheels are finished off by chroming in keeping with the rest of the wheels appearance.

Depending on how you are intending to use your E-Type, these wheels are available in standard or uprated specification. Full wheel specifications available on our website. All our MWS wire wheels are tubeless.

GEAR KNOBS

Every time you get in the car, you reach out and grab the gear knob. It's one of the most touched parts on any car, especially those with manual transmissions. The gear knob should be a comfortable partner in your drive. The downside to all the use is, it's bound to show signs of wear or soiling. Whether you're looking for the "correct" factory application, a comfortable alternative, one that displays the shift pattern and even some to upgrade the automatic late models, we have the knob to suit your needs.

Automatic Transmission

CLASSIC TRACKER & IMMOBILISER

Classic Tracker provides a secure and reliable tracking service dedicated for classic cars and motorcycles! A three-wire, self-install tracker which uses GPS & GSM to establish and maintain the secure-status of your classic. In the event of any unauthorised movement or tampering, you receive an alert via app/SMS/email and have access to real-time information on an app or the web. An immobiliser is provided so you can remotely immobilise your car during a theft situation just by accessing the app on your phone or on the web. The Immobiliser Pack involves connecting a relay across either your vehicles' ignition or electric fuel pump which is controlled via a fourth wire from the tracker. Classic Tracker 'Safer' pack contains: tracker unit, immobiliser pack and one year subscription. After the subscription ends you have the option to renew it or cancel it, if you decide to renew it the annual subscription fee is £99.00 per year. DIY installation is straight forward and can be installed in less than 2 hours, however if you're not sure we recommend installation by a professional.

Classic tracker TRACKER1 **£305.00**

LED DASH BULB KITS

Many owners of classic Jaguars find the dashboard lights dim and the instruments difficult to read at night. We've matched up the various Lucas bulbs with super bright LED counterparts to solve the issue completely. These kits include bulbs for the instruments, panel lights, warning lights and interior lights. Because LEDs are polarity sensitive, please take note if your 3.8 has been converted to negative earth.

PRO START PUSH BUTTON

Add that race car feel to starting your classic with the pro start push button starter switch. Easy to fit with no cutting of wires required. The LED type illuminates green with the ignition on and goes out when the engine is running.

Pro start push button GAC0060 **£39.00**

INTERIOR MOUNT SPOT

A traditional design spot light ideal for reading maps and rally instructions after dark. Narrow focus light will not disturb the driver. Simple one-wire hook-up, four screw chrome flange, double-articulated-swivel movement allows you to place the light where you need it.

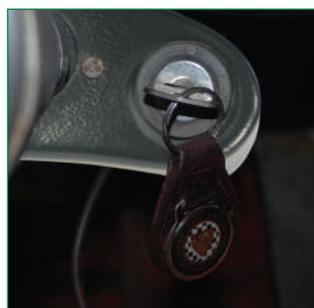

Interior mount spot. 37-010.034. **CALL**

REAR WINDOW HEATER SWITCH ESCUTCHEON

As fitted to 4.2lt E-Type series I and 1.5, Mk X 4.2lt, Mk II and 3.4S/3.8S. Replace broken or faded originals.

Series I & 1.5 C25883 **£9.60**

SERIES I.5 AND II IGNITION SWITCH COVER

Used on all series I.5 and series II cars with the ignition switch mounted on the steering column. The original part was never listed in Jaguar parts manuals and was quite flimsy, which is why most cars are missing this item. Our new version is excellent quality and made from heavier material than the original.

Ignition switch cover. 36-2575 **£38.50**

RETROSOUND RADIOS

The RetroSound range of radio & MP3 players maintain the original 'twin knob' (DIN-D) style mounting required for many classic cars. Music can be played from external sources such as iPods, USB flash drives & SD cards, all connected out of sight.

San Diego

DAB/DAB+ Tuner (DAB antenna or DAB Antenna Adaptor required), AM/FM Tuner, iPod/iPhone & Android compatible, Bluetooth, x2 rear USB ports & x2 rear Auxiliary inputs. 32,000 colour LCD with built in amp (45 watts peak/25 watts RMS x 4 channels).

FACEPLATES AND KNOB KITS

Series I E-Types were fitted with a variety of radios, but a common fitment was a Blaupunkt unit with a trapezoidal, ribbed faceplate. The folks at RetroSound™ now have an excellent match for this faceplate that, of course, fits the RetroSound™ radios Faceplates 17-0992 and 17-0993 are supplied with chrome front-knobs and black back-knobs; 17-0995 is supplied with all-black knobs.

Black & chrome faceplate & knob kit230-334**£35.10**
 Blaupunkt-type faceplate & knob kit230-346**£35.10**
 All black faceplate & knob kit (below right)230-327**£35.10**
 All chrome faceplate & knob kit (not shown)230-326**£35.10**

KENWOOD SPEAKERS

We searched high and low for speakers that would fit the narrow confines of an E-Type console. Kenwood's latest version differs a bit, however, so we have slightly modified them to fit the existing mounting holes. They might still interfere with the radio mount brackets on some consoles. You can notch the speakers or the brackets or mount the speaker to the outside of the console frame. We have the required spacers too if yours are missing or damaged.

Kenwood speaker, 6-1/2", 4.2lt (pair)37-0994**£72.80**

SPEAKER SPACER RINGS

E-Type speaker grilles are very shallow, meaning most speaker cones will actually hit the grille unless the proper spacers are used. We've reproduced a slightly thicker version of the factory part that provides the proper clearance. Most originals are missing or one step away from dust. Sold per pair.

Grille spacer rings, 4.2lt (pair)BD26854**£12.00**

RETROMOD SPEAKERS BY RETRO SOUND

The RetroMod range of speakers from Retrosound has been designed to compliment their range of Classic radios and have been manufactured to meet the demands of modern high performance amplifiers.

Dual voice coils (DVC) speakers

This system allows for 2 stereo channels (left & right) to be connected to the same single speaker. This means that originality can be maintained on cars where a single speaker was fitted in the centre of the dash or rear shelf. These speakers are supplied individually without mesh grilles, to fit existing mountings.

- 6.5" dia 3 way, DVC, no grilles (each) 230-505 **£60.00**
- 5" x 7" 3 way, DVC, no grilles (each) 230-545 **£61.50**
- 6" x 9" 3 way, DVC, no grilles (each) 230-510 **CALL**

Single voice coils (SVC) speakers

The SVC range of speakers is a standard configuration single channel speaker for normal installations (left & right mounted speakers, such as doors or dash). These speakers are available in a range of sizes and specifications, see our website.

- 4.5" dia 2 way, 40W max, with grilles (pair) 230-535 **£70.00**
- 5" x 7" 3 way, 60W max, with grilles (pair). . . . 230-540 **£75.00**
- 6" x 9" 3 way, 100W max, with grilles (pair). . . . 230-530 **£73.40**
- 6" x 9" 3 way, 100W max, with grilles (pair). . . . 230-531 **£120.00**

RetroMod 8" Subwoofer

The compact design and powerful bass response make this ideal for under seat mounting and numerous other in-car applications. The rigid die cast aluminium chassis and powerful Class D amplifier allows this sub to reproduce low frequencies down to 35Hz.

- 8" subwoofer with internal amplifier. 230-550 **£189.00**

DYNAMAT HEAT & SOUND INSULATION

We now stock Dynamat, a revolutionary range of products designed to keep your classic cool and quiet.

- Non absorbent materials
- Self adhesive 'peel & stick'
- Easily cut & moulded to fit
- Isolates panel vibration
- Reduces road noise
- Reduces heat soak from engine & exhaust

Dynamat xtreme

A highly efficient, composite material designed to reduce noise, vibration & heat soak through panel work.

- Dynamat Xtreme, speaker pack. GAC90511 £16.20
(2 sheets of 254mm x 254mm (10" x 10").
- Dynamat Xtreme, wedge pack. GAC90512 £36.30
(1 sheet of 457mm x 812mm (18" x 32").
- Dynamat Xtreme, door pack. GAC90513 £88.30
(4 sheets of 305mm x 914mm (12" x 36").
- Dynamat Xtreme, bulk pack GAC90514 . . . £223.40
(9 sheets of 457mm x 812mm (18" x 32").

Dynaliner

Dynaliner is an ultra-light weight, durable single layer insulation material that can be used as an alternative to traditional underfelt. It provides acoustic isolation and excellent thermal insulation.

- Dynaliner, 1/8" thick GAC90531 £55.60
(1 sheet of 813mm x 1372mm (32" x 54").
- Dynaliner, 1/4" thick GAC90532 £80.60
(1 sheet of 813mm x 1372mm (32" x 54").
- Dynaliner, 1/2" thick GAC90534 . . . £106.30
(1 sheet of 813mm x 1372mm (32" x 54").

Hoodliner

Designed specifically for under bonnet insulation, Hoodliner absorbs engine noise to help keep your car quieter. The aluminised skin creates a water & oil barrier that reflects up to 97% of heat to protect the bonnet's paint.

- Hoodliner GAC90541 £87.30
(1 sheet of 813mm x 1372mm (32" x 54").

Carpet fixings and adhesives

Use these fixings to hold down sections of carpet that you may need to remove, such as footwell, under seat and boot floor.

- Carpet fixing set, 15 pieces 2H8445SP £7.30
- Trim adhesive, aerosol 500ml UBS203 £8.70
- Trim adhesive, 1L UBS110 £22.10

EARLY E-TYPE AIR CONDITIONING KITS

It's interesting how the desires of Jaguar enthusiasts have changed. For the last several years there's been a shift toward updating to modern standards with upgraded brakes, power windows, five-speed transmissions and air conditioning. There's been an emphasis, however, on not altering the car's appearance; all modifications must look as "factory" as possible. We're proud to offer air conditioning kits to fit that bill. They're of excellent quality, well engineered and complete. Kits include: Hi-tech parallel-flow condenser, new (not rebuilt) Sanden compressor, evaporator, compressor brackets, expansion valve, drier, hoses, all mounting hardware, instructions and pictures. These R134a systems have been tested in some of the hottest weather in the USA and deliver vent temperatures of 30-42 degrees.

- Series I 3.8lt, LHD 37-3706 £2,352.80
- Series I 4.2lt, LHD 37-3708 £2,689.20
- Series II 4.2lt, LHD 37-3710 £2,459.80
- Series I 3.8lt, RHD 37-3706RHD . £2,664.20
- Series I 4.2lt, RHD 37-3708RHD . £2,985.20
- Series II 4.2lt, RHD 37-3710RHD . £2,352.80

AIR CONDITIONING UPGRADE KITS

For its day, Jaguar's A/C system for the series II was excellent. Modern technology can make it even better, however. Our upgrade kits includes replacement evaporator core, Hi-Tech condenser, Sanden compressor, receiver/drier, hoses, fittings, instructions.

- Series II without power steering, LHD 37-3714 £1,924.80
- Series II with power steering, LHD. 37-3716 £1,924.80

DYNAMAT INSTALLATION ROLLER

This is a top quality tool that will last for years.

- Dynamat roller GAC90593 £29.10

SEAT SHELLS

Through the '50s and '60s, the Jaguar factory offered some special lightweight seats for competition cars. The shells for these have been recreated and are now available for you to finish. The design of these shells is meant to offer more support, and depending on how the cushions are constructed, may offer more headroom and lateral support. Sold bare, as shown.

E-Type aluminium seat shell (each)37-1507£789.60

SOFT RUBBER FLOOR MATS

Reproductions of a popular period accessory. These full length floor mats are made of supple rubber with the logo moulded directly into them.

Series I & II Roadster & Coupé646-780£38.70
 LWB646-790£38.70
 Series III V12646-790£38.70

SEAT BELT GUIDE

This clever guide keeps your shoulder strap properly positioned over your shoulder instead of chafing against your neck, or even falling off. It also keeps your strap ready to grab when entering the car. Furthermore, it eliminates twisted and tangled seat belts.

Made of tough but flexible black plastic with UV inhibitors for long life. Installs by removing your head rest and simply sliding on for a friction fit. No tools required. Guide can also be modified for snap-on installation if your head rest is frozen. Fits all single-post headrests. Sold by the pair.

Seat belt guide (pair) 222-198£43.80

INERTIA-REEL SAFETY BELT

This style of three-point safety belt uses an inertia type retractor and push-in clasp with push button release. Similar to the late-model Jaguar belts. Order two for two seats.

Inertia reel seat belt (each)37-0251£78.00

3-POINT SEAT BELTS

The style shown here is the same as our lap belts but includes a shoulder strap and its attachment to the clasp. Meant to attach to an eyelet in the floor. Order two for two seats.

3-point seat belt - black (each)222-206£51.00
 3-point seat belt - grey (each)222-212£51.00
 3-point seat belt - red (each)222-213£51.00
 3-point seat belt - tan (each)222-214£51.00

2-POINT SEAT BELTS

We offer a selection of seat belt configurations. The styles shown in this section use the lift-type buckle and clasp, as many airlines still use. Each part number ordered will deliver belts for one seat. While the belts we offer are not original in every detail, they closely resemble the correct period piece and carry current D.O.T. certification. Order two for two seats.

Jaguar Leaper
 2-point seat belt - red (each)222-243£56.60
 2-point seat belt - black (each)222-241£41.10

Jaguar E-Type A Guide To Authenticity (CD)

Back in 1991 Richard Russ published a wonderful book called Jaguar E-Type A Guide to Authenticity. The book is now available on compact disc and includes all the photographs and diagrams that made the printed version so valuable.

A guide to authenticity CD 31-9105 **£53.50**

The Jaguar Sports Car Collection - A Personal Endeavour

This is the story of one man's decades-long quest to build a definitive collection of Jaguar sports cars. Along the way we learn the story of each car and how it was acquired. This book is lavishly photographed, well written and beautifully produced.

Sports Car Collection 215-115 **£53.40**

E-Type Six-Cylinder Originality Guide

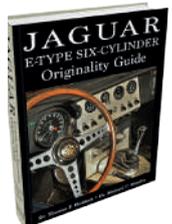

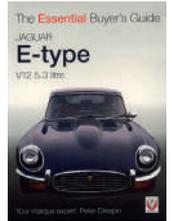

Drs. Haddock and Mueller include extensive new information from an exhaustive four-year examination of the Mueller collection of over fifty E-types. As such, the book is archaeological in nature, based more on observations of cars than on factory publications or other literature. Hard cover, 516 pages, 1,568 black and white, and colour photographs

Originality guide 31-9142 **£133.80**

Ultimate E-Type, The Competition Cars

The Lightweight Es are the ultimate E-Types, and this is the ultimate book on these charismatic cars. This is the full story of the competition E-Types that took on the might of Ferrari and often beat the legendary GTOs and the AC Cobras. With copious unseen period photographs and original Jaguar reports, the glory years of the '60s are told as never before. 528 pages with more than 700 photographs. Hardbound.

Ultimate E-Type 31-9129 **£203.20**

Rule Britannia by John Nikas

'Rule Britannia When British Sports Cars Saved a Nation' is a compelling story with authoritative text from John Nikas and his team of researchers and contributors alongside historic imagery and modern studio portraits by renowned automotive photographer Michael Furman. Along with insights from legendary names in automotive history, this volume has already received critical acclaim.

Rule Britannia. MGL0360 £111.20

Original Technical Publications

These publications have been carefully reproduced from the extensive historical archives in both England and the USA, meaning you can have access to the original Heritage publications needed to run and maintain your Heritage vehicle. Including parts catalogues, service manuals and owner's literature. This product either comes as an EBook, or as a portable USB device. As an EBook, access is limited to one device (PC/Tablet/Smart Phone etc). as the product is tied to the device, for ultimate portability there is no replacement for the OTP Portable USB, for ultimate portability there is no replacement for the OTP Portable USB, unlike the EBook, the Portable USB has its own product licence, meaning total offline capabilities and the ability to be used across multiple PC's (providing the USB is attached).

OTP, ebook, all models JTP1004E £57.60

SPEEDO CLASSIC SPEEDOMETER WRISTWATCH

New from Germany is this gorgeous watch inspired by the E-Type speedometer. The hour and second hands neatly mimic the Smiths needles and other details abound. Stainless steel case with chrome bezel; 41mm diameter (excluding crown) and 11.5mm height. Miyota quartz movement; black leather strap with white stitching. Made in Germany. Most watches go to 12; this one goes to 160!

Speedo style watch 37-9503 £54.50

Jack pouch.....BD23688£48.10

WINDSHIELD SEAL LOCKING STRIP INSTALLATION TOOL KIT

This tool makes installing windshield seal locking strips much easier and comes as shown with a number of different interchangeable tips for different shapes of locking strip. For fitting windscreens with plastic/rubber inserts on older vehicles. Contents includes tool handle, 2 eyes 10.5mm and 17mm plus 2 lipping tools with hex key for fitting. Tech tip - don't rush this job! Use a little dish washing liquid to lubricate the tool and seals.

Tool kitMTR481101 ..£12.25

CHAMOIS LEATHERS

For a smear free clean and shine. No lint - no water spots! Our giant chamois soaks up water without harming delicate paint finishes.

Chamois leather, single, 2ft x 2ft. GAC4144X £8.20
 Chamois leather, single, 4ft x 4ft. GAC4148X £14.50

WHEEL CLEANING BRUSH

Bristles all the way around and a long thin shape makes it easy to clean spokes.

Wheel brush.....GAC4089..... £11.10

CALIFORNIA JELLY BLADE

We must concede to a bit of scepticism - would this item scratch paint? It turns out the blade is made from medical grade silicone that's softer than just about any other drying product. This new version is highly flexible and removes 90 percent of standing water in about a third of the time required with a sponge or squeegee.

California jelly blade231-674£20.30

LARGE DUSTER

This is the classic duster that has been a favourite of car enthusiasts for more than a decade. Even when virtually black with dirt, it's still as effective as new. A must for every "concoct kit." Reduces the number of required washings.

Large duster231-670£20.10

MINI DUSTER

The same technology as the original duster but in a smaller size. Great for interior or hard-to-reach areas. Ideal to keep in the car for a quick "touch up."

Mini duster231-671 CALL

MICROFIBRE SUPER SPONGE

This is a great new two-in-one product that combines the softness of a microfiber "wrapper" on a super-absorbent sponge. Great for washing or drying. Machine washable, use a dedicated sponge, not one out of the kitchen!

Microfibre super sponge37-1060£8.50

MICRO MITT

In case you haven't noticed, synthetic microfibre has revolutionized automotive cleaning products. It's softer than natural fibres and completely washable. This item can be used as a wash mitt when wet and a duster when dry and clean. Soft enough for the most delicate paint but tough enough to remove stubborn dirt.

Micro mitt37-1057£9.60

SOFT TOP CARE PRODUCTS FROM RENOVO

While we'd love to sell you a new soft top, these products will breathe new life into a dirty or faded but otherwise serviceable canvas top. Use Soft Top Cleaner to remove grime and ingrained dirt; Soft Top Reviver to re-colour faded tops to like-new condition and Ultra-Proofer to waterproof your top and protect it from harmful UV rays plus make it mould and mildew resistant. Finally, Plastic Window Polish will remove scratches and cloudiness and restore visibility.

- Canvas cleaner.GAC9020£12.10
- Soft top reviver -blackGAC9022£19.50
- Soft top reviver - dark blueGAC9022BLU .£19.50
- Ultra proofer.GAC9024£12.10
- Window polishGAC9027£14.40

CONNOLLY HIDE CARE

This cosmetic-quality lanolin based cream will preserve the Hide's matte finish and not turn it glossy. Specified by Jaguar cars, and favoured by many as the proper dressing for the fine leather Jaguar interiors.

Connolly hide careGAC2057X. . .£20.40

HORSEHAIR DETAIL BRUSH

If you've ever fought to get dried wax out of the crevasses and gaps in body work, you'll know the value of this tool in your detail kit. Measuring 7" long with finger grips, the sturdy but soft horsehair will make short work of any dried on wax or cleaner. Safe to use on most surfaces.

37-10008 CALL

SOFT TOP CLEANING BRUSH

Made from naturally soft, non-abrasive and durable natural horse hair. Designed exclusively to gently remove exterior debris from fabric and vinyl soft tops.

221-530£14.40

CAR CARE BY JAY LENO'S GARAGE

Jay Leno's Garage started with a modest mission, develop detailing chemicals, tools and accessories that work and are easy to use. Their focus has been to produce detail supplies for the discerning automotive enthusiast rather than the discount-driven, big-box retailers. The JLG development process stems from real-world experience and necessity. So whether you're a professional detailer prepping for the next car show, or a weekend warrior detailing your daily driver out on the driveway, JLG products perform when it matters most.

Internal Engine Six-Cylinder , Oil Pump

81	153-300	NCA	DRIVE DOG, distributor	1	
82	C8646	£96.00	DRIVE SHAFT, oil pump	1	
83	C21765	£72.00	OIL PUMP ASSEMBLY, 4.2lt type	1	
84	21-0215	£8.70	ADAPTOR TUBE	1	3.8lt
85	C8648JAG	£19.80	DRIVE DOG	1	
86	NT609041	£1.55	NUT	1	
87	C2151	£3.18	LOCK TAB	1	
88	C2152	£48.00	DRIVE GEAR	1	
89	C2393	£6.90	DISTANCE WASHER	1	
90	C8647JAG	£96.00	BUSHING	1	
91	C753	£5.04	WOODRUFF KEY	1	
92	37-3505	£237.30	OIL PUMP, upgraded	1	

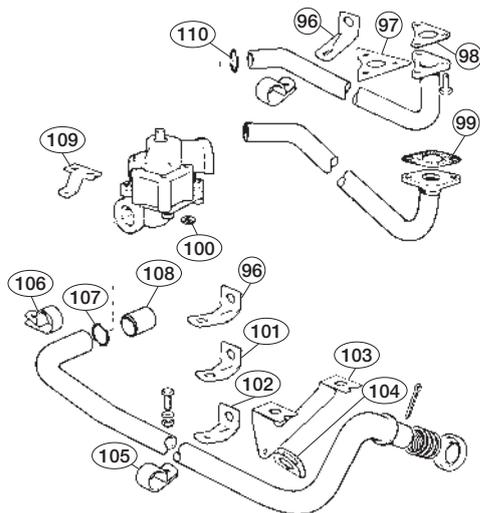

Note: This oil pump has been modified to provide 30 percent greater flow than a standard 4.2lt pump. With 3.8lt engines, also order the required high volume oil pipe 37-3554.

93	37-4500	£1,920.00	OIL PUMP, high performance billet	1	
----	---------	-----------	-----------------------------------	---	--

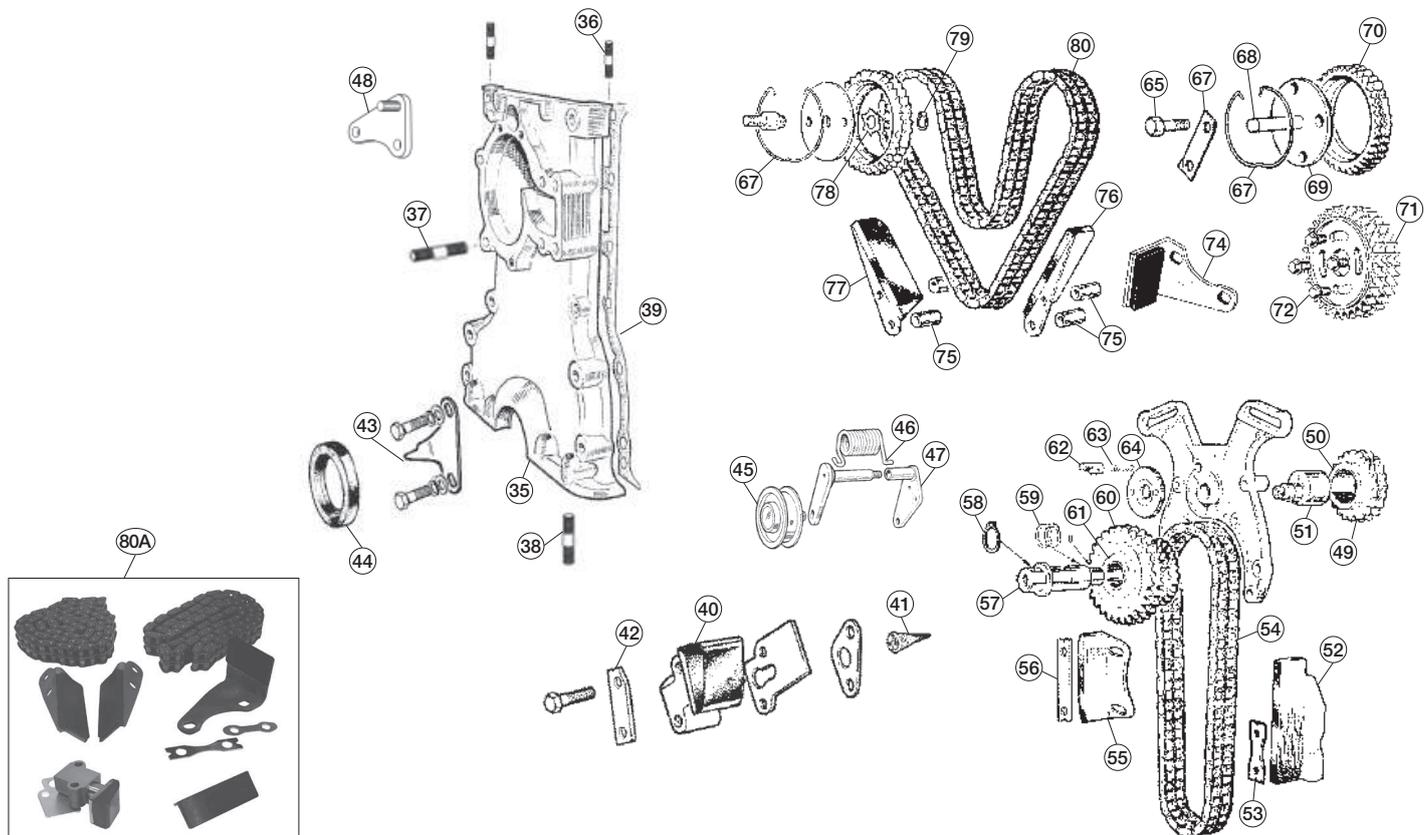

Note: Flows 30% more than our previous high-volume pump. Use with 37-3554 pipe for 3.8lt engines.

94	37-3554	£155.46	HIGH VOLUME OIL PIPE	1	3.8lt
95	37-3560	£58.08	BAFFLE, for oil intake pipe	1	

Note: This baffle prevents oil from sloshing away from the pick-up tube during braking and cornering. Can be used in conjunction with high volume oil pipe.

21	C32775	£2.00 STUD, exhaust manifold (3 w/o alternator shield; 5 with alternator shield).	3/5	
21	C32775	£2.00 STUD, exhaust manifold, breather pipe	5	& dipstick, 1-1/2"
21	C11761	£3.84 STUD, head to intake manifold, 1-3/8"	18	
22	FG.105/1	£0.10 LOCK WASHER, manifold studs	16	
23	UFN.131/Q	£0.50 NUT, exhaust manifold studs	16	
23	JLM9684	£0.20 NUT, intake manifold studs	18	
24	C317	NCA FREEZE PLUG, cylinder head	2	3.8lt & 4.2lt to series II (e) 7R.1914 (FHC and OTS) and 7R.35588 (2+2)
25	C19113	£36.00 HEAD GASKET	1	3.8lt
25	BJ020	£22.20 HEAD GASKET	1	series II 4.2lt OTS & FHC from (e) 7R1915; series II 2+2 from (e) R35389
26	C4146	£1.10 WASHER, cam oil line, copper	6	
26	37-2000	£0.60 WASHER, cam oil line, upgraded	6	
27	C25619	£62.60 CAM OIL PIPE	1	
28	C5846	NCA BANJO BOLT, cam oil line	3	
28	C5846/1	£7.20 BANJO BOLT, cam oil line, long (For stripped threads).	3	
29	C14991	£7.20 SEAL, intake camshaft	1	
30	C19044	£0.15 O-RING, exhaust camshaft	1	
31	C14990	£0.60 O-RING, intake camshaft	1	
32	C2324	£12.00 OIL THROWER, exhaust camshaft	1	
33	C44010	£4.56 TAPPET, cam follower	12	original long style
33	C44010/OVS	£5.50 TAPPET, cam follower, .020" oversize	1	
34	EBC2997	£12.00 VALVE KEEPERS	24	
35	21-3130	£26.40 VALVE SPRING SET, upgraded	1	
35	37-1113	£44.60 VALVE SPRING SET, racing	1	
36	C27481	£4.80 SPRING SEAT	12	

Note: Keepers, retainers and spring seats are later "short style" that accommodate valve stem seals. When retrofitting stem seals to a pre-1969 car, all three components must be replaced. New valve guides, which are grooved to accept a seal, must also be used.

Part Number	Price £ea.	Description	Req.	Details
Cylinder Head Six-Cylinder (Continued)				
37 C15509	£6.36	INTAKE VALVE GUIDE	a/r	standard
37 C15509/002	£8.40	INTAKE VALVE GUIDE	a/r	.002" oversize
37 C15509/005	£4.20	INTAKE VALVE GUIDE	a/r	.005" oversize
37 C15509/008	£4.80	INTAKE VALVE GUIDE	a/r	.008" oversize

Differential Crown Wheel Sets

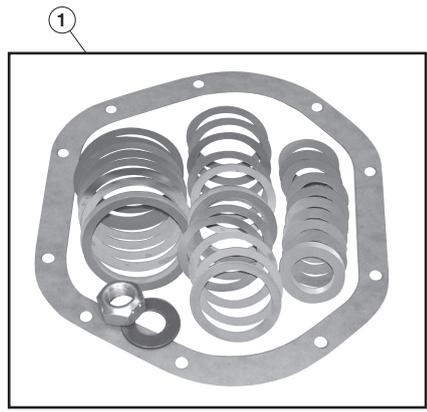

Crown Wheel Kits are supplied with the early type outer wheel bearing. "Third Type" differentials fitted to later series II E-Type and all series III will require outer wheel bearing part number 33-0104 to be purchased separately. The early type bearing has a race outer diameter of 2.875". The later bearing's race is 2.6875" in diameter. Third-type differentials were fitted to series II cars at 1R.1244/1R.9940 (RHD/LHD OTS); 1R.20335/1R.26576 (RHD/LHD 2+2) and to all series III V12. They are most easily identified by stub axle seal containers that are bolted on to the differential housing.

Front End Restoration Kits

If you're about to rebuild your E-Type's front suspension, consider buying everything you'll need in one convenient package. Our front end restoration kits include a 34-2074 front suspension rebuild kit (the latest sealed upper and lower ball joints, upper and lower A-Arm bushings, anti-roll bar mount bushings and anti-roll bar link bushings) plus steering rack mounts, bellows and tie rod ends; two hub bearing kits and two of our British Racing Green Spax shock absorbers.

7	34-1026	£820.00	SHOCK AND SPRING SET, BRG SPAX	1	series III

Note: If your E-Type's shocks are tired, most likely your coil springs aren't far behind. We've taken the hassle out of replacing shocks and springs by doing the difficult and dangerous work for you. All you do is unbolt the old spring/shock unit and bolt in the new ones. No hassle with dangerous coil springs or spring compressors. Set of four spring/shock assemblies.

Dynalite Alternators

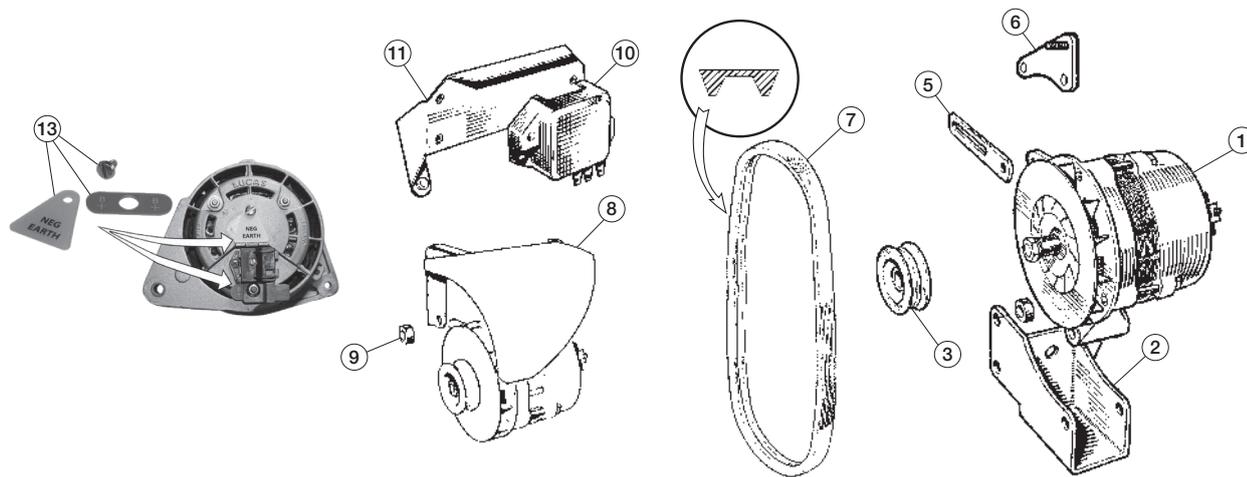

Powerlite's "Dynalite" range of alternators is made to look just like an original dynamo, err, dynamo. You get the best of both worlds: original appearance coupled with 80 percent more power, up to a 50 percent weight reduction and a unit that actually charges at all rev ranges. You must re-use your original pulley. Available in positive earth versions for otherwise original cars and negative earth for cars that have already been converted.

Part Number	Price £ea.	Description	Req.	Details
28-9020	£630.00	DYNALITE ALTERNATOR	1	early 3.8lt, positive earth, w/Lucas 22531 dynamo
28-9022	£482.40	DYNALITE ALTERNATOR	1	early 3.8lt, negative earth, w/ Lucas 22531 dynamo
28-9023	£720.00	DYNALITE ALTERNATOR	1	early 3.8lt, negative earth, w/ Lucas 22531 dynamo
28-9024	£546.00	DYNALITE ALTERNATOR	1	later 3.8lt, positive earth, w/Lucas 22902 dynamo
28-9026	£472.30	DYNALITE ALTERNATOR	1	later 3.8lt, negative earth, w/ Lucas 22902 dynamo

Starter Motor, V12

1	C34956/1	£174.00	STARTER, rebuilt	1	V12 to (e) 7S.7000
1	C36693/1	£174.00	STARTER, rebuilt	1	V12 from (e) 7S.7000

Note: Please check the Lucas number stamped on your existing starter before ordering.

2	37-4003	£180.00	GEAR REDUCTION STARTER	1	V12 to (e) 7S.7000
2	37-4002	£180.00	GEAR REDUCTION STARTER	1	V12 from (e) 7S.7001
3	TOB131	£120.00	STARTER SOLENOID	1	V12 to (e) 7S.7000
3	TPB106	£120.00	STARTER SOLENOID	1	V12 from (e) 7S.7001
4	TAB125	£4.20	BRUSH SET, starter	1	

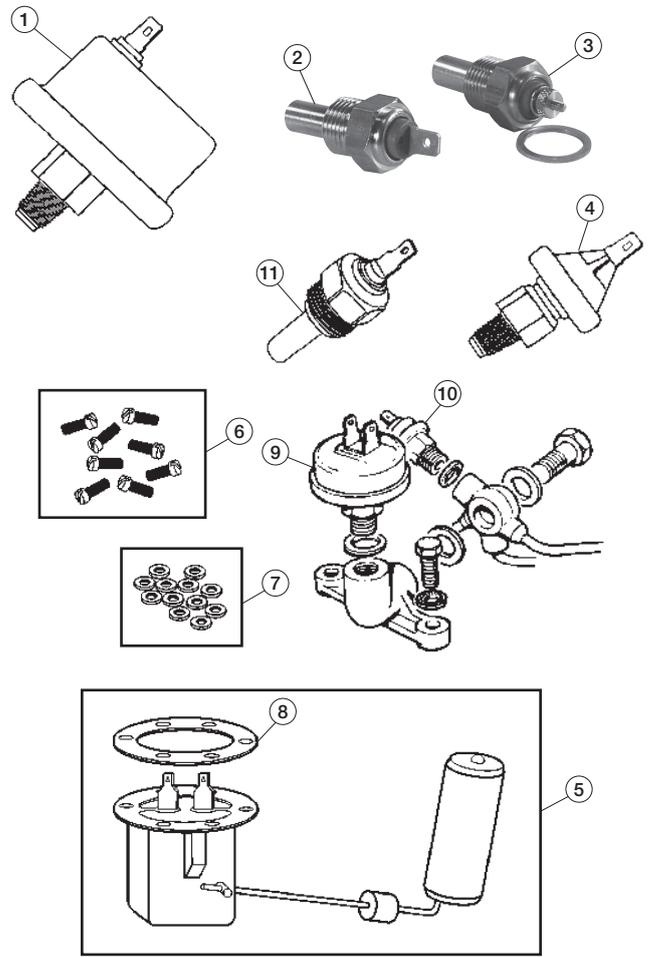

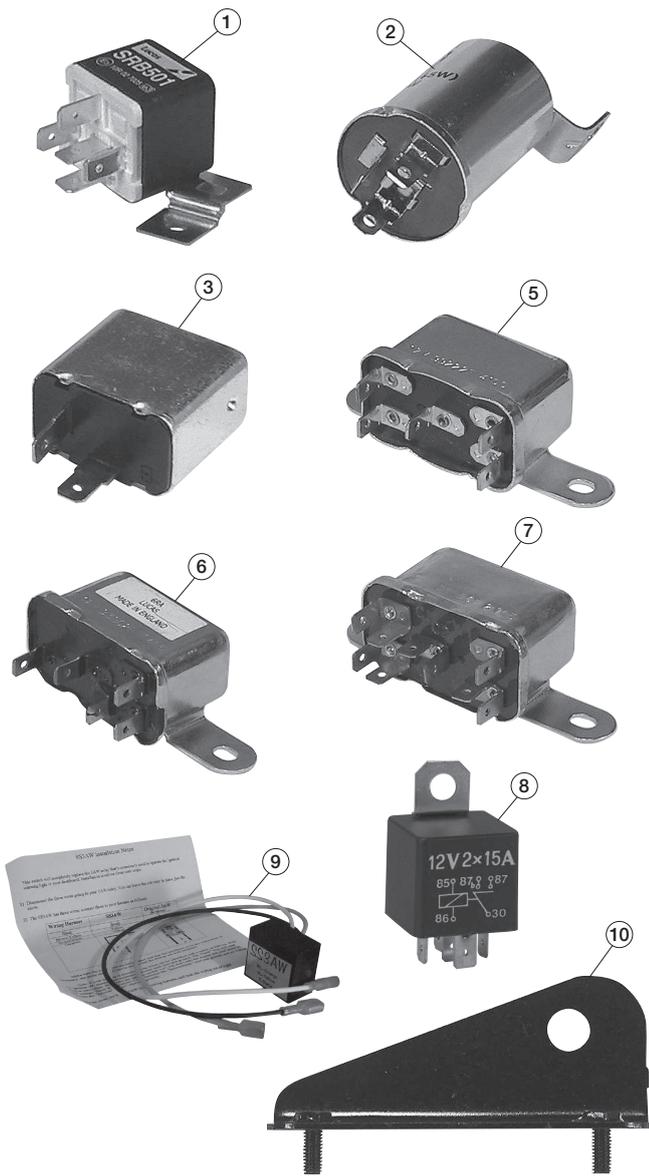

Starter Motor, 4.2lt

1	C22256/1	£174.00	STARTER, rebuilt	1	4.2lt 1965-1968
1	C28178/1	£174.00	STARTER, rebuilt	1	4.2lt 1969-1971

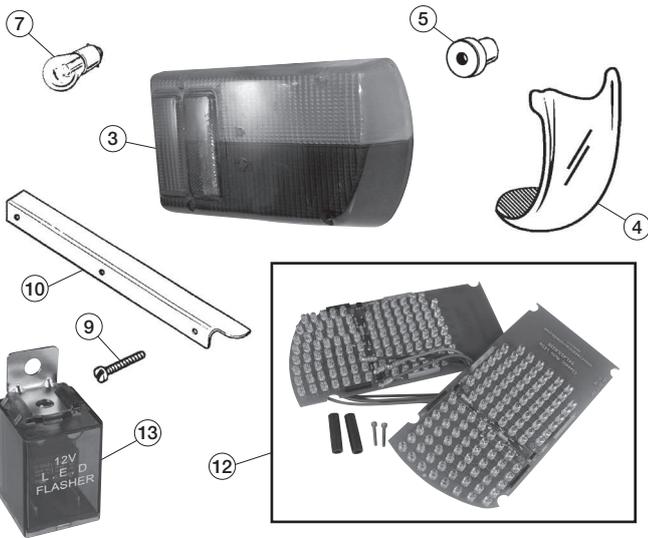

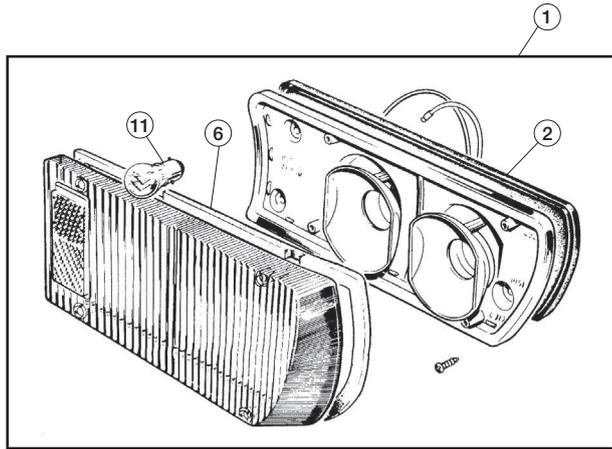

Note: Jaguar originally specified Lucas C28178/1 for the series II E-Type. Lucas later superseded this to 25684, a smaller and lighter unit that's easier to install; C22256/1 can be used in place of C28178/1.

2	C22488	£30.00	STARTER SPIGOT PLATE	1	
3	C22489	£6.36	ALIGNMENT DOWEL	2	
4	28-0177	£1.80	BRASS NUT, starter lead	1	
5	TOB159	£222.00	STARTER SOLENOID	1	for 25684 starter
5	TOB156	£90.00	STARTER SOLENOID	1	for 26252 starter
6	TAB124	£3.00	BRUSH SET, starter	1	for 25684 starter
6	149-600	£5.40	BRUSH SET, starter	1	for 26252 starter
7	37-4001	£180.00	GEAR REDUCTION STARTER	1

E-Type Interior Components and Kits

We work with several vendors to provide interior kits and components of the highest quality. All kits are made to factory-original patterns and with original-grade European leathers, Wilton wool carpet and British vinyls. It's hard to describe the look, feel (and smell!) of a newly-restored Jaguar interior.

We offer two grades of interior kits. Both are of superior quality and use the finest materials. Our Premium Kits, while a bit more expensive, tend to include more items and finished panels than our Standard Kits. Many customers feel the labor savings outweigh the higher price.

Our sales staff can provide a content list and color samples for both versions of any kit. We also offer many interior components separately. Our sales staff can fax a complete list.

All interior kits and components are special order and require a deposit. All kits are guaranteed in workmanship and fit. All sales are final; interior kits and components cannot be returned.

Typical Interior Kit Components

- Leather seat kit; plain or perforated leather, as original
- Leather headrest covers, where applicable.
- Centre console kit; leather cording, foam, vinyl sides, shift gaiter, cushion cover, leather for radio panel.
- Contoured foam front seat cushions (standard kits only; not included in premium kits)
- Carpet set with underfelts
- "A" post scuttle panels
- Inner sill vinyl and foam kit
- Underseat harduras (not series III)
- Trimmed Door Panels, less chrome.
- Rear bulkhead hardura, series II & II roadster
- Wheel arch covers (moquette or vinyl, as applicable)
- Lower rear bulkhead, moquette or vinyl, as applicable
- Cover panels, trimmed aluminum, series I & II OTS only
- Cover panels around interior light, series I & II OTS only
- Rear gaiter panel hardura, series I & II OTS only
- Rear door panel, trimmed, FHC & 2+2.
- Cubby box hardura mat, where applicable.
- Headlining kit, grey or fawn, FHC and 2+2.
- Bootmat Hardura (series I & II OTS, series II FHC)
- Boot sides, roadsters only
- Trimmed aluminum side cover panels, series I & II OTS
- Underdash harduras.
- Side casings, series III 2+2
- Hardura gaiter, complete, series III roadster

Hoods and Tonneau Covers

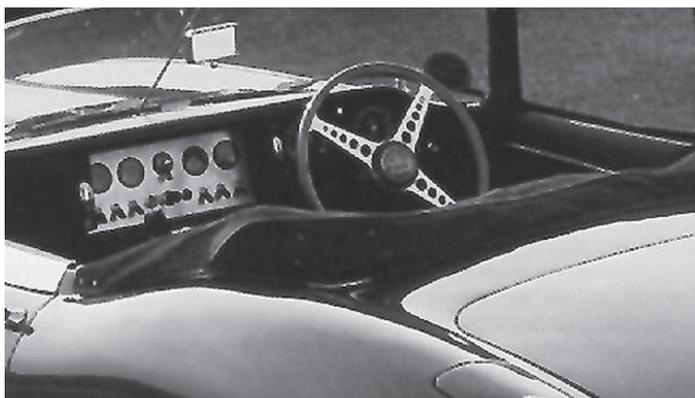

Stay-Fast is our best quality cloth top material. It is a modern acrylic-based fabric that closely resembles the original mohair material but resists shrinking, fading, mildew, and brittleness. Stay-Fast is available in a variety of colors; a black/tan top is black on the exterior and tan on the interior. While not original on later cars, we offer Stay-Fast for all E-Types.

British Everflex Vinyl was used on all E-Types from late 1966-on. This is an extremely hard-wearing material made from a single-texture English vinyl.

Ordering Information

Notification of prices

Due to the volatility of world markets and currency fluctuations the prices in this catalogue are subject to change. Moss make every attempt to keep prices competitive and stable, however in common with all other suppliers in our industry, we reserve the right to alter these prices without prior notice.

For the latest prices, please visit our website www.moss-europe.co.uk. All prices are per unit (unless otherwise stated) and include (UK) VAT at 20% (where applicable) and are correct at the time of going to print. Postage and packaging is not included. E&OE. Where the price is replaced with NCA this part is Not Currently Available. Please visit our website (moss-europe.co.uk) or call our sales staff for the latest availability information or to enquire if we can offer an alternative part.

Product supersessions

Moss Europe's policy is to detail the most up to date part information in our catalogues. Where possible parts are kept to original specification. However, in some instances we have to supersede to the most viable alternative product to maintain supply and keep cars on the road. Every effort is made to ensure high quality products.

UK ordering

We accept orders by mail, telephone, e-mail, fax and on-line at www.moss-europe.co.uk.

If you have the opportunity, we invite you to visit one of our branches. Remember, supplying details of your car, (i.e. engine, commission or Vehicle Identification Number (VIN) LHD or RHD, year of manufacture and any modifications) saves time and helps us to help you. Please inform us of your customer number, as this will speed up the processing of your order.

Overseas ordering

We accept orders by mail, telephone, e-mail, fax and on-line at www.moss-europe.co.uk. If you visit the U.K. please come and visit one of our branches. When ordering, please ensure that you enclose full details of your name, address and customer number, plus details of your car (i.e. engine, commission or Vehicle Identification Number (VIN) LHD or RHD, year of manufacture and any modifications).

Please note: Overseas orders are often subject to local import duties, taxes and Customs clearance, which will need to be paid for at the point of entry. These charges are NOT included in the price of the goods or delivery prices. All relevant Customs forms and documentation needed to ensure the order arrives with the minimum of delay, will be included with your shipment. If you have any special requirements, please contact us to discuss them. Delivery charges are dependent upon the size and weight of the shipment. If a quotation is required prior to placing an order, please contact the export department at your chosen branch and they will be pleased to supply a full quotation.

Parts back-order system

A back-order system is used when a part is not in stock at the time of ordering. If the item is expected to become available within 6 months, then it will be put on back-order, unless the customer instructs us otherwise. When we have the parts in stock, the back-order will be processed automatically and the item will be dispatched to the customer. If the particular part becomes No Longer Available (NLA) or does not become available within 6 months the back-order will be cancelled. If you are unsure when you placed a back-order contact your local branch.

Dispatch & delivery methods

Orders for delivery in the UK may be dispatched by regular post for small/lightweight items, larger items may be dispatched via a courier. Please call us for the best delivery option for your order and the latest delivery prices. For delivery outside the UK we offer the following services.

- **Economy delivery (by road):** 2 to 5 days (approximately).
- **Express delivery (by air):** 1 to 2 days (Guaranteed) - next day service to most countries.
- **For small and low value orders we also use airmail.**

For these services, please ask for prices and the best delivery option when you place your order. Most deliveries (except airmail) are 'trackable', (inc: e-mail updates and internet access for selected carriers). Please remember, all carriage charges are dependent on weight band, volume, destination and delivery time. If a quotation is required prior to placing your order, please contact a member of the sales department. Alternatively, you can arrange your own delivery and dispatch.

Windscreen delivery information

We always suggest that windscreens should be collected from one of our branches to ensure you are able to transport your glass with the utmost care. However, we understand that this is not always possible.

To minimise the possibility of damage to the windscreen in the shipping process, it is now Moss Europe's policy to ship windscreens packed in a specially designed heavy duty 'Tri-Wall' cardboard box. The price of this box is £35.00 (inc VAT), non-refundable and is included in the price of the product. The crate's dimensions will also increase shipping costs, particularly in EU countries. The crate dimensions are 150cm x 33cm x 74cm. The maximum volumetric weight is 92kgs. For more information please contact your nearest Moss branch.

Hazardous goods delivery information

At the time of going to print, Moss Europe Ltd conforms to international shipping regulations regarding packaging and transportation of Hazardous Goods by road and sea freight (only). Due to these international shipping regulations and licencing rules all goods deemed as Hazardous are currently available for shipping to the UK and Europe only. If you place an order containing Hazardous goods and your shipping address is not in the UK or Europe, we will not be able to ship this item to you. Please contact your local branch or visit our website moss-europe.co.uk for the latest delivery information of Hazardous goods.

Quotations & payment methods

We will be pleased to provide a full parts quotation detailing price, availability and relevant shipping costs. Payment may be made by cash, personal cheque (to the card guarantee limit), Certified Bank Draft, Sterling Travellers Cheques and credit or debit card including: Mastercard, Visa, Delta. If you intend to make payment by Cheque or Bankers Draft when using our fast mail-order parts service, please confirm parts availability and carriage charges.

We can accept payments using PayPal for website, email and phone orders.

Value added tax (VAT)

Value Added Tax (VAT) at the current rate will be levied on all orders being dispatched to all countries within the European Community. EU countries may be charged at their local VAT rate, please contact us or see website for details. VAT is not charged on goods dispatched to countries outside of the EU. However, such orders are often subject to local import duty, taxes and Customs clearance, which MUST be paid by you at the port of entry. Such charges are not included in the cost of the goods or delivery prices.

Exchange units

We are able to offer a full rebuild service on numerous major components in our product range. We offer this service as an alternative to direct replacement parts, or when a brand new item is no longer available. However, the continuity of this exchange scheme needs the understanding and co-operation of our customers in relation to several important points: It is important to remember that "rebuilt" does not mean "brand new". Rebuilding a unit involves stripping, cleaning, inspecting and re-assembling the unit. During this process, parts showing signs of wear will either be completely replaced or suitably renovated. However, it is not always feasible for major sub-components to be replaced with brand new ones, for example, an exchange engine will not have a new block. Due to the nature of certain product lines, some items can only be offered on a "one for one" exchange basis. This effectively means that you must offer us a viable unit before we can release a fully rebuilt item from our stock. In some instances we can only carry out reconditioning of your own unit. Our staff will inform you if this is the case.

All exchange units are subject to a surcharge. This surcharge serves two purposes; firstly, it acts as an incentive for you to return your old unit, and secondly it provides us with financial cover if your returned unit proves unsuitable for exchange purposes.

Whether or not your returned unit is suitable for exchange purposes cannot be ascertained until it is made available to us for inspection. As a general rule, suitable for exchange basically excludes any items that are beyond reasonable repair (e.g. crankcases pierced by a connecting rod) or units irrevocably damaged. We are also unable to accept units unless they are returned in whole, complete form (i.e. differential units which are returned partly stripped with no bearings and all the shims missing are not generally accepted), nor do we accept a "box of bits".

Surcharges will only be refunded once our core department has passed the item as serviceable. Under no circumstances can any exchange unit be shipped overseas until we receive your original unit. We have predetermined prices for our exchange units based on our experience of repair costs for a gearbox, axle or engine. Occasionally, however, the damage to the unit is so great that we will contact you before beginning work on your unit to advise you of any additional cost that may be incurred during the rebuild of the unit. We can return the unit (at your cost) if this proves unacceptable.

'Old unit' returns

Exchange items including reconditioned engines are subject to a surcharge that is refunded when a rebuildable unit (core) is returned. When you receive the rebuilt unit, attached to it will be a Core Return Authorisation Tag. This tag must be removed from the rebuilt unit and attached to the returned core in order to receive credit. Cores must be returned within 90 days of purchase in the original box, carton or engine cradle supplied with the rebuilt unit. Cores must be shipped clean and empty of fluids. Cores must be complete, assembled and rebuildable to receive credit or refund. You must pay all shipping charges for the return of the core and these charges are not refundable.

Warranty

All parts are warranted against defects in materials and workmanship for a period of twelve (12) months from the date of purchase. The warranty does not cover failure resulting from incorrect installation or misuse; failure during any competition, motorsports or track events; failure of any, or caused by any, related component. The warranty does not cover labour charges, nor will a warranty settlement be greater than the cost of the original component. Should you need to make a warranty claim, please contact us immediately at the branch of purchase. We will then advise you as to the best course of action. With all warranty claims a copy of the original purchase invoice must be produced.

Warranty returns

Parts that fail in use may be returned for 12 months from the date of purchase. Returns must be accompanied by the original invoice - no warranty claims will be paid without a copy of the original invoice. Return freight will be reimbursed. Electrical parts returned for warranty will be tested and if found functional, no return credit will be given and the part will be returned. Reimbursement is made by the original payment method. Complete the return form included in each order, pack the items securely and use the shipping return label supplied.

Non-warranty returns

All uninstalled parts, in their original packaging may be returned within 90 days for any reason. A copy of the original invoice or the picking label (which is generally attached to the original packaging) must accompany the return. Return freight is paid by the customer. If the return is due to our error, the return freight will be reimbursed. Parts returned outside of this policy or in non-resalable condition may not be accepted or may be assessed a 15% handling fee. Reimbursement is made by the original payment method. Complete the return form included in each order, pack the items securely and use the shipping return label supplied.

Customer service

We value your custom and wish to ensure that you receive the very best service. Every effort will be made to provide you with Quality Parts and Expertise in a relaxed, helpful and friendly manner. Should you consider the service you receive from us to be unsatisfactory, or you have any problems with the part(s) purchased, please advise a member of the sales team at the originating branch. If the matter is not resolved to your satisfaction, please e-mail our Customer Services Department at customerservices@moss-europe.co.uk or write to: **Customer Services, Moss Europe Ltd Unit 16, Hampton Business Park, Bolney Way, Feltham TW13 6DB England.** We will do our very best to resolve the issue.

British Motor Heritage

Moss Europe Ltd is a British Motor Heritage approved specialist. Our agreement with British Motor Heritage allows us the use of marque logos and some of the artwork contained within this catalogue.

BODY STYLES

ROADSTER. Any model of E-Type where the hood folds down is considered a roadster. All three series of E-Types were offered in the roadster body style. We often designate a roadster as "OTS" for "Open Two Seater." The series I and II roadsters were built on the short wheelbase (SWB) chassis; all series III cars were built on the long wheelbase (LWB) chassis shared with the 2+2 models.

COUPÉ. Any E-Type with a fixed roof and strictly two seats. Only series I and II were offered in a pure coupé body on the SWB chassis. We often designate a coupé as "FHC" for "Fixed Head Coupé." There were no series III coupés as all were built on the LWB chassis.

2+2. This body style was offered on all three series of E-Types from 1965–on. All series III hardtops were 2+2s. The 2+2 can be recognised by two small occasional seats behind the front seats. They also have a more steeply raked windshield than coupés and only 2+2s were fitted with automatic transmissions. When ordering parts for a 2+2, please be specific as some folks refer to their 2+2s as coupés; many parts do not interchange.

MODELS

SERIES I 3.8LT. The first model and still considered the purest form of the design, being uncompromised by comfort or safety regulations. This model was offered from 1961 to 1964 in the coupé and roadster body styles only and was fitted with "non-synchro" gearbox. Many body and interior changes were made during the evolution of the 3.8lt E-Type.

SERIES I 4.2LT. Virtually identical in appearance to the earlier 3.8lt cars, but with some important mechanical changes, including a larger displacement engine, an all-synchro gearbox, an alternator rather than a generator, a modern brake servo, improved cooling and more comfortable seats. Shortly after the introduction of the series I 4.2lt the 2+2 body style debuted.

SERIES I.V 4.2 LT. While, officially, there is no such thing as a "series I.V," the appellation refers to a transition model produced from late 1967 through late 1968. These cars can thus be problematic from a spare parts perspective because Jaguar slowly transitioned from Series I to II items such as carburation, cooling systems, electrics, and trim. A series I.V can be easily identified by series II-style open headlamps but with turn signals and tail lamps above the bumpers. The series I.V came in all three body styles.

SERIES II 4.2LT. Offered from 1969 to early 1971, the series II incorporated many changes to meet safety and emissions requirements. While performance and looks were compromised, in reality these cars were superior in many ways, with improved brakes, cooling and seats. The series II was offered in coupé, roadster and 2+2 body styles. Ordering parts for these models is somewhat more difficult than the earlier models because Jaguar never produced an illustrated parts manual (however, one is now available). In addition, there are many subtle differences between early and late series II cars as Jaguar attempted to comply with American safety and emissions standards.

SERIES III V-12. This model was offered from 1971 to 1974 and came only as a roadster or 2+2. The roadsters were built on the long-wheelbase chassis of the 2+2. This model featured the new V-12 engine and many other new features. While series IIIs are more GT than sports car, they are by far the most comfortable and civilised E-Types with available automatic transmission and a well-engineered air conditioning system. Power steering was also made standard equipment on the V-12 cars.
